COMMUNITY AND PUBLIC AGENCY UPDATES
LONG TERM DISASTER RECOVERY PROJECT UPDATES

MIAMI VALLEY LONG TERM DISASTER RECOVERY

The Miami Valley will build a comprehensive, coordinated long term disaster recovery system using the National Disaster Recovery Framework (NDRF) to serve all impacted counties. The NDRF provides guidance to enable recovery by defining recommended roles, responsibilities, coordination and planning among all jurisdictions. Based on decades of disaster response best practices, it focuses on how to restore, redevelop and revitalize the health, social, physical, economic, natural and environmental fabric of community and build resiliency for the future.

LONG TERM INDIVIDUAL DISASTER RECOVERY NETWORK
Miami Valley Long Term Recovery Operations Group
(Chair, Vice-Chair, Secretary, Fiscal Sponsor, At-Large Member)

Recovery Director, Individual and Household – Laura Mercer

RESOURCE TABLE: Consists of organizations that have resources to give individuals. Will come and go based on what they have to give.

RECOVERY TIMELINE FOR COMMUNITY NETWORK: 5-10 YEARS
HOUSING

REPAIR & REBUILD TASK FORCE

CDBG-DR

- Plan preparation assistance
- Funds available beginning Spring 2021
- Multi – family affordable housing
- Local coordination with impacted jurisdictions
- Single family homeowner opportunities
MVRPC submitted a request for amendment to our original EDA award to expand the scope of work.

The expanded scope of work will include:

- Facilitation of a strategic plan for community recovery and resiliency.
- Planning assistance for impacted jurisdictions to reimagine residential and commercial master plans. Both Harrison Township and Trotwood expressed interest in this opportunity.
ECONOMIC RECOVERY

CEDS

• MVRPC and DDC submitted an application to the EDA to facilitate a new Comprehensive Economic Development Strategy (CEDS) for the Region.

• The CEDS is important because it is a pre-requisite for any public agencies in our Region to receive Department of Commerce / EDA funding. This includes the current CARES Act funds and Opportunity Zone funding.

CARES Act

• MVRPC is working with multiple public agencies on CARES Act funded projects to benefit our Region, including Sinclair and Central State University.
NATURAL AND CULTURAL RESOURCES RECOVERY

FIVE RIVERS HEALING NATURE
• Tentatively re-scheduled for Fall 2020

ODNR
• Fall planting scheduled for Sinclair Park

ReTREET
• National Organization with backing from major corporations and foundations
• Multi-Year commitment for replanting projects

SINCLAIR PARK
• Potential for a major ReTREET planting area and a community build playground
HEALTH & SOCIAL SERVICES RECOVERY

• Aligned with LTROG Emotional & Spiritual Care efforts

• Dayton Stronger Campaign

• Incorporation of healthcare and social service capacities in our recovery and resiliency planning
MVRPC staff continue to support the public agencies with their recovery strategies and EDA funding applications for critical infrastructure.

- City of Dayton Water System Project
- Green County Water Project
- Miami Conservancy District Old North Dayton Levee Project
- Trotwood Fiber Loop Project
DIGITAL DIVIDE / INTERNET INSECURITY

• Reliable and affordable high-speed internet access is a necessity for all residents of our Region.

• The COVID-19 pandemic exposed and widened a digital divide long recognized in our communities.

• Montgomery County residents facing internet insecurity are adversely impacted by the education, workforce, and healthcare consequences of the pandemic.

• Without high-speed internet access, students can not connect to remote learning, employment that requires working from home is not possible, and telehealth services are not available.
The MVRPC team used data to identify the number of internet providers throughout Montgomery County.

Providers mapped include satellite, DSL, fiber and cable based internet service with speeds of at least 10 MBPS/1MBPS necessary for reliable access.

The lightest shading indicates the fewest number of available providers, the darkest shading indicated the most options.

