INDEPENDENT AUDITOR'S REPORT

December 28, 2018

Miami Valley Regional Planning Commission
Montgomery County
10 North Ludlow Street, Suite 700
Dayton, OH 45402

To the Board of Directors:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of **Miami Valley Regional Planning Commission**, Montgomery County, Ohio (the MVRPC), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the MVRPC's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the MVRPC's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the MVRPC's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Miami Valley Regional Planning Commission, Montgomery County, Ohio, as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 10 to the financial statements, during 2018, the Commission adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, schedules of net pension and OPEB liabilities and pension and OPEB contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the MVRPC's basic financial statements taken as a whole.

The Governmental Funds Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General Fund and Special Revenue Grant Fund, Schedule of General Capital Assets; Schedule of Changes in General Capital Assets; Schedule of Fringe Benefit Cost Pool Charges, Rate Base, Final Rate Computation and Current Year's Recovery Comparison; Schedule of Indirect Cost Pool Charges, Rate Base, Final Rate Computation and Current Year's Recovery Comparison; Schedule of Costs for Federal Highway Administration, Ohio Department of Transportation, and Ohio EPA by Work Element; and Officers and Executive Committee present additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

The schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Matters (Continued)

We did not subject the Schedule of General Capital Assets; Schedule of Changes in General Capital Assets; Schedule of Fringe Benefit Cost Pool Charges, Rate Base, Final Rate Computation and Current Year's Recovery Comparison; Schedule of Indirect Cost Pool Charges, Rate Base, Final Rate Computation and Current Year's Recovery Comparison; Schedule of Costs for Federal Highway Administration, Ohio Department of Transportation, and Ohio EPA by Work Element; and Officers and Executive Committee to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 28, 2018, on our consideration of the MVRPC's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the MVRPC's internal control over financial reporting and compliance.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(Unaudited)

The discussion and analysis of the Miami Valley Regional Planning Commission's (MVRPC) financial performance provides an overall review of the MVRPC's financial activities for the fiscal year ended June 30, 2018. The intent of this discussion and analysis is to look at the MVRPC's financial performance as a whole; readers should also review the financial statements and the notes to the basic financial statements to enhance their understanding of the MVRPC's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2018 are as follows:

Overall:

- Total net position decreased \$(286,623) for fiscal year (FY) 2017. The net position decrease was significantly affected by OPERS pension liability and pension expense changes. See GASB 68 & 75 discussion below.
- Total assets of governmental activities increased \$146,099.
- General revenues accounted for \$472,477 or 12.7 percent of total revenue. Program revenues in the form of operating grants were \$3.2 million.
- MVRPC's \$3.99 million in expenses were offset by program revenues of \$3.2 million, and membership dues of \$471,372. Membership dues were slightly more than FY2017.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Miami Valley Regional Planning Commission as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net position and Statement of Activities provide information about the activities of MVRPC as a whole, presenting both an aggregated view of the MVRPC's finances and a longer-term view of those statements. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the MVRPC's most significant funds, the General Fund and Special Revenue Grant Fund.

Reporting the MVRPC as a Whole

Statement of Net position and the Statement of Activities

The Statement of Net position and the Statement of Activities answers the question "How did we do financially during 2018?" These statements include all assets, deferred outflow of resources, liabilities and deferred inflow of resources using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

**Miami Valley Regional Planning Commission
Montgomery County**

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(Unaudited)

Governmental Accounting Standards Board (GASB) is the standards-setting body for all government financial accounting and financial reports prepared in accordance with generally accepted accounting principles. MVRPC participates in the Ohio Employee Retirement System and provides pension contributions annually as required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 accounting standard takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the MVRPC's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the MVRPC is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as *against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the MVRPC's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of GASB 68, the MVRPC is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting.

**Miami Valley Regional Planning Commission
Montgomery County**

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(Unaudited)

During 2018, the MVRPC adopted GASB Statement 75, *Accounting and Financial Report for Postemployment Benefits Other than OPEBs* – which significantly revises accounting for other post-employment benefits (OBEP) other than OPEB costs and liabilities. For reason discussed below, many end users of this financial statement will gain a clearer understanding of the MVRPC's actual financial condition by adding deferred inflows related to OPEB and the net OPEB liability to the reported net position and subtracting the net OPEB asset and deferred outflows related to OPEB.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for OPEB costs, GASB 45 focused on a funding approach. This approach limited OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net OPEB *asset/liability*. GASB 75 takes an earnings approach to OPEB accounting; however, the nature of Ohio's statewide OPEB systems and state law governing that system requires additional explanation in order to properly understand the information presented in these statements.

Under GASB 75, the net OPEB asset/liability equals the MVRPC's proportionate share of each plan's collective:

1. Present value of estimated future OPEB benefits attributable to active and inactive employee's past service.
2. Minus plan assets available to pay these benefits.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net OPEB liability. Changes in OPEB benefits, contribution rates, and return on investments affect the balance of the net OPEB liability, but are outside the control of the local government. Due to the unique nature of how the net OPEB liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 75, the MVRPC's statements prepared on an accrual basis of accounting include an annual OPEB expense for their proportionate share of each plan's *change* in net OPEB asset/liability not accounted for as deferred inflows/outflows of resources.

As a result of implementing GASB 75, MVRPC is reporting net OPEB asset/liability and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting. The implementation had the effect of restating net position at June 30, 2017 from \$1,717,236 to \$389,597.

