Savannah Diamond
Brian Martin

Stacy Schweikhart Leigh Sempeles

The Miami Valley Regional Planning Commission's Institute Steering Committee met on Friday, January 21, 2022 at 9:30 a.m. at MVRPC, 10 N. Ludlow St., Suite 700, Dayton, Ohio 45402. All members and news media were notified of the meeting pursuant to the Sunshine Law.

I. WELCOME AND INTRODUCTIONS

Chairperson Wallace called the meeting to order at 9:30 a.m. Self-introductions were made.

II. APPROVAL OF October 22, 2021 MEETING MINUTES

Ms. Benná made a motion to approve the minutes from the October 22, 2021 Institute Steering Committee meeting. Ms. Scott seconded the motion. The motion passed unanimously.

III. PUBLIC COMMENT ON ACTION ITEMS

None

IV. LEARN TO EARN DAYTON-UPDATE ON NW DAYTON PARTNERSHIP

Ms. Scott presented an update on the Northwest Dayton Partnership. She stated the Northwest Dayton Partnership with support from Learn to Earn Dayton are investing up to \$1.45 million in community-based organizations' work to improve outcomes in education, community well-being, racial equity, and economic mobility for Northwest Dayton's children and families. Organizations located in Northwest Dayton Partnership boundaries or serving the people of the Northwest Dayton Partnership area are invited to apply. She then opened the floor for questions and stated the boundaries of the Northwest Dayton partnership are from Wolf Creek east to Main Street and from Interstate 75 north to the city limit.

V. AGE-FRIENDLY INITIATIVE UPDATE

Ms. Becky Benná was introduced as the new chairperson for the Miami Valley Age-Friendly Network (MVAFN).

Ms. Sempeles provided an update on the Age-Friendly Initiative. She briefly explained that the MVAFN is a quarterly meeting focused on ways that organizations can make their communities and their services more livable & age-friendly. Each meeting will focus on one of the Institute domains and take a deep dive into the current state, trends, needs and programs in the region. The next MVAFN meeting will be held April 13th.

Ms. Sempeles then announced that up to 10 MVRPC member organizations are being sought to receive \$10,000 grants from the DMH-Dayton Fund at the Dayton Foundation to pursue AARP Age-Friendly Communities designation. She explained the AARP Age-Friendly Communities designation is a multi-year planning effort focused on recognizing and enhancing age-friendly aspects within the community. The grant funds community survey, research, data analysis and technical assistance for the creation of an action plan for age-friendly livable community initiatives. She stated the proposal deadline is March 15th and the decision date will be April 15th. The grant period will start May 1, 2022 and end April 30, 2023. Ms. Benná invited members of the Institute Steering Committee to volunteer to serve on the review committee for the Age-Friendly Grant: Ms. Scott, Ms. Dodge, and Mr. Mucher volunteered to serve.

VI. REGIONAL EQUITY INITIATIVE UPDATE

Mr. Rap Hankins was introduced as the Chairperson for the Regional Equity Initiative (REI).

Ms. Diamond provided an update on the 2021-2022 Miami Valley Environmental Justice Academy. She explained that the EJ Academy provides participants with skills to identify their environmental challenges and accomplish their communities' environmental improvement goals. She also explained the EJ Academy is based on the EPA's Collaborative Problem-Solving (CPS) Model which is a seven-step process for bringing about positive change and community revitalization. Each module of the Academy focuses on one element of the CPS Model. Ms. Diamond then shared a chart of the cohort broken into the different types of organizations they represent. She also showed a map of the different communities they serve across the Miami Valley. Lastly, Ms. Diamond shared a video of a participant's effort to organize a Community Advisory Group (CAG) to address superfund sites in his neighborhood. She then opened the floor for questions.

Mr. Martin provided an update on the recruitment efforts for the open Equity Project Manager and stated they are working with an HR consultant to draft the job description and will share the posting with the committee once it's finalized.

Lastly Mr. Martin invited the Steering Committee to listen to the Dayton Foundation's Greatest Challenges and Opportunities Podcast Series Available at https://www.daytonfoundation.org/podcast.html.

VII. DISCUSSION

Chairperson Wallace opened the floor for any discussions.

VIII. NEXT MEETING

The next ISC meeting will be held Friday, April 15, 2022 at 9:30 am.

IX. ADJORNMENT

Chairperson Wallace called for a motion to adjourn the meeting. Mr. Joseph made a motion to adjourn the meeting. Ms. Dodge seconded the motion. Chairperson Wallace adjourned the meeting at 11 a.m.

