

Board of Directors Meeting

LOCATION: DAYTON METRO LIBRARY – 215 E. Third St., Dayton, OH 45402

DATE/TIME: Thursday, December 1, 2022 at 9:00 a.m.

Agenda

<u>Item</u>	<u>Topic</u>	<u>Pg</u>	<u>Est. Time</u>	<u>Presenter</u>
I.	Call to Order, Introductions and Pledge of Allegiance		9:00	Greg Simmons
* II.	Approval of October 6, 2022 – Meeting Minutes	1	9:05	Greg Simmons
III.	Public Comment Period on Action Items		9:10	Greg Simmons
IV.	MPO (METROPOLITAN PLANNING ORGANIZATION) ACTION ITEMS			
* A.	Resolution 23-012: Recommended Adoption of the Program of Projects to be Funded with the Metropolitan Planning Area's FY 2021 Section 5310 Allocations	5	9:15	Serena Anderson
* B.	Resolution 23-013: Recommended Adoption Supporting the IIJA Safety Performance Management Targets	11	9:25	Ana Ramirez
* C.	Resolution 23-014: Recommended Adoption of the Infrastructure Investment and Jobs Act Transit Asset Management Targets	17	9:30	Ana Ramirez
* D.	Resolution 23-015: Recommended Adoption of Amendment #23 to MVRPC's SFY 2021-2024 Transportation Improvement Program (TIP)	23	9:35	Paul Arnold
V.	INFORMATION ITEMS			
* A.	Proposed New Projects Requesting MVRPC's STP, CMAQ, TA & CR Funds	55	9:55	Paul Arnold
* B.	Going Places Implementation Tools Progress Update and Health Environment Assessment Equity Analysis	131	10:00	Martin Kim
* C.	Regional Approach to Pursuing Equity	165	10:15	Fabrice Juin
* VI.	EXECUTIVE DIRECTOR'S REPORT	177	10:30	Brian Martin
VII.	ADJOURNMENT		10:40	Greg Simmons

* Attachment/ **Handout/All Information is available on the MVRPC Committee Center

Interpreters for hearing-impaired individuals are available upon request; requests should be made at least one week ahead.

**MIAMI VALLEY REGIONAL PLANNING COMMISSION
BOARD OF DIRECTORS
MINUTES**

Dayton Realtors
1515 S. Main Street, Dayton, OH 45409

October 6, 2022
9:00 AM

Members/Voting Alternates

The Miami Valley Regional Planning Commission Board of Directors met on October 6, 2022 at 9:00 a.m. at Dayton Realtors 1515 S. Main Street, Dayton, OH 45409. All members and news media were notified of the meeting pursuant to the Sunshine Law.

I. INTRODUCTIONS

Chairperson Simmons called the meeting to order at 9:00 a.m. Self-introductions were made. The Pledge of Allegiance was recited.

II. APPROVAL OF SEPTEMBER 1, 2022 MEETING MINUTES

Mr. Berry made a motion to approve the minutes from the September 1, 2022 Board meeting. Mr. Bruns seconded the motion. The motion passed unanimously.

III. PUBLIC COMMENT PERIOD ON ACTION ITEMS

None

IV. RPC (REGIONAL PLANNING COMMISSION) ACTION ITEMS

A. Resolution 23-010: Recommended Adoption of Rate Increase and Census 2020 Adjustments to Member Dues

Mr. Lucas provided information regarding the rate increase to member dues. He first presented the history of the agency dues and stated the current dues structure was set in the 2004 update to the MVRPC Constitution and Bylaws. The dues rates have remained the same for government members since 1989. He then shared MVRPC's current and future programs such as the Institute for Equitable and Livable Communities, Long Term Disaster Recovery Network, Economic Development District, and Regional Transportation Planning Organization. He also noted the new funding anticipated from the federal Bipartisan Infrastructure Investment and Jobs Act (IIJA). Lastly, Mr. Lucas shared a spreadsheet breaking down the proposed dues increase for each jurisdiction.

Ms. Lommatzsch made a motion to adopt the rate increase and Census 2020 adjustments to member dues. Mr. Bruns seconded the motion. The motion passed unanimously.

B. Resolution 23-011: Recommended Adoption of Member Dues Adjustments Based on 2020 Census

Resolution 23-011 was tabled due to the approval of Resolution 23-010.

V. MPO (METROPOLITAN PLANNING ORGANIZATION) ACTION ITEMS

A. Resolution 23-008: Recommended Adoption of Amendment #22 to MVRPC's SFY 2021-2024 Transportation Improvement Program (TIP)

Mr. Arnold referred to the 22nd amendment to the SFY 2021-2024 TIP and the numerous project changes made by MVRPC and ODOT. He referred to the packet showing the tables broken down by county, as well as the statewide line item project tables. Mr. Arnold stated that MVRPC Staff and the Technical Advisory Committee recommend adoption of Amendment #22 to the SFY 2021-2024 Transportation Improvement Program.

Mr. Stroud made a motion to approve the resolution adopting Amendment #22 to MVRPC's SFY 2021-2024 Transportation Improvement Program (TIP). Ms. Wallace seconded the motion. The motion passed unanimously.

B. Resolution 23-009: Recommended Adoption of the Regional Active Transportation Plan

Mr. Lindsay provided information on the final draft of the [Regional Active Transportation Plan](#). He first thanked Serena Anderson, Laura Henry, Stacy Schweikhart and Nathan Johnson for contributing to the overall project. He then stated the Active Transportation (AT) Plan serves as the latest iteration of the regional bikeways plan. The plan builds on past bikeways planning, but was enhanced by adding consideration of walking, and in particular how walking and biking can serve to help people access public transit services. Mr. Lindsay then defined active transportation as walking, moving by means of a mobility device or bicycling. He then explained that the plan makes clear that MVRPC is not, in this document, planning transit services or transit routes. The AT Plan specifically is looking at accessing transit by human-powered means. He then shared the vision and goals of the plan.

Mr. Lindsay shared the new updates to the AT Plan such as the consideration of pedestrians, inclusion of transit access, and a new analysis of sidewalks and transit access. He explained that the AT Plan makes intentional steps to align the plan with ODOT's [Walk Bike Ohio](#) plan. As a part of their work, ODOT did an extensive analysis of American Community Survey data and other data to assess areas where we can expect high demand for active transportation modes and also locations where the population can be expected to rely on walking, biking, and transit at a higher rate than the statewide average. These High Demand and High Need areas were brought into the draft AT plan project prioritization method to give added weight to projects that address transportation equity. He then stated that since releasing Walk Bike Ohio, ODOT has also released a new "[multimodal design guide](#)", and the AT Plan specifically recommends our member jurisdictions to use this manual for facility design.

Mr. Lindsay shared that the Technical Advisory Committee gave the draft AT Plan a conditional approval, asking that language is added to address bike share and shared scooter systems. He then explained that micromobility systems can offer benefits to the communities that permit them, but they do come with operational and policy concerns, particularly policies on where these vehicles may operate and where they may be parked. Lastly Mr. Lindsay opened the floor for questions and stated that MVRPC Staff and the Technical Advisory Committee recommend adoption of the Regional Active Transportation Plan.

Mr. Klepacz made a motion to adopt the Regional Active Transportation Plan. Ms. Byrge seconded the motion. The motion passed unanimously.

VI. INFORMATION ITEMS

A. Long-Term Community Recovery Update

Ms. Baxter provided an update regarding the long-term community recovery efforts from the 2019 Memorial Day tornadoes. She first shared the [Disaster Recovery Dashboard](#) showing the data of the impacted properties and was pleased to share that out of 5,745 total impacted properties 5,369 properties have been recovered, making the recovery rate 93% as of this date. We ask that all impacted jurisdictions continue to provide us with updated recovery information. She then provided information about the Miami Valley TREEcovery Campaign led by Keep America Beautiful through their RETREET program. She explained that this is a multi-year disaster recovery effort to heal the landscape devastated by the tornadoes. Ms. Baxter then shared information regarding the community recovery projects and explained that at the conclusion of the Individual Recovery phase the Greater Dayton Disaster Relief Fund had a remaining balance of over \$800,000. MVRPC and The Dayton Foundation established well-defined eligibility criteria, funding parameters and a proposal process for funding of Long-Term Community Recovery projects to expend the remaining funds. The

Community Recovery Projects that were awarded were: Five Rivers MetroParks-Foxton Court Demolition, City of Beavercreek- Park Restoration, Harrison Township- Northridge Community Park and Neff Demo, and Harrison Township- Sinclair Park Restoration.

Lastly, Ms. Baxter shared information about Regional Resiliency Planning and explained that this will unite all communities from MVRPC's six counties, emergency management professionals, first responders, volunteer organizations and social service agencies in a common approach to preparedness and disaster response. In August 2022, MVRPC hosted the first Regional Resiliency Plan Stakeholder Workshop capturing best practices and lessons learned from the region's response to the 2019 Memorial Day tornadoes. The next steps will include establishing committees based on the Recovery Support Functions outlined in the [Department of Homeland Security's National Disaster Recovery Framework](#). Ms. Baxter opened the floor for questions and discussed including green infrastructure within the Natural and Cultural Resources section of the Recovery Support Functions.

B. FY2024 Dayton Development Coalition's Priority Development and Advocacy Committee (PDAC) Process

Mr. Daniel provided information regarding the FY2024 Dayton Development Coalition's Priority Development and Advocacy Committee (PDAC) Process. He stated that the purpose of this process is to establish a list of projects which benefit the Miami Valley to be submitted as requests for funding. Lastly, he shared the Dayton Development Coalition's Proposed Project Priority Process timeline for 2022-2023.

VII. EXECUTIVE DIRECTOR'S REPORT

A. Executive Director's Update

Mr. Martin reviewed the October ED's Update:

- MVRPC's 2021 Annual Report is Now Available
- The City of Fairborn named Sustainable Community of the Year for 2022
- MVRPC Presents at the 2022 Ohio GIS Conference
- MVRPC Creates Interactive Dashboards Highlighting Data about Employment in our Region
- Congratulations to Local Leaders Recognized as Ohio's top 500 Community Leaders in 2022
- Miami Valley TREEcovery Campaign Volunteer Opportunity
- National Rideshare Week
- Grants and Funding Resources
- MiamiValleyGovJobs.org
- Upcoming MVRPC Meetings

VIII. ADJOURNMENT

Chairperson Simmons called for a motion to adjourn the meeting. Ms. Lommatzsch made a motion to adjourn the meeting. Mr. Koogler seconded the motion which was approved unanimously. Chairperson Simmons called the meeting adjourned at 10:30 a.m.