The Statement of Net Position and the Statement of Activities report the MVRPC's net position and changes in that position. This change in net position is important because it shows MVRPC's change in financial results for the year ended June 30, 2018.

In the Statement of Net position and the Statement of Activities, MVRPC reports governmental activities. All of MVRPC's activities are considered Governmental activities. They include, but are not limited to, transportation planning, environmental planning, community planning and support services. The MVRPC does not have any business-type activities.

**Miami Valley Regional Planning Commission
Montgomery County**

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(Unaudited)

Table 1 provides a summary of the MVRPC's net position for Fiscal Years 2018 and 2017:

TABLE 1
Statement of Net position

	2018	2017 Restated	Change
<i>ASSETS</i>			
Current Assets	\$4,139,483	\$3,982,365	\$157,118
Capital Assets Being Depreciated (net)	92,368	103,387	(11,019)
Total Assets	4,231,851	4,085,752	146,099
Deferred Outflows of Resources – Pension and OPEB	544,148	1,270,812	(726,664)
<i>LIABILITIES</i>			
Current Liabilities	373,468	351,331	22,137
Net Pension and Other Post Employment Liability	3,462,010	4,405,897	(943,887)
Long Term Liabilities	192,143	191,470	673
Total Liabilities	4,027,621	4,948,698	(921,077)
Deferred Inflows of Resources – Pension and OPEB	645,405	18,269	627,136
<i>NET POSITION</i>			
Net Investment in Capital Assets	92,368	103,387	(11,019)
Unrestricted	10,605	286,210	(275,605)
Total Net position	\$102,973	\$389,597	\$(286,624)

The amount by which the MVRPC's assets and deferred outflows exceeded its liabilities and deferred inflows is called net position. As of June 30, 2018, the MVRPC's net position was \$0.1 million. Total net position decreased by \$286 thousand. MVRPC's liabilities decreased by \$921 thousand, primarily due to decreased net pension and Other Post Employment Benefits (OPEB) liabilities. FY2017 Statement of Net Position was restated to implement OPEB liability for implementation of the GASB 75 accounting standard.

Of the total net position amount, approximately \$92 thousand was the investment in capital assets. The remaining balance of \$0.1 million was unrestricted and available for future use as directed by the MVRPC Board.

**Miami Valley Regional Planning Commission
Montgomery County**

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(Unaudited)

Table 2 shows the changes in net position for fiscal year 2018 compared to 2017:

TABLE 2
Statement of Activities – Change in Net position

	<u>2018</u>	<u>2017</u>	<u>Change</u>
Revenues			
<u>Program Revenues:</u>			
Operating Grants	\$3,233,533	\$3,195,411	\$38,122
<u>General Revenues:</u>			
Membership Dues	471,372	464,821	6,551
Miscellaneous	1,105	70	1,035
Total Revenues	<u>3,706,010</u>	<u>3,660,302</u>	<u>45,708</u>
Program Expenses			
General Government	587,650	436,241	151,409
Transportation Planning	3,257,398	3,257,514	(116)
Environmental Planning	117,414	78,196	39,218
Regional Planning	30,171	12,149	18,022
Total Expenses	<u>3,992,633</u>	<u>3,784,100</u>	<u>208,533</u>
Decrease in Net position	<u>\$(286,623)</u>	<u>\$(123,798)</u>	<u>\$162,825</u>

Under GASB 68, pension expense represents proportionate share of each plan's change in net pension liability, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2018 statements include a pension expense adjustment of \$289,178 and the FY2018 statements include a pension and OPEB expense adjustment of \$409,913 due to changes in the Ohio Pension Employees Retirement System actuarial assumptions and investment experience. Because FY2018 is the initial year of GASB 75 implementation the FY2017 expenditures are not restated because this information is not available.

Total operating grants revenue increased by \$46 thousand from 2017 primarily due to higher transportation planning revenues.

MVRPC is extremely dependent upon intergovernmental revenues (federal grants) provided by the federal government through the State of Ohio; approximately 84 percent of the MVRPC's total revenue was received from intergovernmental sources during FY2018. MVRPC has been able to maintain a stable financial position through careful management of expenses. However, MVRPC is vulnerable to changes in federal and state grant programs.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services.

**Miami Valley Regional Planning Commission
Montgomery County**

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(Unaudited)

Reporting the MVRPC's Most Significant Funds

The MVRPC's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual, which measures cash and all other financial assets that can readily be converted to cash within one year. The governmental fund statements provide a detailed short-term view of the MVRPC's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance MVRPC programs. The relationship (or differences) between activities (reported in the Statement of Net position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Fund financial reports provide detailed information about the General Fund and Special Revenue Grant funds. The MVRPC uses two funds to account for a multitude of financial transactions. Both of these funds are considered significant.

The General Fund had total revenue of \$0.6 million plus other financing sources of \$1.8 million. Expenditures totaled \$2.1 million. General fund balance increased by \$132 thousand in 2018 to \$3.8 million, which is a positive increase in fund balance primarily because the GASB 68 pension and OPEB liability and expense adjustments are excluded in the Governmental funds statements.

The Special Revenue Grant Fund provides the detail of all federal grants received by MVRPC. The Special Revenue Fund had total revenues of \$3.1 million. This was intergovernmental revenues from federal grants, primarily from the U. S. Department of Transportation. The use of these funds had local net matching requirements of \$181 thousand. This was provided by the General Fund as operating transfers-in.

