Community assessments	Community well-being	Create an interagency, inter-jurisdictional recovery planning
Planning, managing and implementing recovery post-disaster	Resource Protection	
	Arts/Culture/History	

RECOVERY TIMELINE FOR COMMUNITY NETWORK: 5-10 YEARS

- Housing
- Community Planning & Capacity Building
- Economic Recovery
- Natural & Cultural Resources Recovery
- Health & Social Services Recovery
- Infrastructure Systems Recovery

HOUSING

REPAIR & REBUILD TASK FORCE

CDBG-DR

- Plan preparation assistance
- Funds available beginning Spring 2021
- Multi – family affordable housing
- Local coordination with impacted jurisdictions
- Single family homeowner opportunities

COMMUNITY PLANNING & CAPACITY BUILDING

MVRPC submitted a request for amendment to our original EDA award to expand the scope of work.

The expanded scope of work will include:

- Facilitation of a Regional strategic plan for community recovery and resiliency.
- Planning assistance for impacted jurisdictions to reimagine residential and commercial master plans. Both Harrison Township and Trotwood expressed interest in this opportunity.
- Technical expertise from disaster management firms to assist jurisdictions with state and federal award compliance.

ECONOMIC RECOVERY

- MVRPC and DDC submitted an application to the EDA to facilitate a new Comprehensive Economic Development Strategy (CEDS) for the Region.
- We received notice that our application was met with favorable review and is in the final stages of approval.
- The CEDS is important because it is a pre-requisite for any public agencies in our Region to receive Department of Commerce / EDA funding. This includes the current CARES Act funds and Opportunity Zone funding. The existing CEDS is outdated and a current CEDS for the Region will unlock additional funding opportunities, related to and beyond the disaster.
- MVRPC is working with multiple public agencies on CARES Act funded projects to benefit our Region, including Sinclair and Central State University.

HEALTH & SOCIAL SERVICES RECOVERY

- Aligned with LTROG Emotional & Spiritual Care efforts
- Dayton Stronger Campaign
- Incorporation of healthcare and social service capacities in our recovery and resiliency planning

INFRASTRUCTURE SYSTEMS RECOVERY

MVRPC staff continue to support the public agencies with their recovery strategies and EDA funding applications for critical infrastructure.