MEMORANDUM

To: Technical Advisory Committee, Board of Directors
From: MVRPC Staff
Date: November 17, 2022
Subject: FTA Section 5310 Program 2021 Funding Cycle and Allocation

Beginning in FY 2013, The Federal Transit Administration's (FTA) redesigned the Section 5310 Program, known as *Enhanced Mobility of Seniors and Individuals with Disabilities*. Section 5310 became a regionally-managed program, with an annual regional allocation. MVRPC was named the Designated Recipient of those funds by the Governor, and, with the assistance of Greater Dayton Regional Transit Authority (GDRTA), administered the program in the Dayton Urbanized Area until March 14, 2022 when Ohio Department of Transportation (ODOT) became the Designated Recipient. During Fiscal Year 2021, MVRPC was negotiating a transfer of administration partnership from GDRTA to ODOT and did not open a solicitation cycle during this period of time.

The Federal Transit Authority informed ODOT and GDRTA that unobligated funds for Fiscal Year 2021 Dayton Urbanized Area in the amount of \$693,037 will lapse September 30, 2023 if not programmed. Per ODOT Memorandum of Understanding, ODOT manages 5310 funds from fiscal year 2022 and beyond. Therefore, funds including Fiscal Year 2021 and prior were obligated in a grant and will continue to be programmed and managed by GDRTA. GDRTA has proposed funding the purchase of seven modified mini vans to continue to provide existing and new services for older adults and individuals with disabilities.

Additionally, Greene CATS Public Transit has submitted a request in the amount of \$14,600 to fund the Greene County Mobility Management Program from October 1, 2022 to December 31, 2022. The current 5310 grant of \$135,000 will be expended in mid-October, however; ODOT's grant period of performance does not begin until January 1, 2023, creating a funding gap for this program.

Section 5310 primarily funds capital projects (vehicles) to be operated by nonprofit or transit agencies to provide supplemental transportation to older adults and individuals with disabilities. Other uses of these funds include preventive maintenance for those vehicles, Mobility Management, and completion of pedestrian infrastructure, if it makes transit more accessible to people with disabilities.

A resolution adopting the attached Program of Projects and authorizing the submission of a grant application to the Federal Transit Administration is attached for your review:

RESOLUTION 23-012

ADOPTION OF THE PROGRAM OF PROJECTS TO BE FUNDED WITH THE METROPOLITAN PLANNING AREA'S FY2021 SECTION 5310 ALLOCATIONS

WHEREAS, the Miami Valley Regional Planning Commission is designated as the Metropolitan Planning Organization (MPO) by the Governor acting through the Ohio Department of Transportation in cooperation with locally elected officials for Greene, Miami and Montgomery Counties including the jurisdictions of Carlisle, Franklin, Springboro and Franklin Township in Warren County; and

WHEREAS, the Miami Valley Regional Planning Commission (MVRPC) was named by the Governor of Ohio as the Designated Recipient for the *Enhanced Mobility for Seniors and Individuals with Disabilities* program (Section 5310) for the Dayton Urbanized Area until March 14, 2022, when ODOT became the Designated Recipient; and

WHEREAS, the federal surface transportation bill, the Fixing America's Surface Transportation Act (FAST Act) provides a regional allocation for Section 5310 to be administered by the United States Department of Transportation, Federal Transit Administration (FTA); and

WHEREAS, FTA regulations require that each urbanized area create a locally developed Coordinated Public Transit-Human Services Transportation Plan prior to the award of these funds and that original plan was adopted in 2008 with plan updates adopted in 2012 and 2019 by the Board of Directors of the Miami Valley Regional Planning Commission; and

WHEREAS, any obligated Section 5310 funds which were allocated to the Dayton Urbanized Area prior to March 14, 2022, MVRPC continues to oversee and manage in accordance with all applicable local, state and federal laws and regulations; and

WHEREAS, MVRPC staff, in consultation with the Ohio Department of Transportation, Greater Dayton Regional Transit Authority and Greene CATS Public Transit, has developed a program of projects for unobligated FY 2021 funds to address the transportation needs of those populations that adheres to the guidelines of the Section 5310 program, meets the goals of Coordinated Public Transit-Human Services Transportation Plan and meets the needs of those who are experiencing direct impacts by the COVID-19 pandemic; and

NOW THEREFORE BE IT RESOLVED, that the Board of Directors of the Miami Valley Regional Planning Commission adopts the Program of Projects for the FY2021 allocations of the *Enhanced Mobility of Seniors and Individuals with Disabilities* (Section 5310) program as described in Attachment 1, and authorizes the submission of an application to the Federal Transit Administration for the funding of recommended projects.

MEMORANDUM

To: Technical Advisory Committee, Board of Directors

From: MVRPC Staff

Date: October 31, 2022

Subject: Adoption of Resolution Supporting the IIJA Safety Performance Management Targets

The Infrastructure Investment and Jobs Act (IIJA) continues to place emphasis on the performance management approach first specified in the Moving Ahead for Progress in the 21st Century Act (MAP-21). It requires state DOTs, transit agencies, and MPOs to establish performance and outcome-based programs in several national priority areas.

While the various rules have different deadlines, generally, after a state DOT adopts targets for a particular rule, MPOs have 180 days from the date targets are established by a state to adopt their own targets or support the state's. The MPO deadline for adopting safety performance measure targets is February 28, 2023. MVRPC has decided to support the State's targets for the safety measures. Safety measures apply to all public roads and are adopted annually.

Exhibit 1 summarizes the safety measures and targets including the impact that a 2% annual reduction goal would have in the MVRPC area. The 2% reduction for CY 2023 maintains the rate adopted in CY 2022 due to Governor DeWine's focus on safety and associated increases in funding.

A resolution to support the IIJA safety performance management targets as established by ODOT is attached and staff recommends its adoption.

Attachments:

1. Summary of Safety Performance Measures.
2. Resolution Supporting the IIJA Act Performance Management Targets.

Exhibit 1: Summary of Safety Performance Measures.

Safety Performance Measure	2017-2021 Baseline State**	2021 Target State**	2023 Target* State	2017-2021 Baseline MVRPC	2023 Target* MVRPC	Met Target or Progress?**
Number of Fatalities	1,197.2	1,084	1,173.0	91.4	87.6	No
Fatality Rate	1.06	0.93	1.04	0.99	0.95	No
Number of Serious Injuries	7,805.6	8,101	7,649.0	553.2	530.3	Yes
Serious Injury Rate	6.91	6.97	6.77	5.96	5.73	Yes
No. of Non-motorized Fatalities and Serious Injuries	840.4	811	824	68.8	64.2	Progress

* Using a 2% annual reduction goal from baseline conditions.

** Determination of progress would be made at the State level only, comparing 2021 targets to 2021 actuals (based on 2017-2021 rolling average). ODOT currently estimates that it will meet the targets for number of serious injuries and injury rate and make significant progress towards the number of Non-motorized Fatalities and Serious Injuries.

RESOLUTION 23-013 SUPPORTING THE INFRASTRUCTURE INVESTMENT AND JOBS ACT SAFETY PERFORMANCE MANAGEMENT TARGETS

WHEREAS, the Miami Valley Regional Planning Commission is designated as the Metropolitan Planning Organization (MPO) by the Governor acting through the Ohio Department of Transportation in cooperation with locally elected officials for Greene, Miami, and Montgomery Counties including the jurisdictions of Franklin, Carlisle, Springboro and Franklin Township in Warren County; and

WHEREAS, the MVRPC's Board of Directors serves as the policy and decision making body through which local governments guide the MPO's transportation planning for the Dayton Metropolitan Area; and

WHEREAS, the Moving Ahead for Progress in the 21st Century Act (MAP-21) required State Departments of Transportation (DOTs) and MPOs to set targets for safety annually and the Infrastructure Investment and Jobs Act (IIJA) reaffirms this requirement; and

WHEREAS, the Ohio Department of Transportation had to report annual targets for safety measures by August 31st, 2022; and

WHEREAS, MPOs have 180 days to set targets following the above mentioned deadlines; and

WHEREAS, MVRPC working with the Ohio Department of Transportation (ODOT) has chosen to support ODOT's targets.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors of the Miami Valley Regional Planning Commission hereby supports ODOT's safety performance management targets as outlined in Exhibit 1 and agrees to plan and program projects that contribute to the achievement of such targets.

BY ACTION OF THE Miami Valley Regional Planning Commission's Board of Directors.

Brian O. Martin, AICP
Executive Director

Miami Valley Regional Planning Commission

Date

MEMORANDUM

To: Technical Advisory Committee, Board of Directors
From: MVRPC Staff
Date: November 1, 2022
Subject: Adoption of IIJA Transit Asset Management Targets and Update to Transit Agency Public Transportation Safety Plans.

The Infrastructure Investment and Jobs Act (IIJA) continues to place emphasis on the performance management approach first specified in the Moving Ahead for Progress in the 21st Century Act (MAP-21). It requires state DOTs, transit agencies, and MPOs to establish performance-and outcome-based programs in several national priority areas.

While the various priority areas have different deadlines, generally MPOs have 180 days from the date targets are established by a State DOT or transit agency to adopt their own targets. Transit agencies were required to update their Transit Asset Management Plans by October 1, 2022.

Exhibit 1 summarizes the targets established by each transit agency by asset class in the 2022 Update of the Transit Asset Management Plan.

A resolution to adopt the IIJA transit asset management targets as established by each of our regional transit agencies (the Greater Dayton Regional Transit Authority, the Greene County Transit Board, and the Miami County Transit System) and ODOT for the 5310 Program is attached and staff recommends its adoption.

The IIJA also made changes to Public Transportation Agency Safety Plan (PTASP or Plan) requirements. The new requirements are summarized below:

- Plan must include strategies to minimize exposure to infectious diseases.
- Plan must be developed in cooperation with frontline employee representatives and agency must establish a Safety Committee.
- Plan must establish a risk reduction program to reduce crashes/incidents and transit worker assaults.
- Plan must include staff safety training.

Each regional transit agency has assessed their existing PTASPs for compliance with the new requirements and has made changes when necessary. The updated PTASPs did not result in changes to safety targets.

RESOLUTION 23-014 ADOPTING THE INFRASTRUCTURE INVESTMENT AND JOBS ACT TRANSIT ASSET MANAGEMENT TARGETS

WHEREAS, the Miami Valley Regional Planning Commission is designated as the Metropolitan Planning Organization (MPO) by the Governor acting through the Ohio Department of Transportation in cooperation with locally elected officials for Greene, Miami, and Montgomery Counties including the jurisdictions of Franklin, Carlisle, Springboro and Franklin Township in Warren County; and

WHEREAS, the MVRPC's Board of Directors serves as the policy and decision making body through which local governments guide the MPO's transportation planning for the Dayton Metropolitan Area; and

WHEREAS, the Moving Ahead for Progress in the 21st Century Act (MAP-21) required a system to monitor and manage public transportation assets to improve safety and increase reliability and performance, and the Infrastructure Investment and Jobs Act (IIJA) reaffirms this requirement; and

WHEREAS, transit providers had to update their Transit Asset Management Plans by October 1st, 2022; and

WHEREAS, MPOs have 180 days to set targets following the October 1st, 2022 deadline; and

WHEREAS, the MVRPC working with the regional transit agencies (the Greater Dayton Regional Transit Authority, the Greene County Transit Board, and the Miami County Transit System) and the Ohio Department of Transportation for the 5310 program has chosen to adopt each agency's targets.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors of the Miami Valley Regional Planning Commission hereby adopts the transit asset management targets as described in **Exhibit 1**.