General Fund Budgeting Highlights

The MVRPC's budget is prepared on the modified accrual basis. The most significant budgeted funds are the General Fund and the Special Revenue Grant Fund.

During the course of fiscal year 2018, the MVRPC amended its budget. The primary budget variance was unspent contract expenses and resulting revenue that will carryover to the next year.

Capital Assets

At the end of fiscal year 2018, the MVRPC had \$92,368 net invested in furniture, equipment, and leasehold improvements in governmental activities. Capital assets decreased primarily due to routine capital asset retirement for the year.

**Miami Valley Regional Planning Commission
Montgomery County**

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2018
(Unaudited)

Table 3 shows fiscal year 2018 capital assets balances compared to 2017:

TABLE 3
Capital Assets at June 30

	2018	2017
Furniture	\$ 78,804	\$ 77,528
Equipment	188,372	182,487
Leasehold Improvements	40,277	40,277
Less: Accumulated Depreciation	(215,085)	(196,905)
	\$ 92,368	\$ 103,387

Overall net capital assets decreased approximately \$11 thousand from fiscal year 2017.

For the Future

The Miami Valley Regional Planning Commission continues to rely primarily on federal grants to finance its planning activities. The majority of these federal grants are provided by the U.S. Department of Transportation through the State of Ohio.

In 2015, the President signed the Transportation Reauthorization Act entitled "Fixing America's Surface Transportation Act" (FAST Act) for Federal Fiscal years FFY2016- FFY2020.

The Act is the vehicle by which federal funds are provided to Metropolitan Planning Organizations (MPO). MVRPC is the MPO for this region.

Contacting the MVRPC's Financial Management

This financial report is designed to provide our members, citizens and taxpayers, with a general overview of the MVRPC's finances and to show the MVRPC's accountability for the money it receives. If you have questions about this report or need additional financial information contact the Director of Finance and Administration's Office at Miami Valley Regional Planning Commission, 10 North Ludlow Street, Suite 700, Dayton, Ohio 45402 or call (937) 223-6323.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization

The Miami Valley Regional Planning Commission (MVRPC) was created in 1964 by authority granted under the Ohio Revised Code. MVRPC is a regional planning agency composed of representatives from political subdivisions, other governmental agencies, and non-governmental entities in Montgomery, Greene, Miami, Darke, and Preble Counties in Ohio. MVRPC monitors and performs planning activities affecting present and future transportation, environmental, social, economic, physical and governmental characteristics of the region.

By an agreement between MVRPC and the State of Ohio, MVRPC is designated by the State as a Metropolitan Planning Organization, with responsibility for implementing a coordinated, continuing, comprehensive transportation planning process for Greene, Miami, and Montgomery Counties and parts of northern Warren County.

On October 24, 1984, amendments to the Constitution and Bylaws were approved that included updated strategic plan recommendations. The primary changes included a new mission statement, expansion of the Commission to include up to 25% non-governmental members, and the creation of a Board of Directors.

From September 2002 through February, 2004, MVRPC conducted a multi-phase Visioning and Strategic Planning Process with the goal of creating a more streamlined, efficient and responsive organization. On September 24, 2003, the new MVRPC Strategic Plan was adopted. Work then began on developing a structure more conducive to implementing the goals of the Strategic Plan. This effort resulted in the creation and adoption of a substantially revised Constitution and Bylaws on February 25, 2004, with implementation to begin on March 24, 2004. Key changes include:

Board of Directors

- The Commission and the Transportation Committee are merged into a newly created Board of Directors. County Engineers within the MPO Boundary now are Board members.
- All policy responsibility is vested with the merged body.
- The current weighted voting structure of the Transportation Committee is retained.
- Weighted voting can only be used by the Board of Directors. It cannot occur at the initial meeting when the request is made unless $\frac{3}{4}$ of the members present approve. Otherwise, it will occur at the next scheduled meeting.
- Only MPO members located within the MPO Boundary (Greene, Miami, Montgomery counties and part of northern Warren county) can vote on transportation issues.
- ODOT representatives and urban transit operators may be members of the Board and vote on transportation issues.
- Each county's assessment is calculated based on 25% of the total county population; all other governmental members continue to pay a per capita assessment.
- Bylaws can be amended by a majority vote and the process for amending bylaws can be changed by a $\frac{2}{3}$ majority vote. (Neither can be subject to weighted voting.)

Executive Committee

- The previous Board of Directors is now called the Executive Committee.
- The Executive Committee is responsible for handling "routine and emergency" matters.
- Counties (the Commissioners) appoint a member, one from each member county.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (Continued)

- Cities and villages appoint 7 members, one of which is the largest city; one member is chosen from each of the MPO counties; and no more than 4 members may be chosen from any one county. These members are chosen annually by caucus of member cities and villages.
- Townships appoint 3 members from counties located within the MPO boundary. No more than one member from the same county may be chosen. These members are selected annually by caucus of member townships
- Non-governmental members appoint 3 members, also chosen annually by caucus.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of MVRPC have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of MVRPC accounting policies are described below.

Basis of Presentation

MVRPC's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about MVRPC as a whole. These statements include the financial activities of the primary government. The statement of net position presents the financial condition of the governmental activities of MVRPC at year-end. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each program or function of MVRPC governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of MVRPC, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of MVRPC.