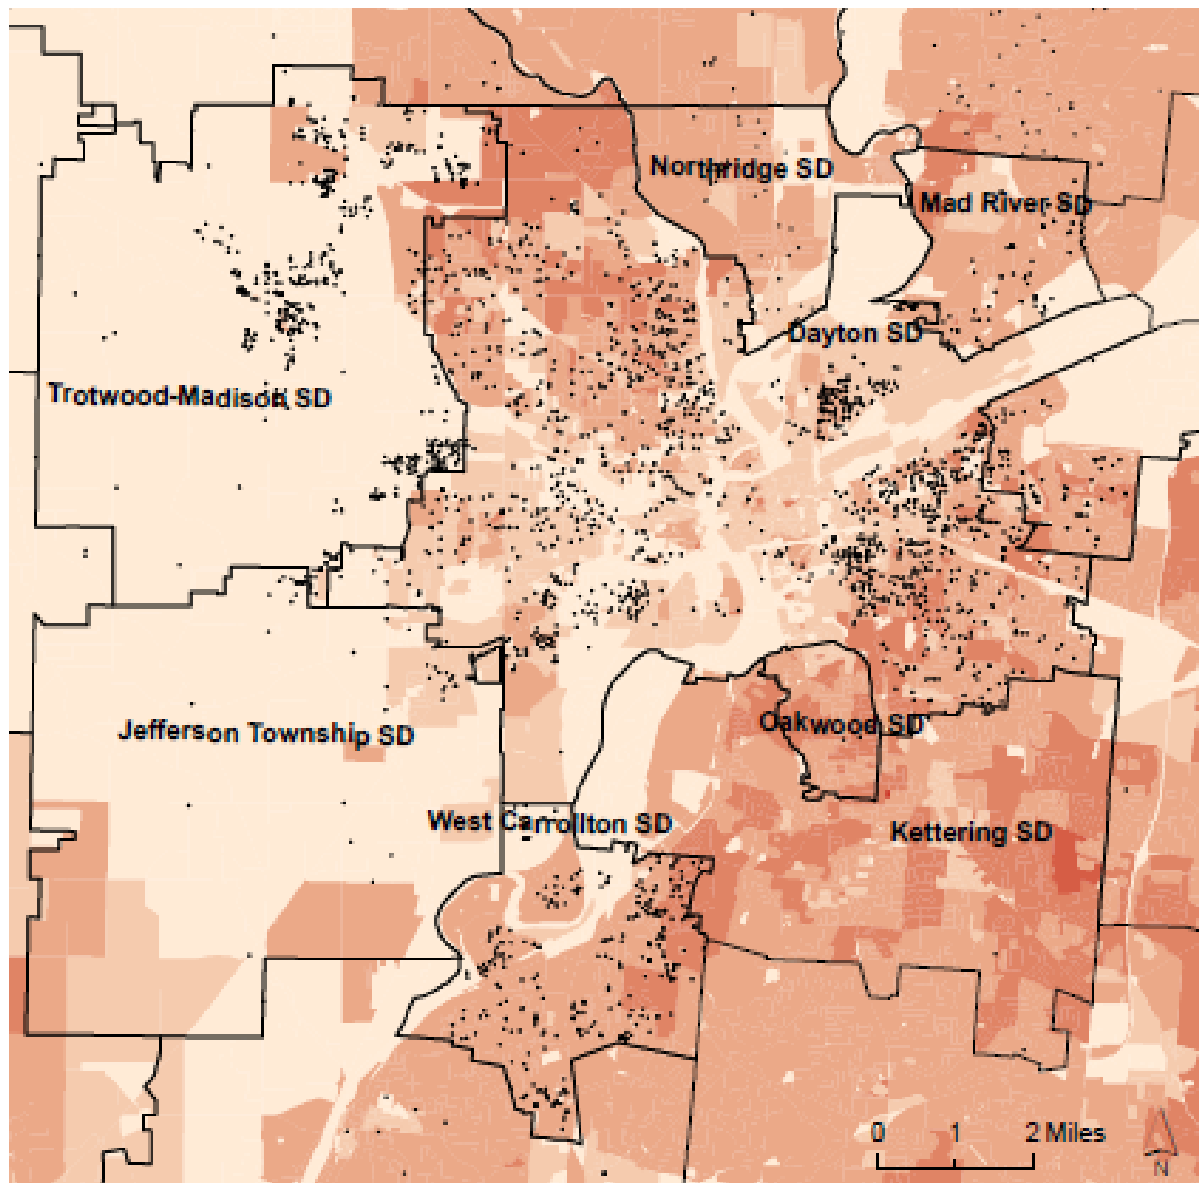

- City of Dayton Water System Project – Awaiting Award
- Greene County Water Project - Funded
- Miami Conservancy District Old North Dayton Levee Project – Awaiting Award
- Montgomery County / Transportation Improvement District Projects – Pending Submission
- Trotwood Projects – Pending Submission

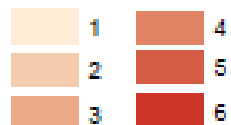

DIGITAL DIVIDE / INTERNET INSECURITY

- Reliable and affordable high-speed internet access is a necessity for all residents of our Region.
- The COVID-19 pandemic exposed and widened a digital divide long recognized in our communities.
- Households facing internet insecurity are adversely impacted by the education, workforce, and healthcare consequences of the pandemic.
- Without high-speed internet access, students can not connect to remote learning, employment that requires working from home is not possible, and telehealth services are not available.

Providers Speeds >10/1 MBPS

Disconnected Households

Note: The providers shown are only providers which provide speeds of 10 MBPS upload and 1 MBPS download which includes satellite, DSL, fiber and cable based internet providers. The entire area offers satellite services, where areas with only 1 provider reflect the only service available is satellite based.

The MVRPC team used data to identify the number of internet providers throughout Montgomery County.

Providers mapped include satellite, DSL, fiber and cable based internet service with speeds of at least 10 MBPS/1MBPS necessary for reliable access.

The lightest shading indicates the fewest number of available providers, the darkest shading indicated the most options.

