\* Indicates that an individual has received at least one valid dose of COVID-19 vaccine.
\*\* Indicates that an individual has received all recommended COVID-19 vaccine doses and is considered fully immunized; specific requirements (number of doses, spacing, age restrictions) may vary depending on COVID-19 vaccine brand.
\*\*\*A person is counted in the "Vaccine Started" category on the day that they receive their first valid dose of COVID-19 vaccine. A person is counted in the "Vaccine Completed" category on the day that they get their final recommended valid dose of COVID-19 vaccine. For single-dose vaccines, individuals are counted in both "Vaccine Started" and "Vaccine Completed" categories. All dates on this dashboard indicate the date the vaccine was administered.
\*\*\*\*The number of confirmed valid vaccines identified by ODH over the last 24 hours ending at 6 am daily. Although most vaccines are identified within 24 hours of the vaccine administration date, some may take longer to be reported.

Population data as reported by the US Census Bureau. There are no population estimates for "Unknown" or "Other" demographic groups, so there is no percentage of population for those groups. Data reported to the Ohio Department of Health. All data displayed are preliminary and subject to change as more information is reported to ODH.