Fund Financial Statements

During the year, MVRPC segregated transactions related to certain organizational functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of MVRPC at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

Fund Accounting

MVRPC uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain organizational functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of MVRPC are grouped into the governmental category.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Funds

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The General Fund and the Special Revenue Grant Fund are the only major funds of MVRPC:

General Fund – The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The general fund contains some small non-federal grants and other funding sources that are available to MVRPC for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Grant Fund – The Special Revenue Grant Fund is used to account for grant and federal contract revenue that is legally restricted to expenditures for specified purposes.

Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows, liabilities and deferred inflows associated with the operation of MVRPC are included on the Statement of Net position.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows and in the presentation of expenses versus expenditures. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For MVRPC, available means expected to be received within ninety days of fiscal year end. Nonexchange transactions, in which MVRPC receives value without directly giving equal value in return, include grants, entitlements, and donations. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which MVRPC must provide local

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to MVRPC on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: grants, and other revenue. Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as unearned revenue. On the accrual basis of accounting, expenses are recognized at the time they are incurred.

Property, Plant and Equipment

MVRPC capitalizes at cost all purchased property and equipment costing \$1,500 and greater and with a useful life greater than one year. Depreciation is provided on the straight-line method over the estimated useful lives of the assets ranging from 4 to 10 years. Leasehold improvements are amortized over the lesser of the useful life of the asset or term of the lease. Donated property and equipment are recorded at fair market value on date donated. Upon sale or disposition of property and equipment, the cost and related depreciation are removed from the accounts and any gain or loss is recognized.

Compensated Absences

MVRPC employees are granted annual leave (vacation) and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated annual leave and employees who retire with 10 or more years of service are eligible for a percentage of accumulated sick leave up to a maximum amount. Sick leave benefits are accrued using the vesting method in accordance with GASB Statement No. 16, *Accounting for Compensated Absences*. An accrual for earned sick leave is reduced to the maximum amount allowed for employees eligible for a retirement termination payment plus a small estimate for some employees short term sick leave use that is expected to be greater than normal.

Revenues

General fund revenues are determined by contractual agreements with member political subdivisions represented by MVRPC. Member jurisdictions of MVRPC pay an annual membership fee based on the latest official census or federal revenue sharing population estimates. The annual assessment was as follows:

Member Type

Within the MPO planning	
Counties - 25% of total population	\$0.46/ capita
Municipalities and Townships	\$0.46/ capita
Outside the MPO planning area	
Counties - 25% of total population	\$0.25/ capita
Municipalities and Townships	\$0.25/ capita
Quasi and Non-governmental bodies	\$1,000 annual

The total revenue generated from member fees was \$471,373.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Special Revenue Grant Fund

Grant revenue is recognized when compliance with the various grant requirements is achieved. Generally this occurs at the time expenditures are made and the grant matching requirements are met. Grant revenues received before the revenue recognition criteria have been met are reported as unearned revenues, a liability account. When the revenue recognition criteria have been met, grant revenues not yet received are reported as grants receivable, if the amounts have been billed to grantor agencies, or as earned not billed, if amounts are unbilled.

Carry-over Grants and Contracts

Several grants continued after June 30, 2018. The amounts available for completing grant objectives for these grant programs are summarized below by funding type. MVRPC's required match for these carry over funds is approximately \$37,987.

<u>Type</u>	<u>Amount</u>
Federal Grants	\$ 1,252,089
Other Grants and Contracts	4,004

Indirect Costs

MVRPC uses an indirect cost rate to recover administrative expenditures. The FY2018 indirect costs were billed at a provisional rate of 59.4% of direct labor dollars, including fringe benefits. Also, as discussed in note 4, fringe benefit expenditures are recovered by applying a provisional rate to all programs.

Fund Balances

In accordance with Governmental Accounting Standards Board Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the MVRPC classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The following categories are used:

Non-spendable – resources that are not in spendable form such as inventory or have legal or contractual requirements to maintain the balance intact.

Restricted – resources that have external purpose restraints imposed on them by providers, such as creditors, grantors, or other regulators; or imposed by law through constitutional provisions (MVRPC Charter) or enabling legislation.

Committed – resources that are constrained for specific purposes that are internally imposed by the MVRPC at its highest level of decision making authority.

Assigned – resources that are intended to be used for specific purposes, but are neither restricted nor committed. The amount designated for Future Year's Operation represents 50% of the current membership dues. This amount is designated because membership period is based upon the calendar year and 100% of the dues revenue is recognized during the current fiscal year.

Unassigned – residual fund balance within the General Fund that is not restricted, committed, or assigned to specific purposes. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from incurred expenditures for specific purposes exceeding amounts which had been restricted, committed or assigned for said purpose.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The MVRPC applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classification could be used.

Budgets

Budgets for the general and special revenue fund are prepared annually on a modified accrual method by the staff and approved by the Commission. Budgets are reviewed on an ongoing basis and amendments are proposed as necessary. The amendments are approved by the Executive Committee.

