The Miami Valley Regional Planning Commission Board of Directors met on June 5, 2025 at 9:00 a.m. at Dayton Realtors, 1515 S. Main Street, Dayton, OH 45409. All members and news media were notified of the meeting pursuant to the Sunshine Law.

I. INTRODUCTIONS

Chairperson Lommatzsch called the meeting to order at 9:02 a.m. Self-introductions were made and a quorum was confirmed for the Miami Valley Regional Planning Commission's Board of Directors meeting. The Pledge of Allegiance was recited.

II. APPROVAL OF MAY 1, 2025 MEETING MINUTES

Ms. Byrge made a motion to approve the minutes from the May 1, 2025 Board meeting. Mr. Bales seconded the motion. The motion passed unanimously.

III. PUBLIC COMMENT PERIOD ON ACTION ITEMS

None.

IV. RTPO (REGIONAL TRANSPORTATION PLANNING ORGRANIZATION) ACTION ITEMS

A. Resolution 25-10: Endorsing Revisions to the 2020 Federal-Aid Roadway Functional Classification in the Darke-Preble-Shelby Regional Transportation Planning Organization

Ms. Ramirez presented information regarding the 2020 Federal-Aid Roadway Functional Classification in the Darke-Preble-Shelby Regional Transportation Planning Organization. She explained that in October 2024, the 2020 update to the urbanized area transportation boundaries were finalized in Ohio. This was the first step in the process of updating the functional classification of roadways within the Darke- Preble- Shelby (DPS) RTPO area. MVRPC staff worked with ODOT and local jurisdictions in February and March to review and update the functional classification of roads. Lastly Ms. Ramirez stated that staff and the Regional Transportation Planning Organization Steering Committee recommend adoption of the revisions to the 2020 Federal Aid Roadway Functional Classification.

Mr. Barhorst made a motion to approve the revisions to the 2020 Federal-Aid Roadway Functional Classification in the Darke-Preble-Shelby RTPO. Ms. Bixler seconded the motion. The motion passed unanimously.

V. MPO (METROPOLITAN PLANNING ORGANIZATION) ACTION ITEMS

A. Resolution 25-15: Endorsing Revisions to the 2020 Federal Aid Roadway Functional Classification

Ms. Ramirez presented information regarding the 2020 Federal-Aid Roadway Functional Classification in the Dayton Urbanized Area Transportation Boundary. During January-February 2025, MVRPC staff worked with ODOT and local jurisdictions to review and update the functional classification of roads, a draft map was distributed to the April TAC meeting. Based on comments, one additional change was accepted and it is incorporated into the attached map. Lastly, Ms. Ramirez stated that staff and the Technical Advisory Committee recommend adoption of the revisions to the 2020 Federal Aid Roadway Functional Classification.

Mr. Joseph made a motion to approve the revisions to the 2020 Federal-Aid Roadway Functional Classification in the Dayton Urbanized Area Transportation Boundary. Mr. Stroud seconded the motion. The motion passed unanimously.

Ms. Ramirez acknowledged MVRPC Transportation Planners, Aaron Lee and Hannah Wilson on their work with the revisions to the 2020 Federal Aid Roadway Functional Classification.

B. Resolution 25-16: Recommended Adoption of Amendment #1 to MVRPC's SFY2026-2029 Transportation Improvement Program (TIP)

Mr. Arnold referred to the first amendment to the SFY 2026-2029 TIP and the numerous project changes made by MVRPC and ODOT. He reviewed key project details for all local jurisdiction projects and tables by county. He paused for any questions about the statewide line-item project tables or any projects. Afterwards, Mr. Arnold stated that staff and the Technical Advisory Committee recommend approving amendment #1 to MVRPC's SFY2026-2029 TIP.

Mr. Ruzinsky made a motion to approve the amendment to MVRPC's SFY 2026-2029 TIP. Mr. Moeller seconded the motion. The motion passed unanimously.