Miami Valley Long Term Recovery Operations

Miami Valley Disaster Recovery – Impacted Jurisdictions Update
Thursday, July 9, 2020
Disaster Case Management Updates

1283 total cases
- 889 closed
- 394 open

Of the open cases, 213 are homeowners
- 147 have requested assistance with home repair/reconstruction

Homeowners’ Insurance

- 256 Insured*
- 169 Underinsured
- 72 Uninsured

*Many “insured” survivors are encountering challenges that are impacting their ability to recover and may require MVLTROG assistance to repair/rebuild
Cases by County

- Greene: 27 cases
- Miami: 7 cases
- Mercer: 10 cases
- Montgomery: 871 cases
Driving Survivor Engagement

August 1st Intake Deadline

Driving awareness and action

• Media – on-air and online
• Leveraging GIS tools and data sets to target outreach
• Canvassing neighborhoods with hang tags
• Signs on construction sites
• Billboards up
Messaging

Tornado Damage?

(Under-Resourced Homeowners With Disaster-Caused Damage)

Intake (211)  
Disaster Case Management
Construction Team Assessment/Estimates
Case Manager Presents Resource Gap at Resource Table for Consideration (Muscle, Materials, $)

If Approved, Fully Resourced Job is Ready for Skilled Teams & Partners
## Resource Table Allocations

Formally launched May 13 - 21 cases presented and resourced

- $441,000 estimated total cost of repairs required
- $250,000 estimated resource gap

### Resources allocated

- Muscle – Most will leverage volunteers, several have contractors too
- Materials - $20,000 in materials
- Money - $175,000 approved
  - $109,000 expected to be reimbursable via FHLB-DR Program
Repair & Rebuild Updates

• 91 disaster caused damage assessments and estimates completed
• Approximately 63 repair/rebuild jobs resourced and underway
• Approximately 24 complete

• Smaller local volunteer teams currently deployed on exterior projects
• Brethren Disaster Ministries’ national group team in place, commence work at scale week of July 12.
• Working with Team Rubicon to leverage their sawyer (damaged trees) and demolition capabilities (destroyed properties), and jurisdictions to handle debris.
• Larger jobs, including the complete rebuild properties, are being handled with the layering of financial, material and work team assets.
Considering Affordable Housing Project

Concept under consideration

• Some of our rebuild partners have expressed interest in constructing new or rehabbing existing, single family or homes in tornado damaged areas for rehousing tornado survivors.

• Existing community agencies’ screening, qualifying, educational, financing, and management processes would need to be leveraged to establish individuals’ home ownership pathways.

• The LTRG would potentially contribute labor, select materials, and construction management assistance towards the construction of these homes.

• Funding would have to be secured from beyond the LTRG to make this scenario possible.
Materials Management

Soliciting targeted donations – both in terms of bulk construction materials and skilled labor & services (skilled trades, steep roofs, vegetative and heavy debris removal)
Volunteer Management – Recovery Phase

• Preparing for the national groups’ operations.
• Identifying specific jobs for teams.
• Preparing host site.
• Continuously aligning service and host site protocols to Public Health recommendations.
• Additional volunteer activities will be posted on the WWW.MVStrong.org website for those wishing to get involved.
BDM Moves In!
Emotional and Spiritual Care

Engaging the community support infrastructure and supporting individuals

- February 2020 – Collaborated with ADAMHS on great Mental Health First Aid workshops
- Major summer activities – Camp Noah deferred
- Currently monitoring the COVID-19 situation to assess opportunities for future events. We will be looking for volunteers that are interested in assisting with planning and coordinating when time is right.
Finance

• **Response Phase**
  • Funding distributed to front line agencies

• **Recovery Phase**
  • Individual - primary funding support directed to organizational infrastructure and meeting unmet needs at the Resource Table
  • Community - primary funding for matching grant requirements
Finance

• So far $2.2 million donated. 3,723 gifts. $1.2 million granted out. $1 million remains. Plus TDF discretionary gift of $400,000 and Masonic Home gift of $111,000. Total remaining to support recovery is $1.5 million.

• Resource Table – in the last eight weeks we’ve allocated over $195,000 in cash and materials to reconstruction work. ($109,000 expected reimbursable via FHLB-DR)

• Since the event members of long term recovery group have contributed over $10 million in material goods, food, shelter, volunteer hours and financial support.

• Additional funding is anticipated to be needed for repair and rebuild activities and we encourage those who would like to contribute to donate to the Greater Dayton Disaster Relief Fund