MEMORANDUM

To: Technical Advisory Committee, Board of Directors
From: MVRPC Staff
Date: November 1, 2022
Subject: SFY2021-SFY2024 Transportation Improvement Program (TIP) Amendment #23

Over the last few months MVRPC, ODOT, Greene CATS, Miami County Transit and GDRTA have made numerous modifications to the programming documents for various projects resulting in the need for an SFY2021-SFY2024 TIP amendment. The attached TIP Tables 4.1, 4.3, 4.4, 5.1, 5.2, 5.3 and 5.4 reflect the updated information for each specific project. Modifications to Statewide Line Item projects are shown on Table 4.6 and are provided for information only. A TIP terminology explanation chart of key abbreviations used in the highway/bikeway tables precedes Table 4.1.

The Infrastructure Investment and Jobs Act includes a new funding source, the Carbon Reduction (CR) Program, to invest in projects that support a reduction in transportation emissions from on-road sources. ODOT has determined that the fiscal constraint tables from the original SFY2021-2024 TIP need to be updated to account for this new funding source. As such, MVRPC's and ODOT's highway fiscal analyses are included in Tables 4.7 and 4.8. For the Highway/Bikeway Program, the fiscal constraint will take ODOT's encumbrance based annual allocation into account. Table 4.7 - MVRPC'S Funding Plan shows a fiscal analysis for MVRPC's controlled funding sources. Table 4.8 summarizes all Federal, State and Local Match funds scheduled to be expended during SFY2021-2024. The ODOT STIP addresses the fiscal constraint for projects included in the TIP, financed with ODOT controlled funding sources.

A resolution adopting the proposed TIP amendment is attached for your review and consideration. The MVRPC staff recommends your approval.

Attachments:

- (1) TIP Abbreviation Table
- (2) Amended MVRPC TIP tables: 4.1, 4.3, 4.4, 5.1, 5.2, 5.3 and 5.4
- (3) Statewide Line Item Project table 4.6 (For information only)
- (4) MVRPC and ODOT Fiscal Analyses tables 4.7 and 4.8
- (5) Resolution Adopting Amendments to the SFY2021-2024 TIP

EXPLANATION OF ABBREVIATIONS USED IN TABLES 4.1 – 4.8

Project I.D. #

First Three Characters
 000 = Unique Project Number
 Decimal Character = Subtype (as described below)
 .1 = New Construction
 .2 = Reconstruction
 .3 = Resurface
 .4 = Safety Improvement
 .5 = Bridge Replacement/Rehabilitation
 .6 = Signal Improvement
 .7 = Bikeway/Pedestrian Improvement
 .8 = Other Improvements

PID #

ODOT "Project Identification Number"

Air Quality Status

Identifies projects which were included
 in the LRTP air quality conformity analysis
 Upper Row = Project is Exempt or was Analyzed
 Lower Row = Build Year Scenario (2020, 2030 or 2040)

Phase of Work

ENG -Environmental and Contract Plan Preparation
 ROW -Right-of-Way Acquisition
 CON -Construction
 SPR -Federal State Planning and Research
 DBT -Debt Service

LRTP Goal

G1 -Address regional transp. needs through improved planning
 G2-1 -Encourage a stronger multi-modal network in the Region
 G2-2 -Maintain the regional transportation system
 G2-3 -Upgrade the regional transportation system
 G2-4 -Incorporate regional land use strategies
 G3 -Enhance attractiveness for future economic development
 G4 -Encourage pursuit of alternative fuels to reduce emissions

FUND CODES, DESCRIPTION AND TYPICAL FUNDING SPLIT

Federal Allocation of ODOT or County Engineer Association Controlled Funds

	Typical Fed./Local Share
BR -Bridge Replacement and Rehabilitation	80/20
EAR -Federal Earmark, Specific Source Undetermined at this Time	Varies
f-5307 -Urbanized Area Formula Grant	80/20
f-5310 -Enhanced Mobility of Seniors and Individuals with Disabilities	80/20
f-5337 -State of Good Repair Program	80/20
f-5339 -Bus and Bus Facilities Formula Program	80/20
HSIP -Highway Safety Improvement Program	90/10
IM -Federal-Aid Interstate Maintenance (Resurfacing, Restoring, Rehabilitation)	90/10
NH -National Highway System	80/20
NHPP -National Highway Performance Program	80/20
OTH -Other	Varies
SCR -State Carbon Reduction	80/20
SPR -Federal State Planning and Research	80/20
SRTS -Safe Routes to School	100
STA -Surface Transportation Program (ODOT Transportation Alternatives Set-aside)	80/20
STD -Surface Transportation Program (ODOT Allocation)	80/20
TRAC -Transportation Review Advisory Council	Varies

Federal Allocation of MVRPC Funds

	Fed./Local Share
CMAQ -Congestion Mitigation and Air Quality	Varies
CR -Carbon Reduction	Varies
STP -Surface Transportation Program	Varies
TA -Surface Transportation Program (Transportation Alternatives Set-aside)	Varies

Other Funding Sources

	Other/Local Share
CDBG -Community Development Block Grant	Varies
LOCAL -Local Funds	0/100
ODOD -Ohio Department of Development	Varies
OPWC -Issue 2/LTIP	80/20
STATE -ODOT State Funds	0/100
ELLIS -ODOT's Project Monitoring Database	
TELUS -MVRPC's Project Monitoring Database

RESOLUTION 23-015 AMENDING THE SFY2021-SFY2024 TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, the Miami Valley Regional Planning Commission is designated as the Metropolitan Planning Organization (MPO) by the Governor acting through the Ohio Department of Transportation in cooperation with locally elected officials for Greene, Miami and Montgomery Counties including the jurisdictions of Carlisle, Franklin, Springboro and Franklin Township in Warren County; and

WHEREAS, the MVRPC's Board of Directors serves as the policy and decision making body through which local governments guide the MPO's transportation planning process for the Dayton Metropolitan Area; and

WHEREAS, all Federally funded transit and highway improvements within Greene, Miami and Montgomery County must be included in the region's Transportation Improvement Program (TIP) prior to the expenditure of Federal funds; and

WHEREAS, the SFY2021-SFY2024 Transportation Improvement Program was adopted on May 7, 2020; and

WHEREAS, MVRPC, ODOT, Greene CATS, Miami County Transit and GDRTA have made numerous modifications to the programming documents for various projects resulting in the need for a SFY2021-SFY2024 TIP amendment; and

WHEREAS, the proposed amendment is consistent with the Region's long-range transportation plan; and

WHEREAS, this TIP amendment will not affect the regional air quality emission analysis of the SFY2021-SFY2024 TIP; and

WHEREAS, the MVRPC Public Participation Policy for Transportation Planning process allows for minor TIP amendments such as this to occur without separate public involvement meetings; and

WHEREAS, this amendment will result in a TIP that is in reasonable fiscal constraint

NOW THEREFORE BE IT RESOLVED, that the Board of Directors of the Miami Valley Regional Planning Commission hereby adopts **Amendment #23** to the SFY2021-SFY2024 Transportation Improvement Program as shown on the attached TIP Tables.

BY ACTION OF THE Miami Valley Regional Planning Commission's Board of Directors.

Brian O. Martin, AICP
Executive Director

Greg Simmons, Chairperson
Board of Directors of the
Miami Valley Regional Planning Commission

Date

MEMORANDUM

To: Technical Advisory Committee, Board of Directors
From: MVRPC Staff
Date: November 1, 2022
Subject: Proposed New Projects Requesting MVRPC's STP, CMAQ, TA and CR Funds

The enclosed table shows all proposed new projects received as part of our solicitation for MVRPC regionally controlled funding under the Surface Transportation Program (STP), Congestion Mitigation/Air Quality (CMAQ), Transportation Alternatives (TA) and Carbon Reduction (CR) programs.

* The proposed new project list is for information only at this time.

A public involvement meeting to present the proposed new projects requesting MVRPC's STP, CMAQ, TA and CR funds was held on November 3, 2022. A summary of public involvement comments is included as an attachment.

Federal funding request totals and total project costs are broken down by funding category below.

	Funds Requested	Total Project Costs
STP	\$27,883,624	\$44,349,819
CMAQ	\$21,399,735	\$34,364,929
TA	\$7,400,052	\$10,443,973
CR	\$1,032,716	\$1,730,160
TOTAL	\$57,716,127	\$90,888,881

The MVRPC Board reserved \$1,500,000 from the CR program to fund a regional project to purchase and install electric vehicle charges for interested member jurisdictions. Thirty five (35) applications were received and selected locations will receive Level II charging stations.

The next step in the process is to evaluate each proposed project based on the criteria established in MVRPC's suballocated funding policies and procedures. After each project is ranked, a final list of recommended projects will be reviewed by the Technical Advisory Committee in February and then forwarded to the Board of Directors for final approval in March.

CY2022 Summary of STP applications

Project Sponsor	Project Name	Project Location	Project Description	Federal Funds Requested	Total Project Cost
* City of Beavercreek	North Fairfield Road Resurfacing Project	North Fairfield Road from Jonathon Drive to Beaver Vu Drive.	Resurfacing including curb ramp replacement for non-ADA compliant curb ramps, curb repair, inlet repair and sidewalk repair/resurfacing along the project.	\$696,600	\$998,800
* City of Beavercreek	Pentagon Boulevard Resurfacing Project	Pentagon Boulevard from Grange Hall Road to North Fairfield Road.	Resurfacing including curb ramp replacement for non-ADA compliant curb ramps, curb repair, inlet repair and sidewalk repair/resurfacing along the project.	\$829,440	\$1,482,400
* City of Brookville	West Westbrook Road Resurfacing, Phase 1	West Westbrook Road from Arlington Road to June Place.	Resurfacing including 1.5" mill and 1.5" overlay for approximately 2,000'. New pavement markings will also be installed.	\$238,665	\$372,950
* City of Brookville	West Westbrook Road Resurfacing, Phase 2	West Westbrook Road from June Place to Wolf Creek Street.	Resurfacing including 1.5" mill and 1.5" overlay for approximately 1,800'. New pavement markings will also be installed.	\$212,345	\$332,350
City of Centerville	Centerville Station Road Improvements, Phase 2	Centerville Station Road from Braewood Trail to 600' east of Park East Court.	Create a middle turn lane, widen existing lanes, improve vertical sight distance and install a multi-use path that will connect to the greater trail network, local neighborhoods and several parks.	\$2,280,456	\$4,466,813
City of Centerville	Main Street Uptown Improvements	SR 48 from Franklin Street to Ridgeway Drive and Ridgeway Drive from SR 48 to Lyons Drive.	Widen SR 48 to a five lane section on both ends of the Ridgeway Drive intersection. The Ridgeway Drive intersection with SR 48 will be reconstructed and realigned to include ADA compliant curb ramps, crosswalks and a traffic signal that is coordinated with others in the area. Improvements to the intersection of SR 48 and Franklin Street (addressing curb radii and an ADA compliance pinch point on the east side of the intersection) will be included.	\$2,443,805	\$4,880,550