LONG TERM DISASTER RECOVERY OPERATIONS GROUP PROJECT UPDATES

MIAMI VALLEY LONG TERM RECOVERY OPERATIONS

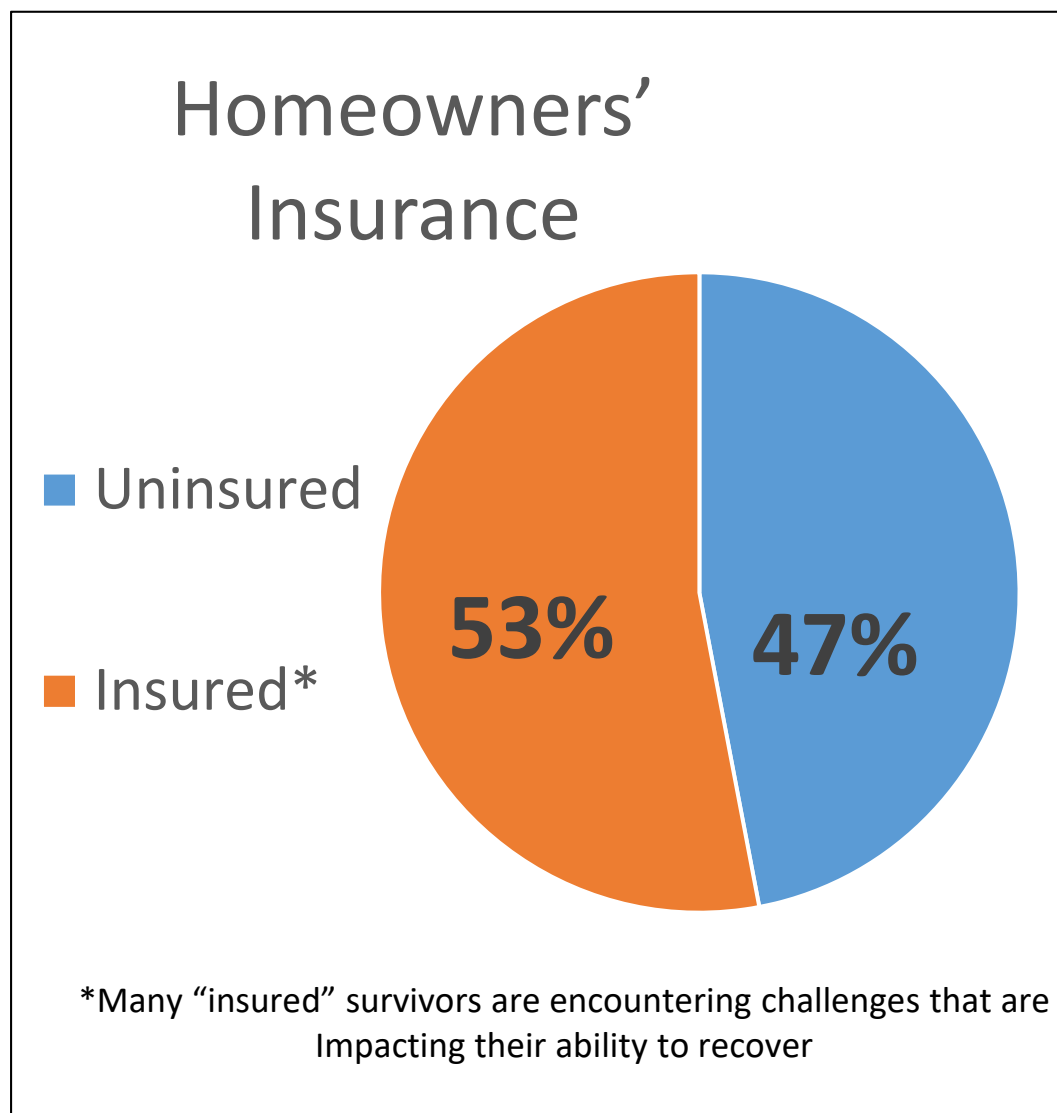

DISASTER CASE MANAGEMENT UPDATES

1,881 total cases

- **1,409** closed
- **472** open

Of the open cases,
266 are
homeowners

- **184** of which have
requested
assistance with
home repair
/reconstruction

DRIVING SURVIVOR ENGAGEMENT

August 1st Public Intake Deadline

Drove awareness and action

- Media – on-air and online
- Leveraged GIS tools and data sets to target outreach
- Canvassed neighborhoods
- Signs on construction sites
- Billboards up

STRATEGY WORKED WELL!