MEMORANDUM

To: Institute Steering Committee

From: Leigh Sempeles, Del Mar Encore Fellow – The Dayton Foundation

Date: April 15, 2022

Subject: 2022 Livable, Age-Friendly Communities Grants

It is my pleasure to announce the MVRPC member organizations that have applied to receive a \$10,000 Livable, Age-Friendly Communities Grants from the DMH-Dayton Fund at The Dayton Foundation to become an AARP Livable, Age-Friendly Community. These funds will be used for community surveys, data analysis and technical assistance for communities to begin Phase 1 of the AARP Livable, Age-Friendly Communities multi-year planning effort. A summary of the applicants and the age-related demographics for their communities is as follows:

Community	County	Population >60	% Population >60
Bellbrook	Greene	1,663	22.90%
Brookville	Montgomery	2,186	34.90%
Centerville	Montgomery	8,896	37.40%
Harrison Township	Montgomery	6,085	27.10%
Huber Heights	Montgomery	8,858	21.90%
Kettering	Montgomery	14,037	25.40%
Miami County	Miami	27,094	25.00%
Troy	Miami	5,377	20.50%
Xenia	Greene	7,017	26.20%

The following chart outlines the recommendation to fund all 8 applicants and provide Miami County with an additional \$10,000 to support inclusion of the City of Troy and all of the other villages, cities and townships within the county. Please note that the DMH-Dayton Fund at The Dayton Foundation budgeted \$100,000.00 for the 2022 Livable,

Age-Friendly Grants. Also, it should be noted that local contributions were not a mandatory requirement for the grant submissions; however, the chart below shows how the funding from the DMH-Dayton Fund leveraged additional investment, more than doubling the overall funds for the work.

Community	Funding Recommendation	Local Contribution	Total Investment
Bellbrook	\$10,000.00	\$2,000.00	\$12,000.00
Brookville	\$10,000.00	\$10,000.00	\$20,000.00
Centerville	\$10,000.00	\$11,000.00	\$21,000.00
Harrison Township	\$10,000.00	\$25,000.00	\$35,000.00
Huber Heights	\$10,000.00	-	\$10,000.00
Kettering	\$10,000.00	\$5,000.00	\$15,000.00
Miami County	\$20,000.00	\$15,000.00	\$35,000.00
Troy (included with Miami County)			
Xenia	\$10,000.00	\$35,000.00	\$45,000.00
TOTAL	\$90,000.00	\$103,000.00	\$193,000.00

Other highlights I would like to mention include the fact that we are in essence creating more than 10 new Livable, Age-Friendly Communities in the Miami Valley Region. Although we had 8 applicants, Miami County included the City of Troy with their application. Also, Washington Township is forgoing grant dollars; and Township officials have initiated the process to becoming a member of AARP's Network of Age-Friendly States and Communities, spurred by the opportunity presented with the grants.

In addition, leveraging Miami Valley Regional Planning Commission's footprint, we will have a multi-county, regional age-friendly effort with communities Greene, Miami and Montgomery Counties represented. On a national level, as of March 24, 2022, there are 651 members of the AARP Network of Age-Friendly States and Communities. In Ohio, there are 14 AARP members of the Network and the Ohio Coalition of Age-Friendly Communities in Ohio (CAFCO). With the addition of the Miami Valley communities receiving the 2022 Livable, Age-Friendly Grants from the DMH-Dayton Fund at The Dayton Foundation, the number of Age-Friendly communities in Ohio will increase by more than 50%.

Social Determinants of Health Index

The Health Environment Assessment developed a Social Determinants of Health (SDOH) Index for the purpose of establishing a comprehensive baseline of where the Region stands on key factors that are known to be indicators of health. The SDOH Index is a composite of all 23 indicators under the five domains. In addition, the conditions on the Social Determinants of Health were further examined at the domain and indicator levels to provide additional insights on the current status.

Economic Stability	Education Access and Quality	Social and Community Context	Health Care Access and Quality	Neighborhood and Built Environment
Income	High School Education	Linguistic Isolation	Health Insurance	Access to Healthy Foods
Poverty	Preschool Enrollment	Single Parent Households	Access to Primary Care	Vacant Housing
Unemployment	Higher Education	Civic Participation	Accessibility to Health Care	Crime
Housing Burden	Elementary School Quality	Social Cohesion	Life Expectancy	Housing Quality
Housing Instability		Concentrated Poverty		Harmful Condition Exposure

Health Environment Assessment

Regional Profiles

Going Places Initiative 1

A healthy community does not happen by accident. It requires a comprehensive approach covering all aspects of social, physical, and economic environments. Creating environments that promote healthy behaviors and improve health outcomes in our communities requires collaboration and partnerships between planning and health professionals.

MVRPC's PLAN4Health – Miami Valley Initiative, launched in spring of 2021, aims to explore how planning can impact health outcomes across the Region. It is a multi-year effort with a focus on projects and programs intended to:

- · Promote and advocate for "Health in All Plans and Policies."
- Convene and engage partners to improve conditions that are known to be key determinants of health.
- Advance planning efforts aimed at creating conditions for healthy people and communities.

PLAN4Health – Miami Valley builds on work that has been done at the <u>national level</u> through the <u>American Planning Association</u> and the <u>American Public Health Association</u>.

A set of concrete projects that are geared towards information sharing, capacity building, and generating collaborative solutions are slated for near-, mid-, and long-term implementation.

The <u>Health Environment Assessment</u> is the first project of the PLAN4Health - Miami Valley Initiative. Using the Social Determinants of Health (SDOH) model, the Health Environment Assessment examines an existing conditions baseline of health related social, behavioral, built, and planning aspects in the Miami Valley Region.