VI. RPC (REGIONAL PLANNING COMMISSION) ACTION ITEMS

A. Resolution 25-17: Proposed Amendment to the Areawide Water Quality Management Plan – Tri-Cities

Mr. Lindsay presented an amendment to the Areawide Water Quality Management Plan (AWQMP) proposing a boundary adjustment between the Tri-Cities and Bethel Facility Planning Areas (FPAs). This requested boundary change addresses the need for wastewater services in a location annexed from Bethel Township to the City of Huber Heights. He then explained that the amendment would shift sanitary sewer service responsibilities for this area from Miami County Sanitary Engineering (MCSE), to the Tri-Cities Regional Wastewater Authority, which confirmed capacity and willingness to serve. Mr. Lindsay shared detailed build-out projections, current infrastructure plans, and updates on related capital improvement projects, including interceptor sewer and treatment plant upgrades. Afterwards, Mr. Lindsay stated that staff recommended forwarding to the Board of Directors for adoption of the proposed amendment to the Areawide Water Quality Management Plan – Tri-Cities. Lastly, he opened the floor questions and discussed sanitary sewer overflows. The floor was then opened for comments made by Miami County and the City of Huber Heights.

Mr. Bales moved to approve the amendment to the Areawide Water Quality Management Plan. Mr. Jones seconded. The motion was adopted by majority vote of the Board of Directors, with 36 in favor and 1 opposed.

VII. INFORMATION ITEMS

A. Comprehensive Climate Action Plan for the Miami Valley

Mr. Lindsay provided an overview of the draft Comprehensive Climate Action Plan (CCAP) for the Miami Valley. He stated that the plan is a region-wide, multi-sector strategy covering the period from 2021 to 2050. Mr. Lindsay's presentation outlined the planning timeline, current emissions by sector and geography, and a range of technical solutions. Mr. Lindsay highlighted scenario planning approaches, including Business as Usual (BAU), Business as Planned (BAP), and Low Carbon Scenario (LCS) scenarios. He concluded with next steps including conducting a financial and co-benefits analysis, finalizing the draft plan, and opening the draft for public review. Mr. Lindsay then opened the floor for questions and addressed the communities that participate, electric vehicles, and improvements made to the grid electricity.

B. Public Education & Program Outreach for Air Quality Awareness & Rideshare

Ms. Dent provided an overview of MVRPC's public education and outreach initiatives for the Air Quality Awareness and Rideshare programs. She explained that both programs are

funded by the CMAQ program and aim to improve air quality and reduce traffic congestion. Outreach efforts include a strategic mix of advertising, media partnerships, community events, and customer support. She highlighted the promotion of sustainable commute options through GohioCommute.com, the activation of air quality alerts in partnership with RAPCA, and numerous community engagement events. Ms. Dent also shared recent developments, such as the launch of the new GohioCommute app, and expanded outreach through employer partnerships and Spanish translated program support with Latinos Unidos. Lastly, Ms. Dent stated that MVRPC continues to support member jurisdictions by providing event support, educational materials, and outreach collaboration opportunities.

VIII. EXECUTIVE DIRECTOR'S REPORT

A. Executive Director's Update

Mr. Martin reviewed the June ED's Update:

- MVRPC Hosts Annual Spring Dinner
- Convening to Develop the Region's Outdoor Economy; the Riverway Summit and the Miami Valley Cycling Summit
- MVRPC Convenes Local Experts on Youth Group Housing
- Grants and Funding Resources/Upcoming Meetings and Events

IX. ADJOURNMENT

Chairperson Lommatzsch adjourned the meeting at 10:27 a.m.							
Brian O. Martin, AICP	Robin I. Oda

MEMORANDUM

TO: Board of Directors

FROM: Brian O. Martin, AICP, Executive Director

DATE: August 7, 2025

SUBJECT: Approval Requested for the Downtown Dayton Partnership to join MVRPC as a Non-

Governmental Member

MVRPC Staff formally requests approval from the Board of Directors to add the Downtown Dayton Partnership (DDP) as a non-governmental member to the Miami Valley Regional Planning Commission. In accordance to the MVRPC Constitution and Bylaws section VI subsection 3, all non-governmental members require Board approval before their appointment.