City of Clayton	Haber Road Intersection Improvements	Intersection of US 40 and Haber Road.	Installation of a traffic signal, pedestrian facilities and a right turn lane. The project will provide connectivity to the Old National Road Trail for pedestrians and cyclists as well.	\$596,267	\$892,159
City of Dayton	Gettysburg Avenue Reconstruction, Phase 3	Gettysburg Avenue from West Second Street to Hoover Avenue.	Reconstruction including new pavement, base, curb, walk, streetlights, catch basin, and traffic signals. The project also includes new wider walks, ADA curb ramps, and a multiuse trail.	\$2,852,888	\$3,943,850
City of Dayton	Salem Avenue Reconstruction, Phase 6	Salem Avenue from Elsmere Avenue to Litchfield Avenue.	Reconstruction including new street pavement, curb, sidewalk, street lights, and catch basins. The section at Philadelphia Drive will be skipped as this is being rebuilt as part of the Salem and Philadelphia Intersection Improvements project.	\$2,929,125	\$4,305,500
* City of Englewood	Hoke Road Resurfacing	Hoke Road from SR 49 north to the Englewood north corporation limit, excluding the I-70 bridge deck.	Resurfacing consisting of 2" mill and fill.	\$302,716	\$378,395
* City of Franklin	River Street Improvement Project	River Street from West Second Street to Vanhorne Avenue.	Roadway mill and overlay. Also included is repair of damaged curb and gutter, driveways, ADA ramps and sidewalk as needed. Storm sewers and catch basins will be removed and replaced.	\$915,000	\$1,320,000
* City of Franklin	South Main Street Improvement	SR 123 from Sixth Street to Eighth Street in Franklin.	Roadway mill and overlay. Also included is replacement of curb and gutter, driveways, ADA ramps and sidewalk. Storm sewers and catch basins will be removed and replaced.	\$826,400	\$1,193,000
* City of Germantown	Plum Street and Farmersville-Germantown Pike Resurfacing	Plum Street and Farmersville-Germantown Pike from West Market Street to Scott Court in Germantown.	Mill 2" of the existing asphalt surface and overlay with 2" of asphalt surface course. Restripe pavement with Thermoplast pavement markings.	\$338,913	\$457,533
City of Kettering	Bigger Road Reconstruction	Bigger Road from David Road to Wilmington Pike	Reconstruction of the roadway to correct the vertical alignment, add curbs and street lights, and add off-road facilities for pedestrians and bicyclists.	\$1,201,364	\$2,146,210

*	City of Kettering	Dorothy Lane Resurfacing	Dorothy Lane from South Dixie Highway to Haig Avenue.	Project includes milling and asphalt overlay of the roadway. Minor curb replacement, thermoplastic pavement markings, and raised pavement marker installation are also included in the project.	\$1,810,512	\$3,017,520
*	City of Trotwood	Denlinger Road Resurfacing	Denlinger Road from Salem Avenue to Westbrook Road.	Roadway resurfacing.	\$896,220	\$1,224,275
*	City of Trotwood	Wolf Creek Pike Resurfacing	Wolf Creek Pike from Snyder Road to Nolan Road.	Roadway resurfacing.	\$504,208	\$688,260
*	City of Troy	Experiment Farm Road Resurfacing Project	Experiment Farm Road from the Troy north corporation limit to SR 41.	Roadway resurfacing including the installation of sharrow markings and Share the Road signs to accommodate cyclists.	\$699,948	\$1,166,580
*	City of Xenia	West Main Street Rehabilitation Project	West Main Street in Xenia from Church Street to Orange Street.	Roadway mill and fill and full depth base repair as needed. In addition, repair/replacement of the existing and deteriorated ADA ramps, curb, curb inlets, sidewalks and drive approaches.	\$678,653	\$983,556
*	Greene County Engineer	Dayton Xenia Road Resurfacing Project	Dayton Xenia Road from Forest Drive to the Xenia west corporation limit.	Resurfacing consisting of 2" mill and fill.	\$1,181,443	\$1,476,803
*	Miami County Engineer	County Road 25A Resurfacing	County Road 25A from Donn Davis Way to the Troy south corporation limit.	The existing pavement will be milled along the curbs, resurface with 1.5" of asphalt concrete and receive thermoplastic pavement markings.	\$1,125,000	\$1,630,000
*	Montgomery County Engineer	Yankee Street Resurfacing	Yankee Street from Spring Valley Pike to Leona Lane.	Roadway milling and resurfacing to a depth of 1.5" over the full roadway and paved shoulder.	\$731,391	\$1,218,985

MVRPC	Regional Supplemental Transportation Planning, SFY2028	Miami Valley Region.	Supplemental Planning Funding - includes TIP Project Management and Project Planning Assistance.	\$427,728	\$534,659
MVRPC	Supplemental Regional Planning - SFY2028	Miami Valley Region.	Continuation of regional planning activities to support coordination/collaboration efforts in the region by providing planning process consultation, research and technical support.	\$164,537	\$205,671
Village of Covington	Broadway Street Improvements, Phase 1	US 36 from the east side of the bridge over Stillwater Creek to Pearl Street.	Reconstruction including the installation of new pavement, curb and gutter, ADA compliant curb ramps, storm sewer, two culvert linings, street lighting and electrical conduits, and pavement markings.	\$3,000,000	\$5,033,000

Total STP Funds Requested: \$27,883,624

CY2022 Summary of CMAQ applications

Project Sponsor	Project Name	Project Location	Project Description	Federal Funds Requested	Total Project Cost
City of Beavercreek	Beaver Valley Road Improvement	Beaver Valley Road from Dayton-Xenia Road to Hazel Drive.	Widen the roadway to a uniform three lane section along with the installation of curb, storm sewer and the lowering of a portion of the roadway to improve sight lines. The project also includes the installation of a path along the east side of the roadway to link the existing path along the Hunters Ridge neighborhood to the existing path in the vicinity of Dayton-Xenia Road.	\$1,273,300	\$2,244,000
City of Beavercreek	Indian Ripple Road Widening	Indian Ripple Road from Woodview Estates East to the Beavercreek east corporation limit.	Widen the roadway to a three lane pavement section along with curb, gutter, storm sewer and an 8' wide sidewalk along the south side of the roadway.	\$2,113,250	\$3,000,000
City of Beavercreek	Kemp Road Improvement Project	Kemp Road from North Fairfield Road to Hanes Road.	Installation and reconstruction of sidewalks including a 5' sidewalk along the south side and an 8' sidewalk along the north side of the roadway. The project also will include widening the existing two lane section from west of Crab Tree Drive to east of Wartinger Park to a three lane section for a two-way left turn lane. This roadway will also be improved with curb and gutter and storm sewer throughout the project.	\$1,005,800	\$2,486,600
City of Beavercreek	Shakertown Road Widening Project	Shakertown Road from Carthage Drive to Southern Belle Boulevard.	Widen the roadway to a three lane pavement section. Along with this widening, a 5' sidewalk and an 8' sidewalk will be included with the project. This roadway will also be improved with curb and gutter and storm sewer throughout the project.	\$2,407,500	\$3,885,000

City of Centerville	Clyo Road and Bigger Road Intersection Improvements	Intersection of Clyo Road and Bigger Road.	Provide pedestrian improvements and reduce congestion by installing pedestrian islands and adding turn lanes. Construct channelized turn lanes for traffic movements that cause congestion during peak hours. The project also reconfigures the intersection by adding pedestrian islands to allow for safer crossings and creates a dedicated bus pull over location. Signal replacement will be included also.	\$1,343,790	\$2,265,070
City of Centerville	Clyo Road and Dimco Way Intersection Improvements	Clyo Road from St. Leonard Way to 150' south of Ole Quaker Court.	Widen the roadway to provide a three lane section south of Dimco Way to the Centerville city limit and continuing into Montgomery County to the bridge over Sugar Creek. Sidewalk/shared use path will be included through the project extents. A traffic signal and intersection lighting will be constructed at Clyo Road and Dimco Way. Due to the improvements on Clyo Road and need for turn lanes on Dimco Way as a result of the signalization, existing Dimco Way will be widened at the intersection to provide a 3-lane section to accommodate a 50' left turn bay with 50' diverging taper. The existing sidewalk will be disturbed as a result of the widening and will be replaced with a shared use path on the south side of the roadway.	\$2,475,318	\$4,633,700
City of Dayton	Welcome Park Bike Path	Along Edwin C. Moses Boulevard from West Stewart Street to Welcome Park.	Construct a side path along the west side of Edwin C. Moses Boulevard from West Stewart Street to 200' south of Harriet Street and then a separated bike path along the north side of Welcome Stadium Parking lot from Edwin C. Moses Boulevard to Welcome Park.	\$349,180	\$562,000
City of Franklin	East Second Street Traffic Signal Upgrade	Intersections of East Second Street at Charles Street/Victory Lane, Millard Drive and Deardoff Road.	Upgrade the existing traffic signal installations with new mast arm poles, new signal heads and updated traffic control equipment that can and will be networked with the City's ATMS centrally controlled signal system. At the same time, it will extend the existing fiber optic communication infrastructure along East Second Street between Riley Boulevard and I-75 for networking and integrating 7 intersections with the ATMS signal system. All 7 intersections will be upgraded with an ATC and be integrated into the City's existing ATMS signal system and expanded for future autonomous vehicle technology.	\$1,830,350	\$2,614,800

City of Franklin	Lions Bridge Roundabout Project	Intersection of Park Avenue and Miami Avenue.	Construct a single lane roundabout.	\$1,284,000	\$2,192,000
GDRTA	Purchase of five 30'-35' Diesel Buses	Dayton and surrounding communities.	Purchase buses to replace others that have come to the end of their useful life.	\$3,100,000	\$3,875,000
Greene County Engineer	Indian Ripple and Factory Road Intersection Improvement	Intersection of Indian Ripple Road and Factory Road	Replace the existing two-way stop control intersection with a traffic signal and turn lanes to improve safety and capacity of the intersection.	\$1,922,133	\$2,781,999
Miami Conservancy District	Great Miami River Recreation Trail Reconstruction	Left bank of the Great Miami River from East River Road to Stewart Street.	Bikeway improvement project to reconstruct and widen the existing trail from 8 to 12 feet with shoulders to improve safety and increase capacity. Additional improvements include improved drainage, improved trail access, parking improvements, new trail lighting and trail amenities.	\$1,711,123	\$2,642,495
Miami Conservancy District	Old North Dayton Trail, Segment 3	Left bank of the Great Miami River from Old North Dayton Trail, Segment 2 to Old Troy Pike.	Work includes installing a new 14' wide asphalt path, underdrains, benches, trash receptacles and dog waste stations. A proposed trail connection to the City of Riverside's Eintracht Singing Society will be made.	\$583,991	\$1,182,265

