

## ODOT Regulated Properties Search (ORPS) Tool Instructions

1. Go to <http://gis3.dot.state.oh.us/rmr/>
2. Zoom in to project location.
3. Click on “Select” in top left hand corner

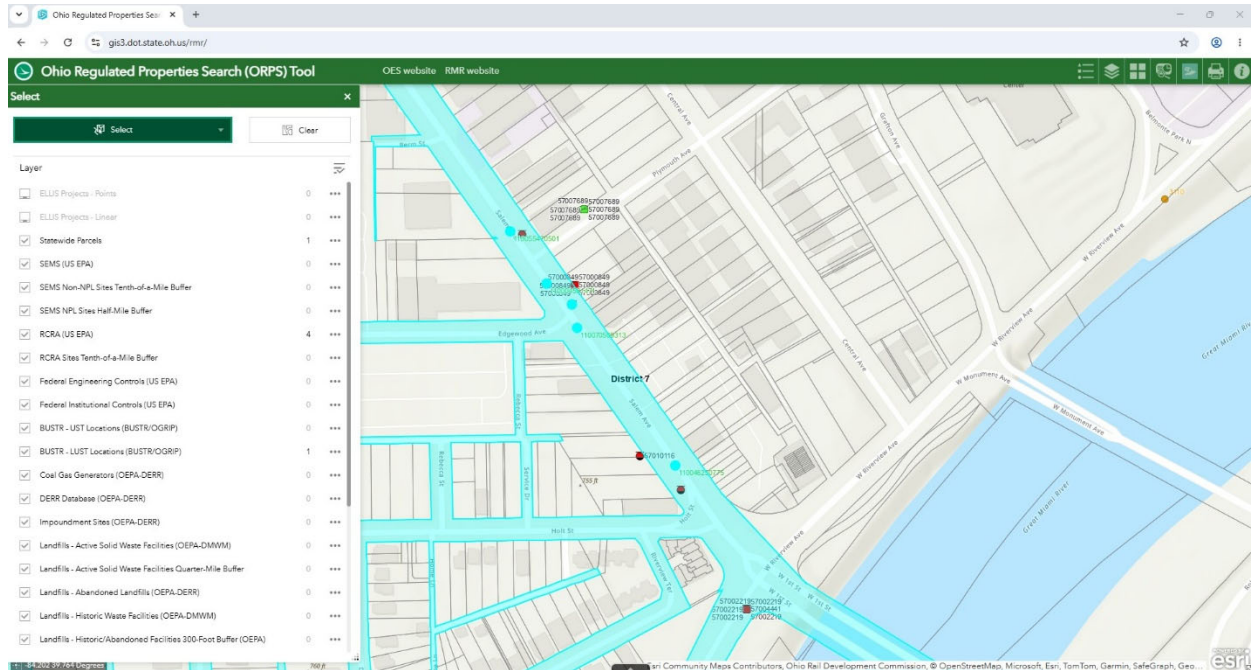

4. Under the Select drop down menu, click “Select by line”

5. Draw a line along the project limits on the map.

6. Take a screen shot of the map centered over the project location showing the results in the select box. More than one screen shot may be necessary to show all results in the select box.....just drag down the slider on the right side of the select box and take a second screen shot.

7. Print out screen shot(s) and include with application.
