## **MEMORANDUM**

**To:** Technical Advisory Committee, Board of Directors

From: MVRPC Staff

Date: January 9, 2019

**Subject:** SFY2018-SFY2021 Transportation Improvement Program (TIP) Amendment #13

Over the last few months MVRPC, ODOT and GDRTA have made numerous modifications to the programming documents for various projects resulting in the need for an SFY2018-SFY2021 TIP amendment. The attached TIP Tables 4.1, 4.2, 4.3 and 5.3 reflect the updated information for each specific project. Modifications to Statewide Line Item projects are shown on Table 4.6 and are provided for information only. A TIP terminology explanation chart of key abbreviations used in the highway/bikeway tables precedes Table 4.1.

Starting on May 27, 2018, TIP amendments must be developed in compliance with the transportation performance measure requirements of the FAST Act for safety measures. In November 2017 MVRPC's Board of Directors adopted a resolution supporting ODOT's safety performance management targets for the five performance measures outlined in the Fast Act. Ohio's targets infer a 1% annual reduction goal for each of the five safety performance measures. To aid in meeting those targets in the MVRPC Region, MVRPC continues to plan, program, and fund projects that have a positive impact in achieving the targets outlined in the State's HSIP report. To learn more about MVRPC's Safety Program go to https://www.mvrpc.org/transportation/long-range-planning-lrtp/transportation-safety.

Starting on October 1, 2018, TIP amendments must be developed in compliance with the transportation performance measure requirements of the FAST Act regarding transit assets. In June 2017, MVRPC's Board of Directors adopted a resolution adopting transit asset management (State of Good Repair) targets and MVRPC is currently coordinating with the three regional transit agencies on their individual Transit Asset Management Plans (TAMs). MVRPC is also working on a TAM for the 5310 program assets and the 5310 program TAM is expected to be adopted at the October 4, 2018 Board of Directors' meeting. There are currently 33 active projects in the TIP that address assets that are the subjects of TAMs (vehicles and facilities). The total cost of these projects is over \$182 million.

A resolution adopting the proposed TIP amendment is attached for your review and consideration. The MVRPC staff recommends your approval.

### **MEMORANDUM**

To: Technical Advisory Committee, Board of Directors

From: MVRPC Staff

Date: January 17, 2019

Subject: FY2020 Transportation and Government Services Priority Development and

Advocacy Committee (PDAC) Projects

The Miami Valley Regional Planning Commission is working with other organizations throughout the Miami Valley to identify projects that may be eligible for funding. This group, the Dayton Region Priority Development and Advocacy Committee, has developed a process for soliciting projects for consideration of funding through the legislative process. Through a committee decision, the top projects are forwarded on to elected officials for deliberation.

MVRPC is the lead agency for Transportation projects, which include any surface, air, rail, transit, and pedestrian transportation-related projects. Six FY2020 PDAC Transportation project applications, requesting \$21.6 million, were received by the deadline of November 9, 2018 (see attached Exhibit 2).

MVRPC is also the lead agency for Government Services projects, which include any emergency services, criminal justice, first responders, community and neighborhood infrastructure and K-12 education-related projects. Two FY2020 PDAC Government Services project applications, requesting \$4.1 million, were received by the deadline of November 9, 2018 (see attached Exhibit 3).

Following a project sponsor meeting on January 4, 2019, the Transportation and Government Services projects were evaluated by a review panel on January 10, 2019. The Project Sponsors reviewed and concurred with the staff's scoring of the proposed projects. The Project Evaluation System (PES) criteria used to score the Transportation and Government Services applications can be found at: <a href="http://mvrpc.org/transportation/financing/pdac">http://mvrpc.org/transportation/financing/pdac</a>. The Review Panel then categorized the projects into Priority, Recommended, and Reviewed.

The MVRPC Review Panel is recommending six Transportation "Traditional" (Roadway)/"Non-Traditional" (Bikeway) projects and two Government Services projects for submittal to the Dayton Region Priority Development and Advocacy Committee in categorized order as shown in Exhibit 1. A resolution endorsing these recommendations is attached for your consideration.

The list of projects is now being sent to the MVRPC Board structure for final review and adoption and submittal to the Dayton Region Priority Development and Advocacy Committee.