Total CMAQ Funds Requested: **\$21,399,735**

CY2022 Summary of TA applications

Project Sponsor	Project Name	Project Location	Project Description	Federal Funds Requested	Total Project Cost
City of Dayton	East Third Street Enhancements	East Third Street from Keowee Street to Linden Avenue.	Roadway narrowing from five and four lanes to three lanes. As part of the narrowing the following features will be added: bike lanes, widened sidewalks, defined parking, bump outs and decorative amenities at crosswalks and along the corridor.	\$1,000,000	\$1,359,000
City of Dayton	Edwin C. Moses Boulevard Road Diet	Edwin C. Moses Boulevard from West Third Street to Salem Avenue.	This project will perform a road diet to reduce the existing lanes from four/five to three/two lanes with parking. The reconstructed street will include pedestrian amenities, according to the complete street policy, updated utilities, traffic signal upgrades, resurfacing, and new sidewalk and curb ramps. This project will also add a new alignment to West Riverview Avenue to Edwin C. Moses Boulevard.	\$584,969	\$810,467
City of Dayton	Main Street/Third Street Streetscape, Phase 1	Main Street in Dayton from Second Street to Fourth Street and Third Street from Ludlow Street to Jefferson Street.	Replace brick pavers with sidewalk. This replacement will update the uneven bricks with a smooth walkway. The updates include new sidewalks, curb, landscaping and pedestrian amenities.	\$999,745	\$1,323,851
City of Dayton	Philadelphia Drive Traffic Calming	Philadelphia Drive from West Riverview Avenue to Salem Avenue.	This project will provide traffic calming including new asphalt, curb extensions to define the on-street parking, and install sidewalk where it is missing.	\$812,910	\$1,079,000
City of Germantown	Covered Bridge Restoration Project	Covered bridge in Germantown over Little Twin Creek on East Center Street.	Restoration of historic covered bridge to its original design for use by pedestrians and bicyclists.	\$356,400	\$490,000

City of Riverside	Woodman Drive Pedestrian Improvements	Woodman Drive from US 35 to Eastman Road.	Pedestrian improvements including installation and replacement of sidewalks, the connection of new sidewalk to Richland Avenue, installation of a new 10' multi-use path connecting Woodman Park Drive to Eastman Avenue, installation of street lighting along the entire corridor, and pedestrian improvements to the intersection of Woodman Drive and Eastman Avenue including a new signal that incorporates pedestrian/ADA facilities.	\$831,845	\$1,052,969
City of Springboro	Central Greenway Bike Path	From the parking area of East Milo Beck Park east along West Lower Springboro Road, then north on Factory Road to the Franklin Township/City of Springboro corporation line.	Construction of a portion of the Central Greenway Multi-use Path, Segment D.	\$994,276	\$1,553,955
Miami Conservancy District	Great Miami River Recreation Trail ADA and Safety Improvements	Great Miami River Recreation Trail at Helena Street, East River Road, Farmersville-West Carrollton Road and Linden Avenue.	Improvements to locations where the Great Miami River Recreation Trail crosses busy streets. Improvements include installing pedestrian actuated flashing LED warning signs (possibly Rectangular Rapid Flashing Beacons), installing ADA compliant curb ramps, installing pavement striping including highly visible crosswalks, and installing additional highly visible signage.	\$228,391	\$355,596
Miami Conservancy District	Stillwater Trail Resurfacing	Left bank of the Stillwater River from Gayle B. Price bridge to Wegerzyn Road.	Milling and resurfacing of the existing asphalt, full depth pavement repairs, installation of amenities (swings, benches, trash cans, and dog waste stations), installation of native prairie planting, and installation of historical and cultural signage.	\$629,109	\$979,499
Village of West Milton	SR 571 Pedestrian Improvements	SR 571 from Miami Street to Rachel Ann Boulevard.	Addition of bicycle/pedestrian facilities including 3,000' of 10' wide multi-use path on the south side of the roadway, as well as pavement marking modifications to the bridge and addition of a barrier to facilitate safe travel of pedestrians/cyclists to and from the Stillwater Crossings development.	\$962,407	\$1,439,636

Total TA Funds Requested: \$7,400,052

CY2022 Summary of CR applications

Project Sponsor	Project Name	Project Location	Project Description	Federal Funds Requested	Total Project Cost
City of Beavercreek	SR 835 Lighting Project	SR 835 from the Beavercreek west corporation limit to North Fairfield Road.	Replacement of the existing high pressure sodium lighting fixtures with LED fixtures for the street lights. A total of 154 lighting fixtures will be upgraded to LED with this project.	\$82,500	\$152,500
City of Centerville	East Franklin Street and Clio Road Hiker/Biker Path	East Franklin Street from North Johanna Drive to Clio Road; Clio Road from East Alex Bell to East Franklin Street.	Construct a 10' hiker/biker path on the south side of East Franklin Street from North Johanna Drive to Clio Road and on the east side of Clio Road from East Alex Bell to East Franklin Street.	\$768,679	\$1,316,264
Greene County Engineer	Dayton Xenia Road Multi Use Path	Dayton Xenia Road from Ankeney Road to School East Drive.	Installation of a 10' multi-use path along the north side of the roadway.	\$181,537	\$261,396

Total CR Funds Requested: **\$1,032,716**

Comment:

Hi. I'm in support of the East Third Street Enhancements project submitted by the City of Dayton for TA funds.

Just a quick comparison to a couple 2021 TA and STP projects... 74% of the total project cost requested through both STP and TA funds in 2022 for the E.

3rd St. Enhancements project is the same proportion requested for a similar project on W. 3rd St. in 2021. MVRPC recommended to fund 64% or ~ 1.5 million for the W. 3rd project in 2021. Thank you, MVRPC, for that recommendation. It is certainly helping Dayton's west side.

The east side is now seeking similar help. Fortunately, the 2021 W. 3rd project's \$1.5 mil combined TA and STP recommendation was \$500K higher than the total project cost for the proposed 2022 E. 3rd St. Enhancements project. More funding could easily be put to good use on E. 3rd, but hopefully the lower price is appreciated as a financially responsible way to add safety and transportation options to my neighborhood's busiest street.

2021 also saw funding recommendations for E. 3rd St on the very edge of downtown. Improvements were recommended by the MVRPC to be funded at 70% of the total project cost or \$343,636. Thank you again, MVRPC. The 2022 E. 3rd St. Enhancements project builds upon the 2021 project - and even combining the 2022 request with the MVRPC's 2021 funding recommendation, this year's E. 3rd project comes in under the 2021 W. 3rd St. project's total recommendation amount for similar work.

Finally, the 2021 E. 3rd St. Enhancements project is called "enhancements", but actually includes very necessary pedestrian safety changes because of the success downtown re-development has brought to close-in east side neighborhoods.

E. 3rd St. is considered an arterial, but not all arterials are equal. Route 4, Route 35, Route 444, I-70, and I-675 are all divided lane highways that now manage traffic between Dayton and Springfield and Columbus. Before these highways existed, E. 3rd St. was how you came to Dayton from the east. E. 3rd St. also used to have a lot better protections for pedestrians in busier eras. With greater economic activity on the horizon in Columbus to our east and Dayton's revitalized downtown, E. 3rd St. is due for your attention again. Once again, thank you.

Comment:

I support the proposed East Third Street Enhancements Project between Keowee Street and Linden Avenue. Narrowing the roadway to reduce and slow down car traffic would be much appreciated, in addition to the suggested amenities for bikes and pedestrians: bike lanes, widened sidewalks, bump outs and safer crosswalks along the corridor. This section could also use traffic lights to make crossing the street as a pedestrian even safer. Lastly, this area of Third Street would benefit greatly from the addition of trees for shade to reduce the heat island effect for pedestrians. Thank you.

Comment: Last year Huffman Historic Area neighbors worked with the City of Dayton to plan a road diet for E. Third St. from downtown east through our neighborhood. We are working to revitalize the business district from Keowee to just beyond Linden Ave. We have a few new businesses already there and many available buildings on both sides of E. Third. Implementing the proposed road diet plan. would attract business to the area. Please consider funding this project

I'd like to offer my support for the TA Application of East Third Street Enhancements.

It would be transformational for the budding business district with a huge opportunity for vacant land prime for investment, next to a redeveloped housing stock.

Comment: I am writing in support of the TA Application for Third Street Enhancements in Dayton. East Third Street is overly wide for the commercial strip there, which continues to attract patrons and new businesses but is dangerously wide to cross. The road diet will be a welcome improvement.

Comment: I Support the TA application for E 3rd st! The road is too wide and dangerous and not human scaled. Would love to see that change! More pedestrian foot traffic would be good for local businesses and making Dayton a more low carbon livable city.

Comment: Our family has lived in the Huffman neighborhood for almost 10 years now. Access to alternative transportation options is a high priority for our family. This includes commuting to work, travel to nearby amenities and entertainment, and recreation, to name a few. Third St. has always been a high priority for our family to see changed. We would like to use it more, but often have to choose alternate routes for safety reasons. Our children are all under the age of 10 and it is not worth the risk to travel on Third. Crossing over from our side of the street to get to Taqueria Mixteca, for example, is very hazardous with traffic traveling at high rates of speed with no regard for pedestrians and no traffic signal from Keowee all the way to Linden. Any effort to increase pedestrian and cyclist safety through improvements to lighting, curbs, sidewalks, or bumpouts to naturally slow traffic would increase the likelihood that our family would use Third St. more frequently and would make it safer for us and our kids. The neighborhoods adjacent to Third are changing, and have changed, with an increased number of families with children residing in the area and with Huffman Place (low income senior housing) in the neighborhood. We need to prioritize the safety of all of our neighbors. Lastly, the design should follow the UDA plans set forth by the City of Dayton that we had the opportunity to provide input on. While

many of the other listed projects widen roads and prioritize cars over people, the Third St. improvements improve Third St. for all, please prioritize funding for the East Third Street Transportation Improvement projects, which would benefit our kids, seniors, and our entire community.

Comment: I am writing to voice strong support for the TA project proposed for E Third Street. I am a pastor who works at Light of the Nations Church, immediately next to Taqueria Mixteca, and my many congregants would feel much safer pulling in and out of the church lot with these improvements in place.

Thank you for considering!