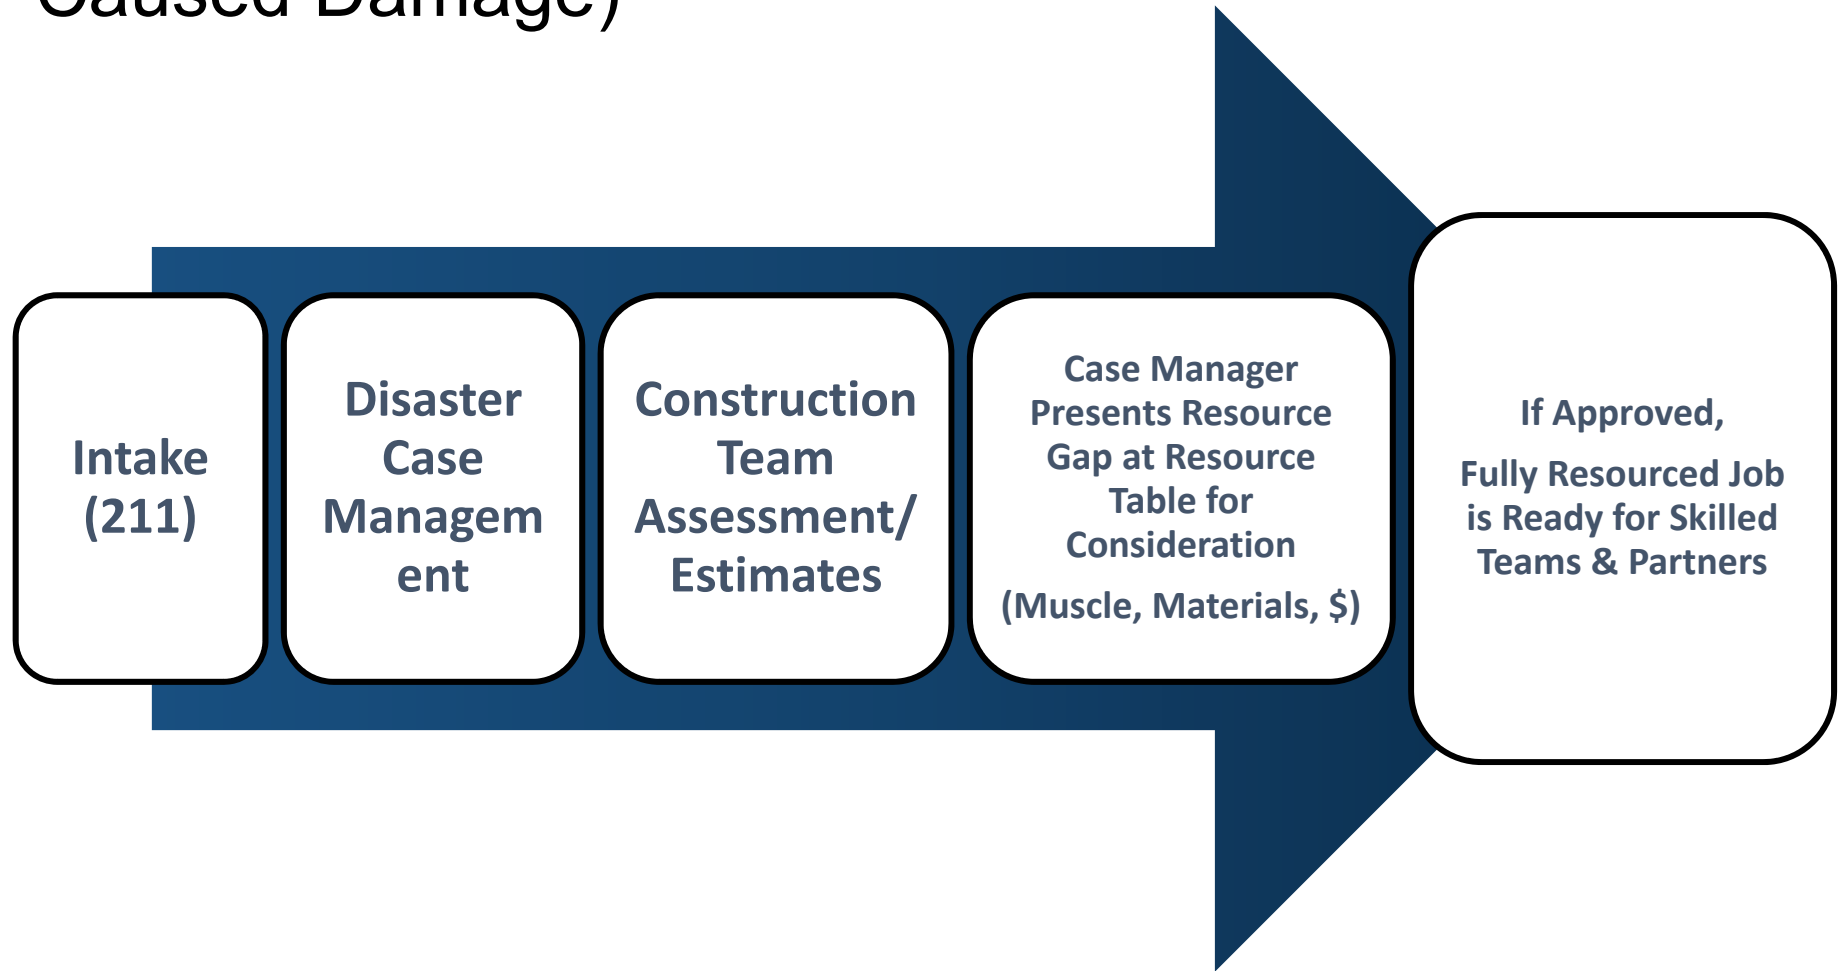

Even though public deadline is past...

Survivors can still call 211 or can call Catholic Social Services directly for assistance.

CONNECTION - DISASTER CASE MANAGEMENT AND REPAIR & REBUILD

(Under-Resourced Homeowners With Disaster-Caused Damage)

REPAIR & REBUILD

Service Criteria

- Owner occupied at time of disaster
- Disaster caused damaged
- Uninsured or underinsured

Goal: Safe, Sanitary, Secure and Functional

Leverage available resources including skilled volunteer teams, donated materials and money

Ensure coordination with local jurisdictions and authorities

RESOURCE TABLE ALLOCATIONS

Since May 13:

24 cases presented

- >\$500,000 estimated total cost of repairs
- \$337,000 estimated resource gap

Resources allocated:

- **Muscle** – Most will leverage volunteers, several have contractors too
- **Materials** - \$31,000 in materials
- **Money** - \$217,000 approved
 - \$139,000 expected to be reimbursable via FHLB-DR Program

REPAIR & REBUILD UPDATES

- **>100** disaster caused damage assessments and estimates completed
- Approximately **63** repair/rebuild jobs resourced and underway
- Approximately **31** complete

REPAIR & REBUILD UPDATES

Larger jobs, including the complete rebuild properties, are being handled with the layering of financial, material and work team assets

And more...

VOLUNTEERS IN FIELD

- Teams actively working with COVID-19 precautions
- Lead Organizations
 - Brethren Disaster Ministries (local host site established)
 - Mennonite Disaster Services
- Southbrook, Presbyterian Disaster Assistance, United Methodist Church (Cols), & others also working

LONG TERM DISASTER RECOVERY PROJECT UPDATES

Proof of Concept Iteration of Future Public Facing Dashboard to Track Property & Individual Recovery

