AGENDA

1. **Introductions** – Welcome from our hosts; Overview of LJB, Inc.
2. **Southwest Ohio Regional Water Study – Future Planning Scenarios (CDM Smith)**
The Southwest Ohio Regional Water Study is evaluating long-term water supply and water quality risks and opportunities through 2050. The project team will provide an overview of the future planning scenarios developed for the study, including the population, public water demand, and industrial growth projections. Attendees will also learn about the key risks identified and the range of water management alternatives being evaluated to enhance regional water resilience.
3. **Working Group on Facility Planning Area (FPA) Update Process**
A cross-section of wastewater Designated Management Agencies is guiding MVRPC staff on a review and update of the Facility Planning Policies, which govern the process for updating wastewater planning areas in our region. Matt Lindsay will provide an update on the review timeline and highlight potential changes to the policies, which have not been updated since 2005.
4. **Community/Agency Roundtable**
Participants are invited to share current/recent work related to environment, climate pollution reduction, resiliency at your community or agency.
5. **SFY 2027 Meeting Dates:** Second Wednesdays in September, November, January, March, and May: **September 9, 2026; Tuesday, November 10, 2026; January 13, 2027; March 10, 2027; May 12, 2027.** (November 2026 meeting moved so to not fall on a federal holiday.)
6. Adjourn