Comment: I support the TA Application for East Third Street Enhancements.
Protected bike lanes please; make the car parking spots the protection from moving traffic with semi-permanent planters that allow for on street drainage out of the bike lane. Bump outs only to bookend the car parking with bike lane splits to keep the bike lane continuous. Put "P" with car symbol painted on parking spots - people are dumb and still can't figure out Jefferson Street parking.

Comment: I don't personally believe that 17' of sidewalk is necessary. Even with all of the buildings rehabbed you do not have the parking to sustain all of the business that would entail. Foot traffic that requires 17' of sidewalk is far beyond what is necessary at this point. E 3rd through that area is a race track. I would be concerned for safety with only one lane each way. I don't know that there is need for 4lanes but if this measure is to help the corridor to the base and if traffic increases I do not see one lane each way as a benefit. I'd rather see the bike path along the rail road tracks than added onto the roadway. It is safer for cyclists and not that far from where it is planned to be located. I understand and appreciate the need to develop the area but the roadway narrowing will only work if we can stop erratic driving. If you do this there needs to be more stop lights and ways to enforce better traffic laws.

Comment: I absolutely agree with the proposed boulevard projects for East Third. It will make the area more attractive to both business and pedestrians while discouraging high speed "pass through" traffic. Having a walkable connection between the downtown business area and the historic districts leading to the Oregon District would be an attractive destination area for the arts, hospitality and housing.

Comment: I, Kegan Sickels, President of the Dayton View Triangle Federation since June 2019, am submitting the following comment on behalf of the Neighborhood Association regarding the proposed project on Philadelphia Dr. in the City of Dayton. The Dayton View Triangle Federation engaged with the City of Dayton as far back as January of 2020 to discuss safety on Philadelphia Dr. as the city was planning on milling, repaving, and restriping the road along the length of our neighborhood (from Cornell to Salem). A neighborhood meeting resulted in the following desired results for Philadelphia Dr. between Cornell and Salem : 10% retain existing parking lane, 45% create bike lanes or cycle tracks, 45% create a consistent central turn lane (especially at Otterbein) to make vehicular traffic more predictable and make the intersections along the street safer. The city indicated at the time that "it is very difficult to remove existing parking lanes from residents". We did a door to door campaign at the city's request to provide ballots to the neighbors on the Eastern Side of Philadelphia Dr. to see what they wanted to see on the street. The results of those ballots closely corresponded to what our neighborhood meeting also recommended. However, because at least one resident voted to keep the vastly underused parking lane (typically only 1 car parked along the ~40-50 available spots from Cornell to Salem), and the rest of the neighborhood could not agree between bike lanes and turn lanes, the city chose to keep the status quo.

This project does not comply with the complete streets approach required by the application process, and bicycle safety has not been considered as a part of this project as alternate routes have not been identified or posted. The city's recent active transportation plan identifies that the #1 reason people are not biking for recreation, trips to the store, trips to visit family, or trips to work is because dedicated, protected lanes do not exist to facilitate these activities. With around 33ft of current curb to curb roadway available, there are much better options to make these streets safer and more accessible to people who aren't in cars. The \$1M request addresses a very small portion of the roadway that is missing sidewalks along the western edge of the roadway but also deeply subsidizes free, on street parking for residents who overwhelmingly do not need or utilize the space the city has designated for their cars. Please consider more strictly enforcing your complete streets policy, and have the city identify and provide on street bikeways on this corridor or identify and fund an alternate transportation network for cycling infrastructure in the area of our neighborhood that connects resources such as the Northwest Library, Northwest Plaza, and the Wolf Creek bike paths to the residents who frequent those places and who would use alternate transportation if they felt safe doing so. Thank you for your consideration.

Comment: I would like to see the bicycle/walking path expand and also see the main roads become more bike friendly. It would be nice to see more places accommodate for bicycle traffic and parking at restaurants and other places around the Dayton, Xenia, and Yellow Springs area.

Laura,

Thank you for your attached comments on the proposed transportation projects being considered for Federal funding. We welcome the interest these projects have generated and will forward your comments to the project's sponsor and our Board for their consideration.

Carbon Reduction Funds

Centerville - East Franklin St and Cloy Road Hiker Biker Path
Could I get more information on the design of this proposed project?

Transportation Alternatives

City of Dayton - East Third Street Enhancements
Bike Miami Valley strongly supports the City of Dayton's application to improve East Third Street. The project will "right size" East Third to create a more comfortable environment for bicycle and pedestrian activity.

City of Dayton - Edwin C Moses Blvd Road Diet
Bike Miami Valley supports the road diet of Edwin C Moses between West Third Street and to make better bike and pedestrian connections between Sunrise and McIntosh Park. The project also aligns with the vision of the Dayton Riverfront Plan to build more connectivity between the river neighborhoods and the river.

City of Dayton - Main Street Streetscape Phase One

Bike Miami Valley supports streetscape improvements downtown, but would call on the City of Dayton to lower the speed limit downtown from 35 to 25 mph to create a more ideal environment for people walking and biking.

City of Dayton - Philadelphia Drive Traffic Calming

Bike Miami Valley supports traffic calming measures on Philadelphia Drive to help reduce crashes, but would like to see better accommodations for people on bikes in the plan.

Miami Conservancy District - GMRRT ADA and Safety Improvements

Bike Miami Valley supports MCD's efforts to improve safety at intersections of the GMRRT and improve accessibility for more users.

Miami Conservancy District - Stillwater Trail Resurfacing

Bike Miami Valley supports the resurfacing of the Stillwater Trail. Bike Miami Valley hosted a trail user survey count along the Stillwater Trail and anecdotally heard from many trail users of diverse backgrounds who would like to see more trail maintenance investments.

City of Riverside - Woodman Drive Pedestrian Improvements

Bike Miami Valley supports the City of Riverside's proposed pedestrian and bike improvements on Woodman Drive. Question for the project sponsor: What is the overall vision for Woodman Drive from a bike perspective? Is the plan to continue a sidepath along Woodman Ave or create on-street bike lanes? Also is the connection to the Creekside Trail finished at 35 or still in the works?

City of Springboro - Central Greenway Bike Path - West Factory Road

Bike Miami Valley strongly supports the City of Springboro's application for the development of Segment D in their vision for a Springboro Central Greenway to connect the city to the City of Franklin and Montgomery County.

Village of West Milton - SR 571 Pedestrian Improvements

Bike Miami Valley would like to support the proposed bike and pedestrian connections to the City of West Milton's main commercial corridor from the proposed Stillwater Crossings development. Will lighting be added along the corridor along the proposed trail or is it existing?

Surface Transportation Program

City of Dayton - Gettysburg Ave Reconstruction, Phase 3

Bike Miami Valley would like the City of Dayton to consider on street bike infrastructure for this segment due to the number of curb cuts and driveways that would intersect with a multi-use path along this corridor.

City of Kettering - Bigger Road Reconstruction

Bike Miami Valley supports the City of Kettering's reconstruction of Bigger Road with a realignment and additional facilities for bicycles and pedestrians. We also strongly support the addition of lighting on this section of roadway.

City of Troy - Experiment Farm Road Resurfacing Project

Bike Miami Valley would encourage the City of Troy to use "Bikes May Use Full Lane" to accompany the proposed sharrows in this project. This signage is the new best practice and "share the road" should be phased out of use.

CMAQ

City of Centerville - Clio Road and Bigger Road Intersection Improvements

Bike Miami Valley supports the intersection improvements at this crossing for safety. How wide is the existing side path at this intersection?

City of Dayton - Welcome Park Bike Path

Bike Miami Valley supports the City of Dayton's Welcome Park Bike Path to create a low stress connection from Edwin C Moses Blvd to the Dayton Bike Yard. The project will also provide a low stress connection for the neighborhood to access Link: Dayton Bike Share to take bikes to other parts of the city.

City of Franklin - Lions Bridge Roundabout Project

Bike Miami Valley questions if a roundabout is the best solution for pedestrians at this intersection. It does break up crossing times, but they are generally not a great application especially if the pedestrian is blind. Traffic downtown is okay as it makes vehicles move at a slower speed which improves the walkability of your community.

Miami Conservancy District - GMRRT Reconstruction - East River Road to Stewart Street

Bike Miami Valley strongly supports MCD's application to improve this stretch of trail. Our office has recorded several user complaints about the condition of this section.

Miami Conservancy District - Old North Dayton Trail, Segment 3

Bike Miami Valley strongly supports the application to continue trail development in Old North Dayton. Bike Miami Valley has worked with Public Health's Creating Healthy Community Program in the past to encourage increased physical activity in adults as part of a goal from Public Health's Community Health Improvement Plan (CHIP). More trail infrastructure in the area will improve community health and wellness.