Enclosed is a letter of request for your consideration.

10 N. Ludlow St., Suite 901, Dayton, OH 45402

937-224-1518 • DowntownDayton.org

If ☑ ♂ ※ in @DowntownDayton

July 29, 2025

Sara Lommatzsch, Chair Miami Valley Regional Planning Commission 6 North Main Street, Suite 400 Dayton, OH 45402

Dear Ms. Lommatzsch:

This letter serves as a formal request for the Downtown Dayton Partnership, Corp., (DDP) to join the Miami Valley Regional Planning Commission.

DDP is a nonprofit organization that energizes Dayton's inventive spirit to address downtown's challenges and capture transformative opportunities through commerce, community, and culture. DDP is primarily funded by the Downtown Dayton Special Improvement District (SID). The SID contracts with DDP to offer services in five key areas: Strategic Planning and Advocacy, Clean and Safe Services, Street Vibrancy & Creative Placemaking, Marketing & Communication, and Economic Development. Downtown businesses also support DDP by choosing to join as members.

DDP and MVRPC have collaborated on the Dayton Region Economic Development Strategy and the Miami Valley Arts and Culture Regional Profile. We look forward to building on that work together as DDP facilitates the development of a new Greater Downtown Dayton Plan, a long-term, strategic blueprint to create a more vibrant and thriving center city. We would value the forum for regional collaboration, data and planning resources, and influence over regional policy and strategy that MVRPC membership provides.

If approved, I will serve as DDP's board designate, with Kristina Scott, VP for Strategy, as my alternate.

Thank you for your consideration.

Best,

Katie Meyer President & CEO Downtown Dayton Partnership

6 North Main Street, Suite 400 Dayton, Ohio 45402

MEMORANDUM

TO: Institute Steering Committee, Board of Directors

FROM: Brian O. Martin, AICP, Executive Director

DATE: July 25, 2025

SUBJECT: July 2025 Miami Valley Regional Livability and Age-Friendly Communities Grants

In 2025, MVRPC and The Dayton Foundation has encouraged new communities to apply for funding to join the Miami Valley Regional Livability and Age-Friendly Communities Initiative and engage the first year community needs assessment/survey or for existing communities to apply for funding to implement their Age-Friendly Action Plans. Communities have the option of the three grant proposal deadlines, which align with the ISC meetings for review before board adoption. This memorandum addresses the proposals for the second deadline of July 1, 2025

The proposals received, which are summarized below, address four separate Age-Friendly Domain: Transportation, Respect & Social Inclusion, Civic Participation & Employment, and, Social Participation. These are Phase 2 grants to help communities develop and implement Age-Friendly Action plans. With a rolling deadline in 2025, it is anticipated that additional communities will submit in October, which is factored in to the selection process. Currently, the Miami Valley Region has the largest Age-Friendly Network of communities in Ohio and across the country, due to the support from The Dayton Foundation and the Del Mar Healthcare Fund.

City of Brookville

Age-Friendly Domains: Transportation; Social Participation

The City of Brookville is striving to make their community one that is inclusive, for residents of all ages. The proposal is to partner with the local grocery store to have volunteers shop for and deliver groceries to older residents that are house-bound. The City has committed volunteers willing to help. The request is to purchase a reasonably priced used vehicle to use as transportation so volunteers do not have to use their own vehicles and gas. The requested amount will fund the purchase, insurance, maintenance and fuel.

In addition to being used for grocery shopping and delivery, the vehicle will be offered as transportation for those unable to drive to the Age Friendly "lunch and learn" program and other fellowship programs provided at the senior center.

Total Amount Requested: \$15,000

Total Project Budget: \$30,000

Amount Awarded: \$15,000

Yellow Springs Senior Citizens, Inc.