Estimates

The preparation of financial statements in conformity with accounting principles general accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB liability, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

3. LEASE COMMITMENTS

MVRPC entered into a operating lease agreement for office space through December 31, 2024 and office equipment leases. The future minimum lease commitments as of June 30, 2017 are as follows:

<u>Fiscal Year Ended</u>	<u>Office Space</u>	<u>Equipment</u>
2019	\$172,500	\$4,807
2020	172,500	1,680
2021	172,500	1,680

Total rental expense for all equipment and office for the year ended June 30, 2018 was \$179,641. Current office equipment leases expire in the next two years, but are expected to be replaced with similar equipment and lease costs.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

4. COST ALLOCATION PLAN

A cost allocation plan is prepared annually by MVRPC. The plan, which includes fringe benefit and indirect costs, is used for the purpose of determining allocation rates and is prepared in accordance with the provisions of Office of Management and Budget (OMB) 2CFR Part 200 and the U.S. Department of Health and Human Services' Circular OASC-10 and OMB Uniform Guidance. The plan is submitted to the over-site grantor agency, the Federal Highway Administration through the Ohio Department of Transportation, for approval and authorization of negotiated allocation rates, which are used for billing purposes during the fiscal year. The Ohio Department of Transportation has agreed to let MVRPC adjust its provisional rates to the actual experienced rates prior to final billing. These adjusted provisional rates are subject to audit at the end of each fiscal year, when actual rates are determined and submitted to the over-site agency for approval. If the actual rates are less than the adjusted provisional rates, MVRPC must refund any over-billed amounts to the various grantor agencies. Conversely, MVRPC may recover under-billed amounts when unapplied funds remain from the various grantor agencies. Adjustments as a result of a change in the rates are recognized for financial reporting purposes when determined.

Following are summaries of the accounting treatment and rate experience for fringe benefit and indirect cost for FY2018.

Fringe Benefits

Fringe benefit costs are recorded in the general fund and allocated to the Special Grant revenue funds in accordance with the approved cost allocation plan, based upon a provisional rate approved by the oversight grantor agency. The FY2018 fringe benefit costs were allocated at a provisional rate of 59.4% of productive direct and indirect labor dollars. The actual fringe benefit cost rate was 58.138%. Per the agreement with ODOT, the provisional rate was adjusted to actual and the adjustment is reflected in the financial statements.

Indirect Costs

Administrative costs are recorded in the general fund as indirect costs and allocated to the Special Grant revenue funds in accordance with the approved cost allocation plan, based upon a provisional rate approved by the over-site grantor agency. The FY2018 indirect costs were allocated at a provisional rate of 47.97% of direct labor dollars, including fringe benefits. The actual indirect cost rate was 43.517%. Per the agreement with ODOT, the provisional rate was adjusted to actual and the adjustment is reflected in the financial statements.

5. CONTINGENCIES

The use of direct federal grant funds and state administered federal grant funds is subject to review and audit by the grantor agencies. Such audits could lead to request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based upon prior experience, management believes that MVRPC will not incur significant losses, if any, on possible grant disallowance.

6. INTERFUND ACTIVITY

As of June 30, 2018 there was an Interfund Receivable of \$377,672 in the General Fund and an Interfund Payable of \$377,672 in the Special Grant Revenue Fund. The due to represents amounts for grants receivable at June 30, 2018 from various Federal and State grants.

During the year ended June 30, 2018 the General Fund transferred \$181,455 to the Special Revenue Grant Fund to provide local matching funds associated with federal grant programs.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

7. CASH AND INVESTMENTS

Pooled Cash

The Commission's cash balances are held in the Montgomery County Treasury. Cash is held in a demand deposit account that is insured or collateralized by Federal Depository Insurance and by collateral held by a qualified third-party trustee.

8. DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability, to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the Commission's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the Commission's obligation for this liability to annually required payments. The Commission cannot control benefit terms or the manner in which pensions are financed; however, the Commission does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's excess unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in accrued personnel costs on both the accrual and modified accrual bases of accounting.

Plan Description

Plan Description - Commission employees participate in the Ohio Public Employees Retirement System (OPERS). OPERS administer three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

contribution plan and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. Commission employees) may elect the member-directed plan and the combined plan, substantially all employee members are in OPERS' traditional plan; therefore, the following disclosure focuses on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three-member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A	Group B	Group C
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in the other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Formula: 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Ending 12/31/2017 State and Local	Beginning 1/1/2018 State and Local
2017 Statutory Maximum Contribution Rates		
Employer	14.0%	14.0%
Employee	10.0%	10.0%
 2017 Actual Contribution Rates		
Employer:		
Pension	13.0%	14.0%
Post-employment Health Care Benefits	1.0%	0.0%
Total Employer	14.0%	14.0%
Employee	10.0%	10.0%

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Commission's contractually required contribution for the period ended June 30, 2018, 2017, and 2016 were \$221,794, \$226,161 and \$212,400. 100% has been contributed for 2018, 2017, and 2016.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Commission's proportion of the net pension liability was based on the Commission's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	Traditional Pension Plan
Proportionate Share of the Net Pension Liability	\$ 2,025,329
Proportion of the Net Pension Liability	0.012910%
Increase/(decrease) in % from prior proportion measured	-0.000607%
Pension Expense	\$ 415,651

At June 30, 2018, the Commission reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

	Traditional Pension Plan
Deferred Outflows of Resources	
Changes in assumptions	\$ 242,040
Differences between expected and actual experience	2,069
Changes in proportion and differences government contributions and proportionate share of contributions	78,807
District contributions subsequent to the measurement date	115,507
Total Deferred Outflows of Resources	\$ 438,423
Deferred Inflows of Resources	
Net difference between projected and actual earnings on pension plan investments	\$ 434,811
Differences between expected and actual experience	39,913
Changes in proportion and differences government contributions and proportionate share of contributions	63,658
Total Deferred Inflows of Resources	\$ 538,382

\$115,507 reported as deferred outflows of resources related to pension resulting from Commission contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Fiscal year Ending June 30:	Traditional Pension Plan
2019	\$ 222,196
2020	(67,523)
2021	(191,466)
2022	(178,673)
Total	\$ (215,466)

Actuarial Assumptions - OPERS

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

OPERS' total pension asset and liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan.