Health Environment Assessment

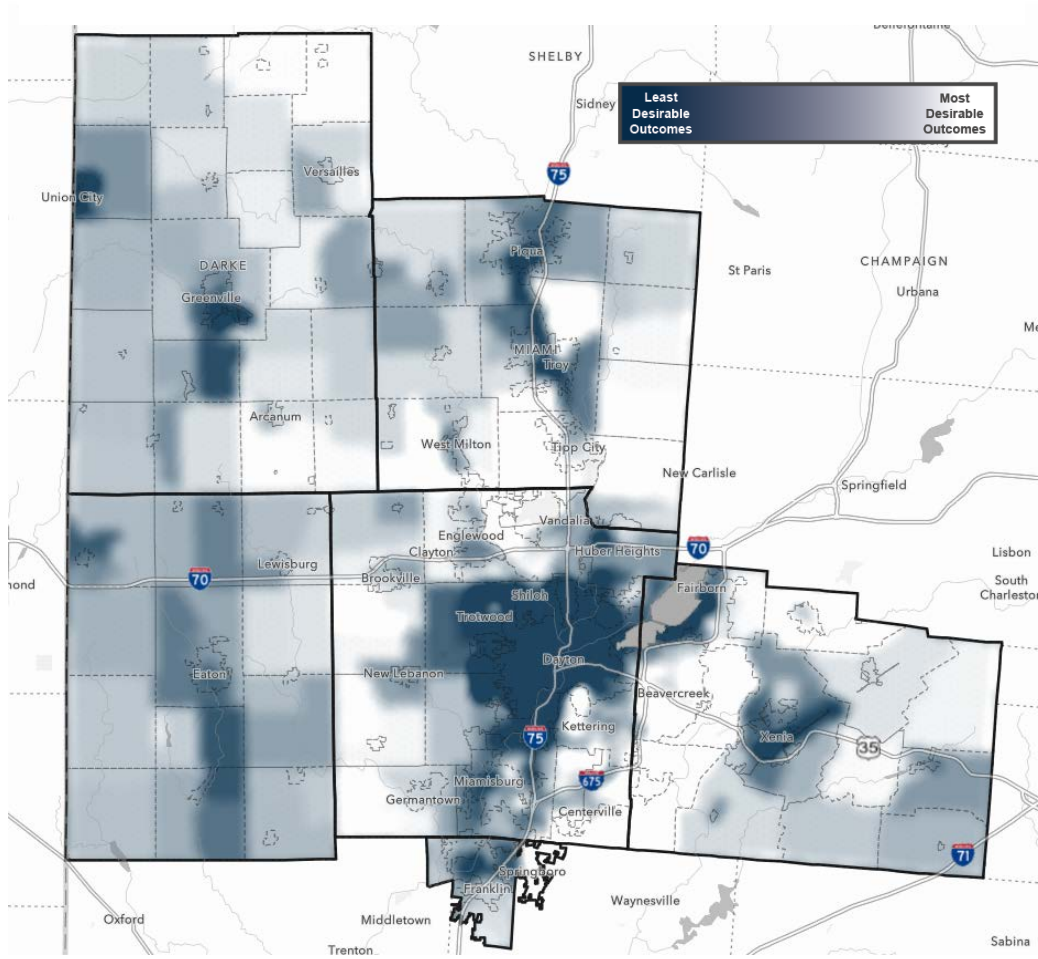

PLAN4Health - Miami Valley Initiative

Miami Valley Regional Planning Commission | Published March 3, 2022

Social Determinants of Health - Composite Map

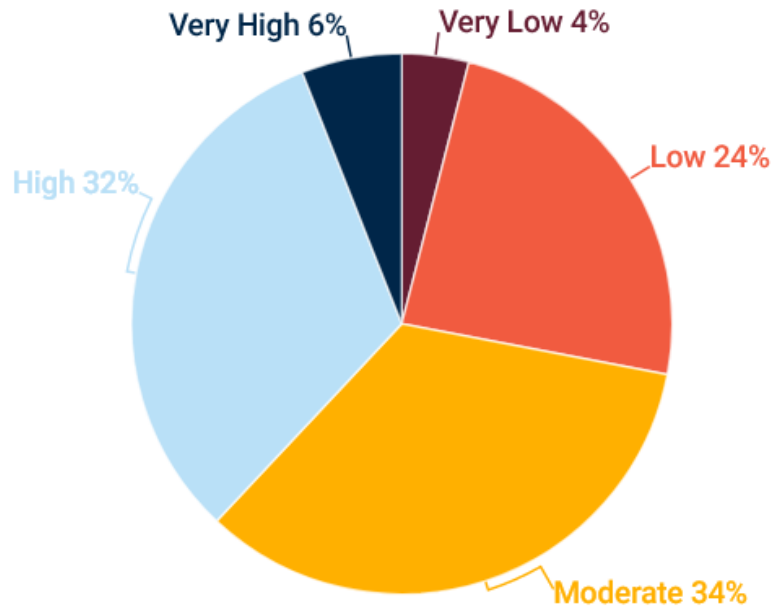

Health Environment Assessment Equity Analysis

August 2022

There are many things that impact how well and how long we live. Beyond medical care, our health and well-being are influenced by everything from education to the environments we find ourselves in. Collectively, these factors are called Social Determinants of Health (SDOH). SDOH are defined as “conditions in the environments in which people are born, live, learn, work, play, worship, and age that affect a wide range of health, functioning, and quality-of-life outcomes and risks.”¹

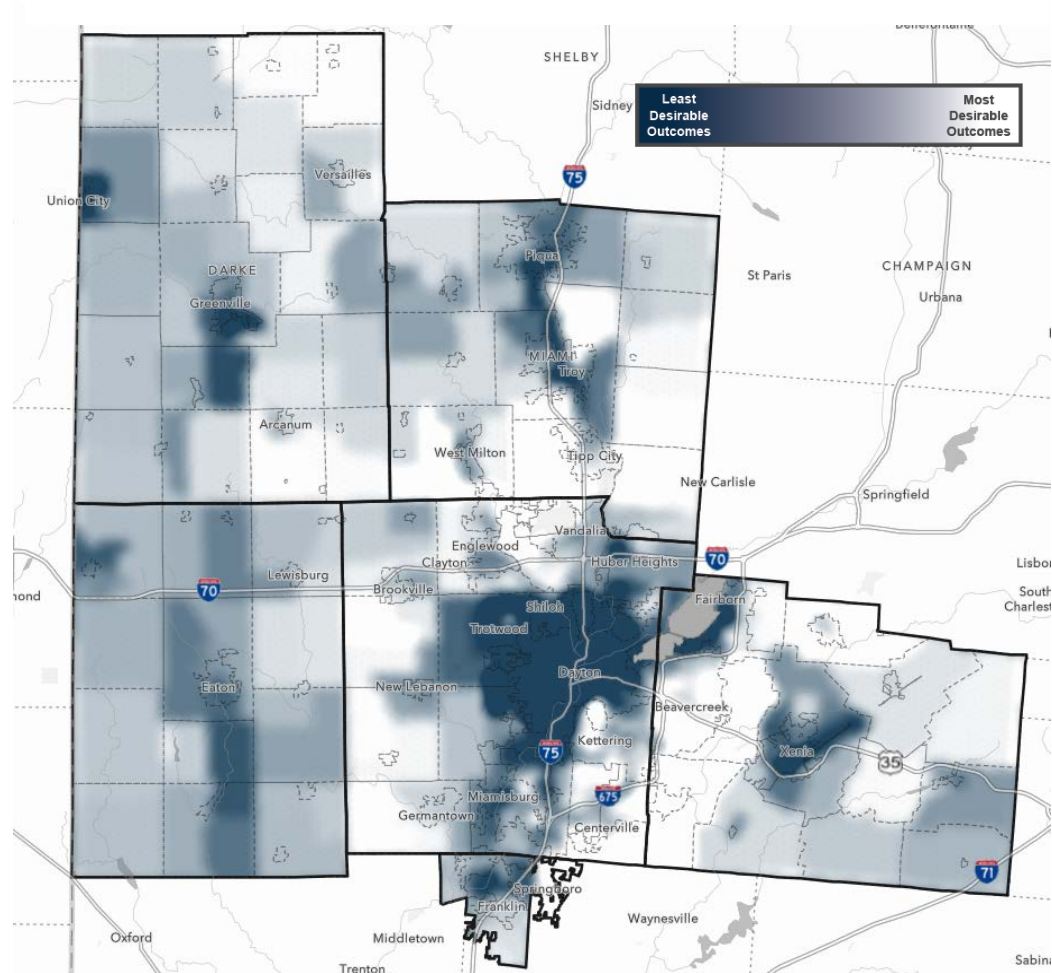

The Health Environment Assessment, the first project of the PLAN4Health - Miami Valley Initiative, used a SDOH model to examine conditions related to social, behavioral, built, and planning environments in the Region.

SDOH Index Outcomes by Total Population

Social Determinants of Health - Composite Map

All people, regardless of where they live, should have the resources, be provided with opportunities, and be in an environment that facilitate and support health and well-being

The Health Environment Assessment Equity Analysis revealed that **64% of the population living in urban areas** live in areas with **low to very low** SDOH outcomes compared to just **10% of the population** living in rural areas.

SDOH Index Outcomes by Urbanization

Access to resources plays an important role in SDOH outcomes. People **living in poverty** are **more likely** to live in an area with **low to very low** SDOH outcomes than the total population.

SDOH Index Outcomes by Poverty Status

The Equity Analysis revealed that there are significant disparities in SDOH outcomes by race. **69%** of the Region's **Black population** live in areas with **low to very low** SDOH outcomes. Comparatively, only **14%** of the **Asian population** and **21%** of the **White population** live in areas with these same outcomes.

SDOH Index Outcomes by Race/Ethnicity

Achieving the goal of healthy people and communities will require elimination of existing disparities through proactive, intentional, and explicit policies and investments in people and places

Active Community Index Trends: 1950-2010

Active Community Index for the Total Population

While over 40% of the population lives in communities with high to very high ACI scores (25.6% and 16.7% respectively), there are about the same number of people living in communities with low to very low ACI scores (27.5% and 14.5% respectively).

Sources: U.S. Census Bureau, 2016-2020 5-Year American Community Survey; Miami Valley Regional Planning Commission

Population Density & ACI

In the Miami Valley's developed areas, only 21% of the Region's older adults live in communities with very high ACI scores. Comparatively more than a quarter of children and people with disabilities live in communities with very high ACI scores. While this is encouraging, it still means that the vast majority of the Region's residents are living in communities with less than ideal conditions for active living.

Source: U.S. Census Bureau, 2016-2020 5-Year
American Community Survey

Active Community Index for Populations of Interest

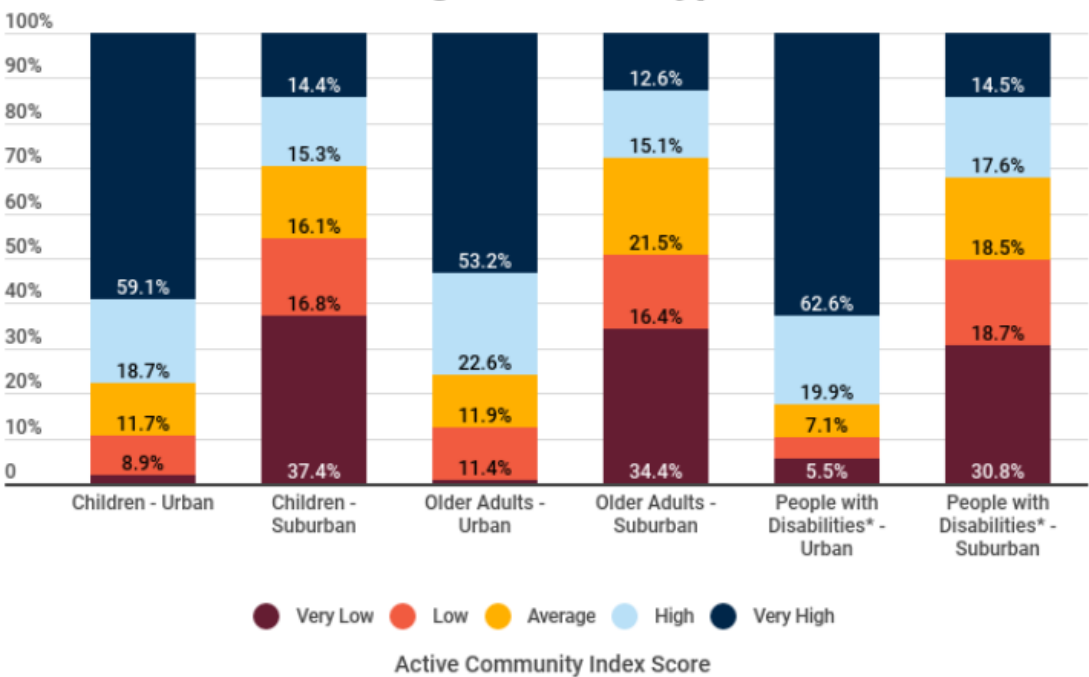

*Based on tract level distribution

While the Built Environment Assessment focuses on the Region's developed areas, further examination by neighborhood type revealed very profound differences between urban and suburban communities with regard to their active living conditions.

