	34 Pyramid Hill Sculpture Park
	35 Fitton Center for Creative Arts

DOES YOUR HELMET FIT WELL?

A well-fitting helmet should:

- Sit level on the head
- Not be tilted backward or forward
- Have strong, wide straps that fasten snugly under the chin
- Be tight enough so that after fastening, no sudden pulling or twisting could move it around

It should fit snugly and can be fine-tuned by adding thick or thin removable pads inside.

A bicycle helmet should sit low on the forehead, just above the eyebrow.

The buckle should be just under the chin, with about one finger's width of space between the strap and the chin. The helmet must ALWAYS be buckled.

The two side plastic pieces on the straps should fit just under the ears.

Ohio's Miami Valley area offers an outstanding network of trails and bikeways for its residents and visitors. Over 340 miles of paved trail connect ten counties surrounding the Dayton region.

The Great Miami Riverway connects the bike trail and river with vibrant riverfront communities, offering access to abundant recreational activities along the water and into towns from Sidney to Hamilton. GreatMiamiRiverway.com

DAYTON AND SURROUNDING AREA

ABCs OF TRAIL USE ETIQUETTE

- Show courtesy to all trail users – the trails are public space to be shared, trail users should be respected.
- "Wheels yield to Heels" – Bikes and 'blades must move at appropriate, safe speeds when sharing the path with walkers.
- Passing on the trails:
 - Pass on the left
 - Signal your intent to pass with a bell or calling out, "Passing on your left!"
 - The user wishing to pass should be responsible for the safety of the passing maneuver, ensuring their own safety and the safety of users being passed.
- Pets must be under control at all times. Don't litter, and remove pet wastes.