NATURAL AND CULTURAL RESOURCES RECOVERY

FIVE RIVERS HEALING NATURE

- Tentatively re-scheduled for Fall 2020

ODNR

- Fall planting scheduled for Sinclair Park

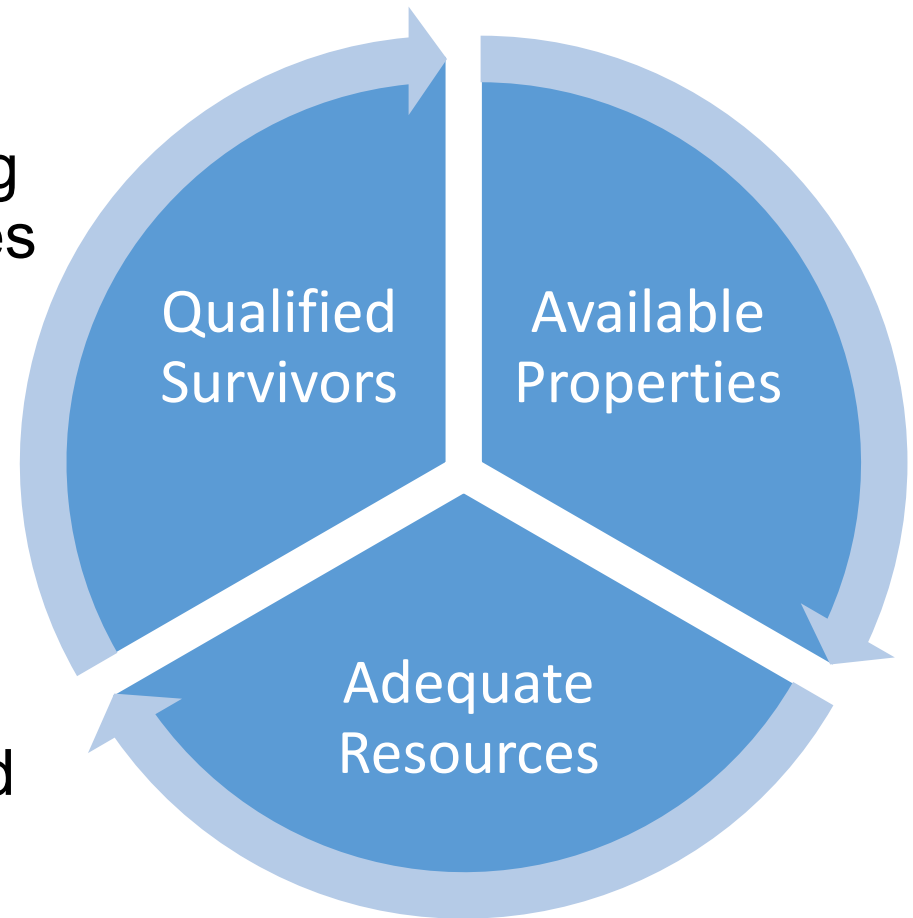

- National Organization with backing from major corporations and foundations
- Multi-Year commitment for replanting projects
- Potential for a large scale effort at Sinclair Park

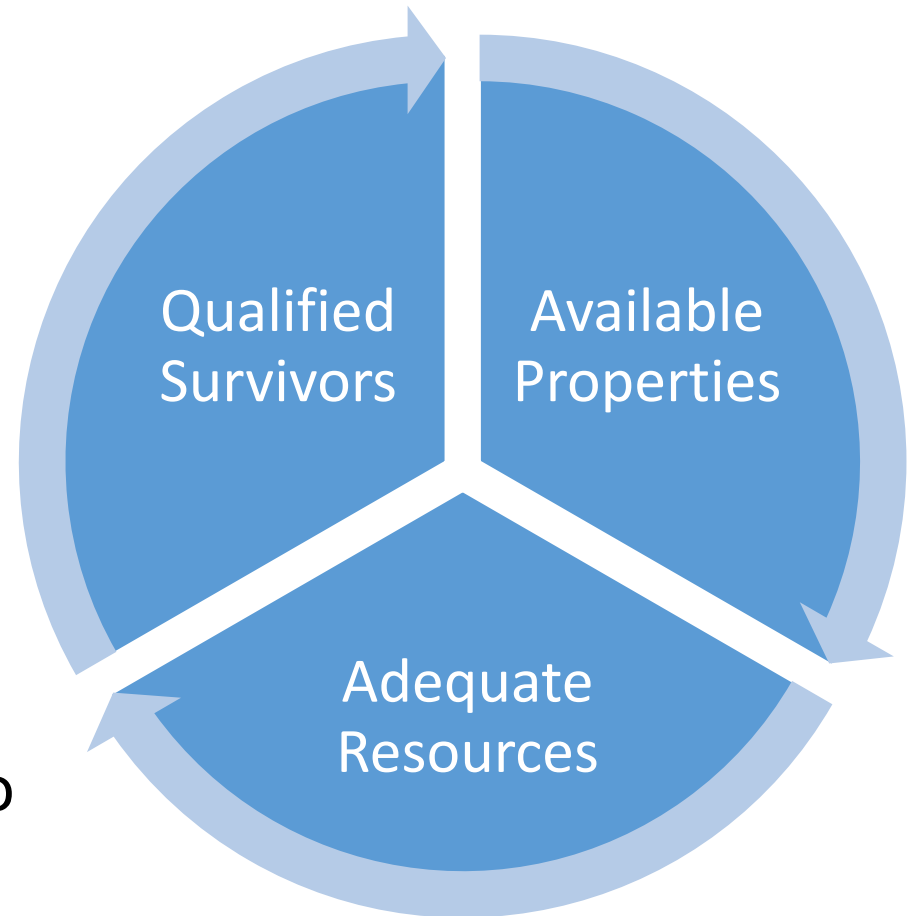

TORNADO SURVIVOR PATHWAY TO HOME OWNERSHIP PROJECT

- Rebuild partners have expressed interest in constructing new, or rehabbing existing, single family or homes in tornado damaged areas for rehousing survivors
- Existing community agencies' screening, qualifying, educational, financing, and management processes would need to be leveraged to establish individuals' home ownership pathways

TORNADO SURVIVOR PATHWAY TO HOME OWNERSHIP PROJECT

- The LTRG will potentially contribute labor, select materials, and construction management assistance towards the construction of these homes
- Funding will have to be secured from beyond the LTRG to make this scenario possible