Age-Friendly Domains: Transportation; Social Participation; Civic Participation & Employment; Respect & Social Inclusion

With financial assistance from Greene County, a 12-passenger van was purchased for transportation to group outings and for a circulator shuttle within the Village. In this initial trial phase, routes are provided to and from free meal sites in town, as well as a prescribed route on Mondays and Wednesdays. A survey is being conducted for collecting feedback on the service asking how the it can better serve the community.

The request is for a \$10,500 Del Mar grant to cover the expense of wrapping the van with a design from a community-wide art competition. The colorful "wrap" will make the van stand out from other white vans. The grant will also provide the funds to offset the cost to pay a driver and a ride assistant during the 90-day trial period. The ride assistant has been selected and is a current YSSC volunteer who is developmentally delayed. We hope that her work will serve as a model for other agencies to hire non-traditional employees. The trial period will provide data to determine the sustainability of the service and provide information to support a request for future Village and Township budget contributions.

Total Amount Requested: \$10,500

Total Project Budget: \$84,629

Amount Awarded: \$10,500

City of Kettering

Age-Friendly Domains: Social Participation; Respect & Social Inclusion

The City of Kettering proposes to establish an Adaptive Tricycle Therapeutic Ride Program, offering free biking experiences for individuals unable to ride traditional bicycles. Volunteer peddlers, "Pilots", power a 2-seater, OPair, electric-assist tricycle. The program will foster inclusive, joyful experiences that facilitate connection, nature appreciation and physical activity across various locations including parks, partner sites, schools, senior centers and nursing homes. The program promotes inclusivity for people with physical or cognitive limitations. In addition, it engages volunteers of different ages as "Pilots".

The program will be administered through the Parks and Recreation Department, leveraging community partnerships, volunteer recruitment and dedicated resources. The program exemplifies Kettering's commitment to fostering an inclusive and age-friendly community. This bicycle program will provide a safe, inclusive and enjoyable experience tailored specifically for older adults and others with limited mobility, helping them to stay active, engaged, and connected with their community.

Total Amount Requested: \$16,000

Total Project Budget: \$16,245

Amount Awarded: \$16,000

City of Huber Heights

Age-Friendly Domain: Transportation

The City of Huber Heights proposes the installation of RTA bus stop shelters and trash receptacles at high-traffic bus stop locations throughout the community. This initial project aims to improve the overall transit experience for riders on Brandt Pike Rd, outside the Village Park Apartments (mostly occupied by older and handicapped adults), by providing protection from the elements. By enhancing key transit nodes with shelters, the City seeks to support public transportation use, increase accessibility, and promote cleaner, safer public spaces. Site selection will prioritize locations with the highest ridership and community visibility.

This project supports the city's age-friendly initiative by enhancing accessibility and comfort for older adults and individuals with mobility challenges. Shelters offer seating and protection, making public transportation more viable for seniors who may rely on RTA services for medical appointments, grocery shopping, and social activities. Clean, safe, and accessible bus stops help promote independence and mobility for residents of all ages. We are committed to collaborating with eligible MVRPC members and regional partners to enhance transit access and infrastructure across our community. Through the RTA Community Grant Program's 80/20 cost-sharing model, we plan to partner with RTA to install bus shelters and other transit amenities at high-traffic locations.

Total Amount Requested: \$20,000

Total Project Budget: \$46,500

Amount Awarded: \$20,000

Washington Township

Age-Friendly Domain: Social Participation

Washington Township is requesting help to fund a multi-passenger cart for assisting in patron mobility at large public events. It will be used at events such as Cruise-in, Ice Cream Social and Woodland Lights. The vehicle will also be put to use at other community events, such as the jointly sponsored Adaptive Action Day with the Park District.

Adding this vehicle will bring parity between the Township and the City of Centerville, as both focus on guaranteeing a more accessible community regardless of borders. This is a first step as both member juridictions propose to combine their Age-Friendly efforts into one plan. Our communities are intertwined in such a way that two separate groups working on Age-Friendly is less effective than a united partnership.