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of December 31, 2017, are presented below:

Key Methods and Assumptions Used in Valuation of Total Pension	
Actuarial Information	Traditional Pension Plan
Valuation Date	December 31, 2017
Experience Study	5 Year Period Ended December 31, 2015
Actuarial Cost Method	Individual entry age
Actuarial Assumptions:	
Investment Rate of Return	7.50%
Wage Inflation	3.25%
Projected Salary Increases	3.25% to 10.75% (Includes wage inflation of 3.25%)
Cost-of-Living Adjustments	Pre - 1/7/2013 Retirees: 3.00% Simple; Post - 1/7/2013 Retirees: 3.00% Simple through 2018, then 2.15% Simple

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

The most recent experience study was completed for the five-year period ended December 31, 2015.

The long-term rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2017 OPERS manage investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, the defined benefit component of the Combined Plan. Within the defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first on the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 16.92% for 2017.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2017 and the long-term expected real rates of return:

Asset Class	Target Allocation for 2017	Weighted Average Long-Term Expected Real Rate of Return
		(Arithmetic)
Fixed Income	23.00%	2.20%
Domestic Equities	19.00%	6.37%
Real Estate	10.00%	5.26%
Private Equity	10.00%	8.97%
International Equities	20.00%	7.88%
Other Investments	18.00%	5.26%
Total	100.00%	5.66%

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

8. DEFINED BENEFIT PENSION PLAN (CONTINUED)

Discount Rate The discount rate used to measure the total pension liability was 7.5%, post experience study results, for the Traditional Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Commission's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the Commission's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.5 percent, as well as what the Commission's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.5 percent) or one-percentage-point higher (8.5 percent) than the current rate:

Emoloyer's Net Pension Liability/(Asset)	1% Decrease 6.5%	Current Discount Rate 7.5%	1% Increase 8.5%
Traditional Pension Plan	\$ 3,596,468	\$ 2,025,329	\$ 715,472

9. POST EMPLOYMENT BENEFITS

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description – Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan—a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan—a defined contribution plan; and the Combined Plan—a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing multiple-employer defined benefit post-employment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement, to qualifying benefit recipients of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including OPERS health care coverage.

In order to qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 20 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available.

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

9. POST EMPLOYMENT BENEFITS (Continued)

Disclosures for the health care plan are presented separately in the OPERS financial report which may be obtained by visiting <https://www.opers.org/investments/cafr.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy –The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through contributions to OPERS. A portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In calendar year 2017, state and local employers contributed at a rate of 14.0 percent of covered payroll. This is the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of post-employment health care benefits. The portion of employer contribution allocated to health care for members in the Traditional Plan was 1.0 percent during calendar year 2017. Beginning January 1, 2018 decreased to 0.0% for the traditional plan.

The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided, by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The Commission's contributions allocated to fund post-employment health care benefits for the years ended June 30, 2018, 2017, and 2016, were \$7,698, \$27,882 and \$35,400, respectively. 100% has been contributed for 2018, 2017, and 2016.

10. NEWLY ADOPTED STATEMENTS ISSUED BY GASB

The Governmental Accounting Standards Board has issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for fiscal years beginning after June 15, 2017. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. The adoption of GASB Statement No. 75 has required a restatement of beginning net position for its financial statements.

The Governmental Accounting Standards Board has also issued Statement No. 85, Omnibus 2017, effective for fiscal years beginning after June 15, 2017. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits. The adoption of GASB Statement No. 85 had no impact on the June 30, 2018 financial statements.

11. DEFINED BENEFIT OPEB PLAN

Net OPEB Liability

For fiscal year 2018, Governmental Accounting Standards Board (GASB) Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" was effective.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

11. DEFINED BENEFIT OPEB PLAN (Continued)

OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period.

The net OPEB liability represents MVRPC's proportionate share of each OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan's fiduciary net position. The net OPEB liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits MVRPC's obligation for this liability to annually required payments. MVRPC's cannot control benefit terms or the manner in which OPEB are financed; however, MVRPC's does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability. Resulting adjustments to the net OPEB liability would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

Plan Description

MVRPC employees participate in the Ohio Public Employees Retirement System of Ohio (OPERS), which is a cost-sharing, multiple-employer retirement plan. OPERS maintains one health care trust, the 115 Health Care Trust (115 Trust), which was established in 2014 to initially provide a funding mechanism for a health reimbursement arrangement (HRA), as the prior trust structure could not support the HRA. In March 2016, OPERS received two favorable rulings from the Internal Revenue Service (IRS) allowing OPERS to consolidate health care assets into the 115 Trust. The 401(h) Health Care Trust (401(h) Trust) was a pre-funded trust that provided health care funding for eligible members of the Traditional Pension Plan and the Combined Plan through December 31, 2015, when plans funded through the 401(h) Trust were terminated. The Voluntary Employees' Beneficiary Association Trust (VEBA Trust) accumulated funding for retiree medical accounts for participants in the Member- Directed Plan through June 30, 2016. The 401(h) Trust and the VEBA Trust were closed as of June 30, 2016 and the net positions transferred to the 115 Trust on July 1, 2016. Beginning in 2016, the 115 Trust, established under Internal Revenue Code (IRC) Section 115, is the funding vehicle for all health care plans. The Plan is included in the report of OPERS which can be obtained by visiting www.opers.org or by calling (800) 222-7377.