For the populations of interest, urban neighborhoods have better built environments for active living than suburban neighborhoods. For example, 59% of children living in urban neighborhoods have very high ACI conditions compared to just 14% of their suburban counterparts. Similarly drastic differences are shown for urban and suburban older adults and people with disabilities.

Livability & Active Communities

Livability and Active Communities

Improving built environment conditions to support active living is essential, especially when planning for the future. These environments have the capacity to improve quality of life for the Region's future residents, further sustaining livable communities.

PLAN4HEALTH - MIAMI VALLEY

A healthy community does not happen by accident. It requires a comprehensive approach covering all aspects of social, physical, and economic environments. Creating environments that promote healthy behaviors and improve health outcomes in our communities requires collaboration and partnerships between planning and health professionals.

MVRPC's PLAN4Health – Miami Valley Initiative, launched in spring of 2021, aims to explore how planning can impact health outcomes across the Region. It is a multi-year effort with a focus on projects and programs intended to:

- Promote and advocate for "Health in All Plans and Policies."
- Convene and engage partners to improve conditions that are known to be key determinants of health.
- Advance planning efforts aimed at creating conditions for healthy people and communities.

PLAN4Health – Miami Valley builds on work that has been done at the [national level](#) through the [American Planning Association](#) and the [American Public Health Association](#).

A set of concrete projects that are geared towards information sharing, capacity building, and generating collaborative solutions are slated for near-, mid-, and long-term implementation.

PLAN4Health
An American Planning Association Project

The [Built Environment Assessment](#), the second project of the PLAN4Health – Miami Valley Initiative, shifts the focus to how the health and well-being of residents could be improved through planning. Using the Active Community Index, the Built Environment Assessment establishes a baseline for active living conditions in the Miami Valley.

The following PREVIEW has been approved for appropriate audiences

Episode 3: Meet Healthy Food Coalition

A Regional Approach to Pursuing Equity

REI Program Manager
Fabrice Juin, MPH, CPH

December 1, 2022

MIAMI VALLEY

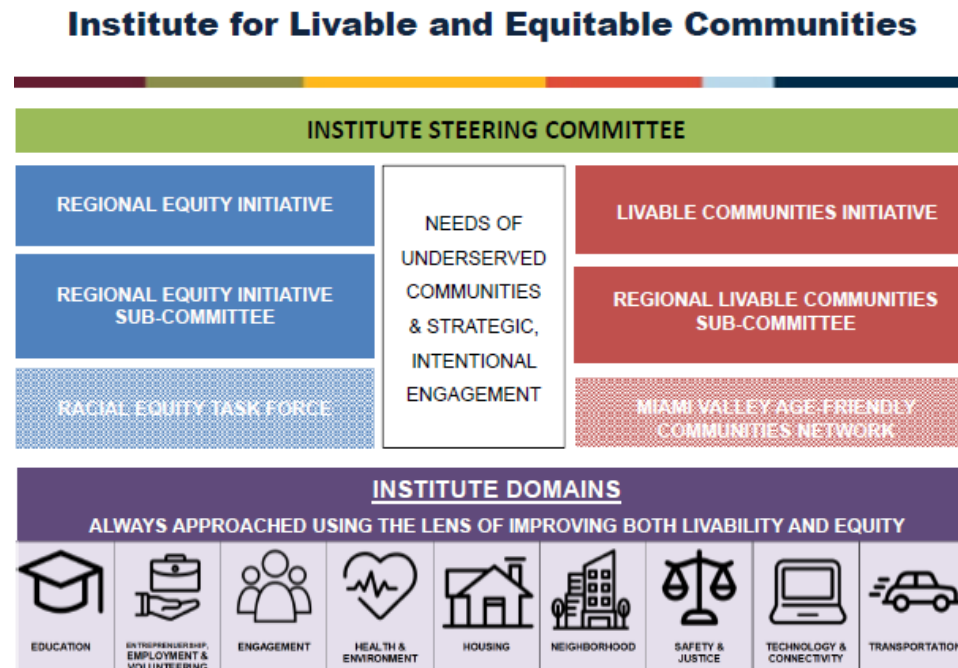

Regional Planning Commission

INSTITUTE FOR LIVABLE & EQUITABLE COMMUNITIES

Institute for Livable & Equitable Communities

Vision: Places an intentional focus on livability and equity, launching programs and transforming systems that create a community where all people can thrive.

Mission: Convenes critical partners and is the central point of coordination for a long-term, multifaceted effort to address nine domains proven to enhance livability and equity in communities.

Livable *AND* Equitable

Regional Equity Initiative

- Correcting policies; reforming institutions; and closing the gaps that undermine sustained quality of life improvements for underserved communities and vulnerable populations.
- Under the leadership of the Institute Steering Committee
- Regional Equity Initiative Subcommittee
 - Group of about 20 regional leaders who identify as equity advocates
 - Meet monthly, every fourth Tuesday of the month from 2:30 p.m. to 4:00 p.m. (open to the public)

Our Definition of Equity

- Equity: A condition of parity that is achieved by being intentional about improving quality of life for populations that are underserved, under-resourced, and vulnerable.
- Informed by three questions:
 - Are there deficits?
 - Who experiences the burden of the deficits?
 - How do we make sure well-intentioned interventions do not make deficits worse (and actually serve to optimize positive impact)?

Some of Our Current Efforts

- Establishing regional representation across the Miami Valley
- Advancing environmental justice for most vulnerable communities
- Pursuing broadband equity and digital literacy

Separating the angst, guess-work, and uncertainty around equity that impedes progress and impact.

Relevant Benefits for Advancing Equity

- Improved decision-making that better represents all communities and is less likely to suffer from unintentional blind spots and biases,
- Increased community trust in local government and public service by offering more options for community members to be seen and heard as well as to better understand community initiatives,
- A more fair and just allocation of public resources to all communities,
- Increased trust between community members by offering citizens more opportunities to interact with one another, and
- Improved community member satisfaction, and increased engagement and awareness.

**Let's Get REAL about
*equity...***

Equity Without... Isn't Equity

- Consulting with impacted/vulnerable communities
- Critical internal assessment and reorganization of agents and agencies
- Recognition and acknowledgement of past wrongs and injustices
- Diverse and inclusive reallocation and sharing of ownership
- Divestment from socioeconomic gain/loss as deciding factor

Going Beyond...

- One-size-fits all models
- Fix-all formula approach
- Making assumptions about community members and their lived-experience

Here To Serve You
& Your Communities!

EXECUTIVE DIRECTOR'S UPDATE

From Brian O. Martin, AICP
mvrpc.org

December 2022

MVRPC Hosts Open World Delegation Visit from Moldova

Ms. Debborah Wallace, MVRPC Board of Directors Second Vice-Chairperson, coordinated the visit of delegates from Moldova to the Miami Valley Region to learn more about our Disaster Recovery process developed in response to the 2019 Memorial Day Tornadoes natural disaster here in the Miami Valley.

The Open World Program connects government and civic leaders from other countries with the U.S. to gain first-hand knowledge on American community life and accountable government. While here, delegates visited a variety of

community groups, non-profits and governmental agencies to hear about best practices in responding to a disaster and providing recovery. This included a visit to the MVRPC office where delegates learned how the Miami Valley Long Term Recovery Operations Group and Long Term Recovery Network helped provide relief to residents and communities related to the 2019 Memorial Day tornadoes. Given Moldova's proximity to Ukraine, our programs may be applicable to their resettlement and fundraising needs.

MVRPC Restarts GIS Training Series

MVRPC hosted another successful "ArcGIS Online - Data Collection" training session on Thursday, November 17, 2022 at the Montgomery County Business Solutions Center.

Intended for intermediate GIS users, this training session focused on data collection using ESRI's Field Maps application. This event was MVRPC's eighth training session; the first one after a long break due to COVID19. The class had a total of 14 attendees from our member organizations. MVRPC staff teamed up with Mr. Eric Sauer from the Five Rivers MetroParks to provide hands-on learning opportunities, wonderful discussion and case studies.

We are grateful to Mr. Sauer for sharing his expertise with the region. We also thank staff at the Montgomery County Business Solutions Center for hosting our training session. For more information about MVRPC's GIS program, visit our website at <http://www.mvrpc.org/data-mapping/gis-mvrpc>.

MVRPC Releases the Built Environment Assessment PLAN4Health - Miami Valley Initiative

MVRPC is excited to share its Built Environment Assessment, the second project of the PLAN4Health - Miami Valley Initiative. The Assessment focuses on how planning impacts the health and well-being of our residents and examines the Region's current built environments for their ability to support active living. Access the Built Environment Assessment by following this link: <https://arcg.is/1uvrXD>.

The Built Environment Assessment provides information and tells the story of the Miami Valley's current conditions for active living using interactive maps and infographics. Analysis results on three (3) domains tied to active living are presented at the neighborhood level.

Further, composite maps and findings from each domain and an Active Community Index composite map that covers all three (3) domains are also presented to provide a comprehensive look at baseline information.

MVRPC's PLAN4Health – Miami Valley Initiative was launched in the spring of 2021 to explore how planning can impact health outcomes. The PLAN4Health - Miami Valley Initiative is a multi-year effort with a focus on projects and programs intended to:

- Promote and advocate for “Health in All Plans and Policies”
- Convene and engage partners to improve conditions that are known to be key determinants of health
- Advance planning efforts aimed at creating conditions for healthy people and communities

For additional information regarding PLAN4Health - Miami Valley Initiative and the Built Environment Assessment, contact Martin Kim, MVRPC's Director of Community and Regional Planning, at mkim@mvrpc.org.

Grants & Funding Resources

On a monthly basis MVRPC is highlighting several funding opportunities for eligible cities, counties, and townships on our website that could benefit communities in the Region. We include a description, contact information and program links. We have also listed other valuable resources for funding opportunities for our regional jurisdictions and organizations. See more at: mvrpc.org/grant-and-funding-opportunities.

This month we are featuring information on:

- Road to Zero Community Traffic Safety Grants– Deadline: January 6, 2023
- Ohio Environmental Protection Agency's Recycling and Litter Prevention Grants– Deadline: February 3, 2023

If you have any questions, please contact Kathryn Youra Polk at kyourapolk@mvrpc.org.

MiamiValleyGovJobs.org

MiamiValleyGovJobs.org is a one-stop website for candidates seeking positions with a public agency in the Miami Valley. This service is provided for MVRPC member organizations and partners at no cost. Posting your positions on [MiamiValleyGovJobs.Org](https://miami-valley-gov-jobs.org) increases visibility of your positions and expands your candidate pool. Each job post will be displayed with your organization's logo and a link to your website where candidates can find more information. To post a position with your organization, please email your posting to JobBoard@MVRPC.Org.