Total Amount Requested: \$10,000

Total Project Budget: \$16,870

Amount Awarded: \$10,000

6 North Main Street, Suite 400 Dayton, Ohio 45402

t: 937.223.6323 f: 937.223.9750 TTY/TDD: 800.750.0750

RESOLUTION 25-21

RESOLUTION APROVING THE RECOMMENDATION TO THE DAYTON FOUNDATION TO FUND THE 2025 LIVABLE, AGE-FRIENDLY COMMUNITIES GRANT

WHEREAS, with generous support from the Del Mar Health-Dayton Fund at The Dayton Foundation, the MVRPC Institute for Livable & Equitable Communities announced a second round of funding for MVRPC member communities in 2025 to continue to advance livable and age-friendly communities throughout the Miami Valley; and.

WHEREAS, a livable and age-friendly community is one that is safe and secure, has affordable and appropriate housing and transportation options, and has supportive community features and services; and,

WHEREAS, age-friendly communities ensure that residents have the ability to thrive at all stages of life, are able to age-in-place and age-in-community, and foster engagement in a community's civic, economic, and social wellbeing; and

WHEREAS, grants available to MVRPC member communities range from \$5,000 - \$20,000 to support Livable & Age-Friendly Communities improvements; and,

WHEREAS, through the support of the Del Mar Encore Fellowship, MVRPC provides technical assistance to MVRPC member communities that are interested in pursuing Age Friendly grants; and,

WHEREAS, the MVRPC Institute Steering Committee voted during their meeting on Friday, July 25, 2025 to recommend the second round of 2025 Livable, Age-Friendly Communities Grants be awarded to the MVRPC member communities,

NOW THEREFORE BE IT RESOLVED, that the Board of Directors of the Miami Valley Regional Planning Commission hereby concurs with the Institute Steering Committee recommendations to award the second round of 2025 Livable, Age-Friendly Communities Grant as shown in the attached.

BY ACTION OF THE Miami Valley Regional Planning Commission's Board of Directors.

Brian O. Martin, AICP	Sara Lommatzsch, Chairperson
Executive Director	Board of Directors of the
	Miami Valley Regional Planning Commission
Date:	, 3

MEMORANDUM

To: Board of Directors and Technical Advisory Committee

MVRPC Staff From:

Date: July 18, 2025

Final Draft Community-First Energy Plan (CCAP) Subject:

The final draft version of the Community-First Energy Plan: A Comprehensive Climate Action Plan for the Miami Valley is ready for review and approval ahead of its submission to US EPA. This memo provides an overview of the contents of the plan, and a review of the recently-completed public comment period. Downloads of the plan are available from the MVRPC website.

BACKGROUND

The Community-First Energy Plan is the second of three required deliverables under the Climate Pollution Reduction Planning Grant (CPRG) received by MVRPC in summer 2023. The CPRG program covers the Dayton-Kettering MSA - that is Greene, Miami and Montgomery Counties. The required elements of a CCAP include a greenhouse gas inventory projection to 2050, regional and sector pollution reduction targets, quantified climate pollution reduction measures, an analysis of benefits from the recommended measures, and a workforce development analysis. The CCAP is due to US EPA no later than Monday, December 1, 2025.

The plan is divided into two parts. The first part [view Part 1] is the narrative description of the plan with a broad overview of the existing conditions and the 33 measures recommended for reducing climate pollution over the next 25 years. The second part [view Part 2] is a technical addendum, providing detailed, data-driven support for the recommendations, benefits analyses, workforce implications and the spatial modeling. Together these parts satisfy all of the content requirements of a Comprehensive Climate Action Plan (CCAP) under the grant.

Since adoption of the PCAP in March of 2024, MVRPC has continued working with our consultants and partner organizations and jurisdictions to develop this robust plan. A detailed energy and economic model have been developed for the metro area counties that spatially assign emissions based on parcel types and information provided by electric, natural gas, water and wastewater utilities, and solid waste districts.

