**Community Recovery Update      Brian O. Martin & Stacy Schweikhart, MVRPC**

We are awaiting final notification on our application to the EDA for a full-time Disaster Recovery Manager to assist all impacted jurisdictions in the region.

We are working with The Dayton Foundation and leaders of the Individual Recovery Network on the formation of a Disaster Recovery Leadership Advisory Board. Appointments to the Board will be made for approximately 20 Regional leaders representing various sectors invested in Disaster Recovery. We are in the early stages of this conversation and will have an update at the next meeting.

Any jurisdictions interested in having Stacy Schweikhart and Laura Mercer come out to meeting with your elected officials, staff or community members should contact Stacy to schedule. They have visited a few communities already and the meetings have been very helpful in connecting resources and making sure that both the jurisdiction and impacted members in the community make best use of the support available to them.

**Sharing of Resources, Need and Priorities**

A round table conversation took place with representatives from each jurisdiction sharing where they are in the recovery process, what challenges they are facing, what resources they need and what projects they are considering for the EDA Disaster Supplemental Construction funds.