Funding Policy – Ohio Revised Code Chapter 145 authorizes OPERS to offer the Plan and gives the OPERS Board of Trustees discretionary authority over how much, if any, of the health care costs will be absorbed by OPERS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14 percent of covered payroll. For the year ended

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

11. DEFINED BENEFIT OPEB PLAN (Continued)

December 31, 2017. OPERS allocated 1.0% of employer contributions to post-employment health care.

Net OPEB Liability

The net OPEB liability was measured as of December 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. MVRPC's proportion of the net OPEB liability was based on MVRPC's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share:

	OPERS
Proportionate Share of the Net OPEB Liability	\$ 1,436,681
Proportion of the Net OPEB Liability	0.013230%
Increase/(decrease) in % from prior proportion measured	0.000000%
OPEB Expense	\$ 110,340

At June 30, 2018, the Commission reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	OPERS
Deferred Outflows of Resources	
Changes in assumptions	\$ 104,606
Differences between expected and actual experience	1,119
	1,119
Total Deferred Outflows of Resources	\$ 105,725
Deferred Inflows of Resources	
Net difference between projected and actual earnings on pension plan investments	\$ 107,023
Total Deferred Inflows of Resources	\$ 107,023

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ending June 30:	OPERS
2019	\$ 23,791
2020	23,791
2021	(22,122)
2022	(26,758)
	(26,758)
Total	\$ (1,298)

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

11. DEFINED BENEFIT OPEB PLAN (Continued)

Actuarial Assumptions - OPERS

The actuarial valuation used the following actuarial assumptions applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Key Methods and Assumptions Used in Valuation of Total OPEB Liability	
Actuarial Information	Traditional Pension Plan
Valuation Date	December 31, 2016
Rolled-forward measurement date	December 31, 2017
Experience Study	5 Year Period Ended December 31, 2015
Actuarial Cost Method	Individual entry age
Actuarial Assumptions:	
Single Discount Rate	3.85%
Investment Rate of Return	6.50%
Municipal Bond Rate	3.31%
Wage Inflation	3.25%
Projected Salary Increases	3.25% to 10.75% (Includes wage inflation of 3.25%)

Pre-retirement mortality rates are based on the RP-2014 Employees mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates are based on the RP-2014 Healthy Annuitant mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Post-retirement mortality rates for disabled retirees are based on the RP-2014 Disabled mortality table for males and females, adjusted for mortality improvement back to the observation period base year of 2006. The base year for males and females was then established to be 2015 and 2010, respectively. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to all of the above described tables.

A single discount rate of 3.85% as used to measure the OPEB liability on the measurement date of December 31, 2017. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on an expected rate of return on the health care investment portfolio of 6.50% and a municipal bond rate of 3.31%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2034. As a result, the long-term expected rate of return on health care investments was applied to projected costs through the year 2034, and the municipal bond rate was applied to all health care costs after that date.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

11. DEFINED BENEFIT OPEB PLAN (Continued)

The following table presents the OPEB liability calculated using the single discount rate of 3.85%, and the expected net OPEB liability if it were calculated using a discount rate that is 1.0% lower or 1.0% higher than the current rate.

	1% Decrease 2.85%	Current Discount Rate 3.85%	1% Increase 4.85%
MVRPC's proportionate share of the net OPEB liability	\$ 1,908,692	\$ 1,436,681	\$ 1,054,828

Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability. The following table presents the net OPEB liability calculated using the assumed trend rates, and the expected net OPEB liability if it were calculated using a health care cost trend rate that is 1.0% lower or 1.0% higher than the current rate. Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2018 is 7.50%. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is that in the not-too-distant future, the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.25% in the most recent valuation.

	1% Decrease 6.50% decreasing to 2.25%	Current Discount 7.50% decreasing to 3.25%	1% Increase 8.5% decreasing to 4.25%
MVRPC's proportionate share of the net OPEB liability	\$ 1,374,597	\$ 1,463,681	\$ 1,500,811

The allocation of investment assets within the Health Care portfolio is approved by the Board as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. The System's primary goal is to achieve and maintain a fully funded status for benefits provided through the defined pension plans. Health care is a discretionary benefit. The table below displays the Board-approved asset allocation policy for 2017 and the long-term expected real rates of return.

Asset Class	Target Allocation for 2017	Weighted Average Long-Term Expected Real Rate of Return
		(Arithmetic)
Domestic Equities	21.00%	6.37%
International Equities	22.00%	7.88%
Fixed Income	34.00%	1.88%
REITs	6.00%	5.91%
Other Investments	17.00%	5.39%
Total	100.00%	4.98%

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

11. DEFINED BENEFIT OPEB PLAN (Continued)

The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

During 2017, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan and Member-Directed Plan eligible members. Within the Health Care portfolio, contributions into the plans are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio is 15.2% for 2017.

12. RESTATEMENT FOR CHANGES IN ACCOUNTING PRINCIPLES

Effective July 1, 2017, the MVRPC adopted Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The Statement addresses accounting and financial reporting for other post-employment benefits (OPEB) provided to employees who participate in the State OPEB plan. The Statement also requires various note disclosures and required supplementary information. As a result, beginning net position has been restated as follows:

Net position as previously reported at June 30, 2017	\$ 1,717,236
Prior period adjustment	
Beginning new OPEB liability	(1,336,275)
Deferred outflows of resources - 2017 OPEB contributions	8,636
Total prior period adjustment	(1,327,639)
Net position as restated, June 30, 2017	\$ 389,597

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
MONTGOMERY COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

14. SHORT and LONG TERM OBLIGATIONS

The following is a summary of long-term obligations for the year ended June 30, 2018.

	<u>Outstanding</u> <u>06/30/2017</u>	<u>Increases</u>	<u>Decreases</u>	<u>Outstanding</u> <u>06/30/2017</u>	<u>Amount Due</u> <u>Within One</u> <u>Year</u>
Compensated Absences	\$ 229,687	\$ 237,040	\$ (238,522)	\$ 228,205	\$ 36,062
Net Pension & OPEB Liability	<u>4,405,897</u>	<u>100,406</u>	<u>(1,044,293)</u>	<u>3,462,010</u>	<u>-</u>
Total Long Term Obligations	<u>\$ 4,635,584</u>	<u>\$ 337,446</u>	<u>\$ (1,282,815)</u>	<u>\$ 3,690,215</u>	<u>\$ 36,062</u>

Obligations will be paid from the fund from which the employees' salaries are paid.

15. PROPERTY AND INSURANCE

The Commission is exposed to various risk of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2017, the Commission contracted with The Hartford Insurance Company, Travelers and Old Republic Insurance Company for the following insurance coverage:

Business personal property	\$ 621,800
Computer records and valuable papers	200,000
Comprehensive general liability	4,000,000
Business auto coverage	2,000,000
Public officials & employee liability	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in coverage from the past fiscal year.

**NOTES TO THE REQUIRED SUPPLEMENTAL INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2018**

Changes in Assumptions – OPERS

Amounts reported for fiscal year 2017 (Measurement Period 2016) incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in fiscal year 2016 (Measurement Period 2015) and prior are presented below:

Key Methods and Assumptions Used in Valuation of Total Pension Liability		
Actuarial Information	Traditional Pension Plan	Traditional Pension Plan
Valuation Date	December 31, 2016	December 31, 2015
Experience Study	5 Year Period Ended December 31, 2015	5 Year Period Ended December 31, 2010
Actuarial Cost Method	Individual entry age	Individual entry age
Actuarial Assumptions:		
Investment Rate of Return	7.50%	8.00%
Wage Inflation	3.25%	3.75%
Projected Salary Increases	3.25% to 10.75% (Includes wage inflation of 3.25%)	4.25% to 10.05% (Includes wage inflation of 3.75%)
Cost-of-Living Adjustments	Pre - 1/7/2013 Retirees: 3.00% Simple; Post - 1/7/2013 Retirees: 3.00% Simple through 2018, then 2.15% Simple	Pre - 1/7/2013 Retirees: 3.00% Simple; Post - 1/7/2013 Retirees: 3.00% Simple through 2018, then 2.15% Simple

Changes in assumptions were made based upon an updated experience study that was completed for the five-year period ended December 31, 2015. Significant changes included a reduction of the discount rate from 8.0% to 7.5%, a reduction in the wage inflation rate from 3.75% to 3.25%, and transition from RP-2000 mortality tables to the RP-2014 mortality tables.

There are no changes in actuarial valuation for measurement period 2017 versus measurement period 2016.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR 200.510(b)(6)
FOR THE FISCAL YEAR ENDED JUNE 30, 2018**

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Miami Valley Regional Planning Commission (the MVRPC's) under programs of the federal government for the year ended June 30, 2018. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the MVRPC, it is not intended to and does not present the financial position or changes in net position of the MVRPC.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The MVRPC has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - MATCHING REQUIREMENTS

Certain Federal programs require the MVRPC to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The MVRPC has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

December 28, 2018

Miami Valley Regional Planning Commission
Montgomery County
10 North Ludlow Street, Suite 700
Dayton, OH 45402

To the Board of Directors:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities and each major fund of **Miami Valley Regional Planning Commission**, Montgomery County (the MVRPC) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the MVRPC's basic financial statements and have issued our report thereon dated December 28, 2018, wherein we noted the MVRPC adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the MVRPC's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the MVRPC's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the MVRPC's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the MVRPC's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the MVRPC's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the MVRPC's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL
CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

December 28, 2018

Miami Valley Regional Planning Commission
Montgomery County
10 North Ludlow Street, Suite 700
Dayton, OH 45402

To the Board of Directors:

Report on Compliance for the Major Federal Program

We have audited **Miami Valley Regional Planning Commission's** (the MVRPC) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect Miami Valley Regional Planning MVRPC's major federal program for the year ended June 30, 2018. The *Summary of Auditor's Results* in the accompanying schedule of audit findings identifies the MVRPC's major federal program.

Management's Responsibility

The MVRPC's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the MVRPC's compliance for the MVRPC's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the MVRPC's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the MVRPC's major program. However, our audit does not provide a legal determination of the MVRPC's compliance.

Opinion on the Major Federal Program

In our opinion, the Miami Valley Regional Planning Commission complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2018.

Report on Internal Control Over Compliance

The MVRPC's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the MVRPC's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the MVRPC's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