PUBLIC PARTICIPATION

MVRPC released the draft CCAP for a thirty-day public comment period on June 9, 2025. All elements of MVRPC Public Participation Policy were adhered to for this process:

- Public notice was published in the Dayton Daily News.
- All materials available for review and comment were available for download from the MVRPC

- website, or to review in hard copy at the MVRPC offices.
- Online and hard copy comment forms were made available. Comments could also be directly emailed to Matt Lindsay, MVRPC's Manager of Environmental Planning.
- An extensive social media effort was undertaken to raise awareness of the availability of the Community-First Energy Plan for review.
- A virtual public meeting was held on Wednesday, June 25, 2025 from 5:00 p.m. to 6:00 p.m. At its peak, attendance at the public meeting was 31 persons.
- Comments on the draft CCAP were accepted through Tuesday, July 8, 2025. As of the end of the comment period 3 comments had been received, plus verbal comments at the public meeting.
- A complete Public Participation Summary Report will be created for the process.

Comments received were all positive regarding the purpose and content of *The Community-First Energy Plan*. The comments received and the responses are attached to this memo.

The final draft of *The Community-First Energy Plan* presented now has been updated to reflect the public comments received, from staff review, consultant team review and preliminary comments from US EPA. Staff recommends the Technical Advisory Committee and Board of Directors approve the final draft of the CCAP for submission to US EPA.

The Community -First Energy Plan

A Comprehensive Climate Action Plan for the Miami Valley

June 2025

Sustainability Solutions Group

Agenda	Presentation of	f the Plan	01
	Public Comme	nt period	02
	Questions and	Comments	03

The Community-First Energy Plan presents a bold path for the Miami Valley's future

The Miami Valley has always risen to meet big challenges...

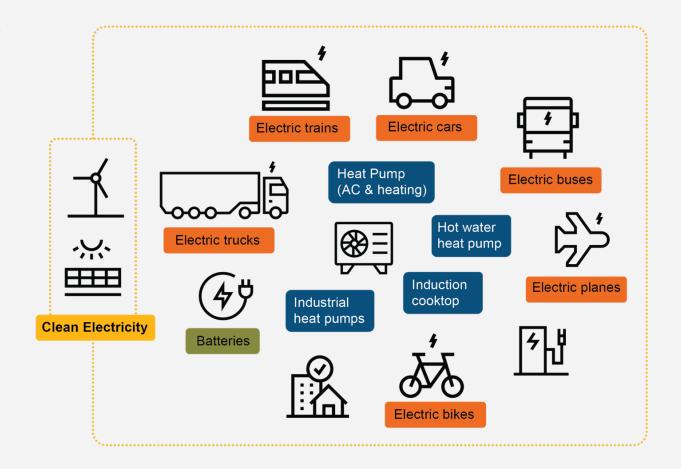

Increased natural disasters and extreme weather fueled by climate pollution are threatening our homes, health, and the places we love in the Miami Valley and beyond

Low pollution technologies are...

Clean Electricity powers the energy system

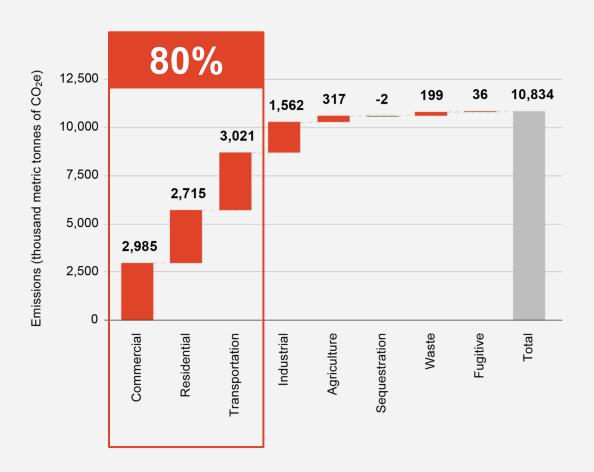

With plenty of solar reserves

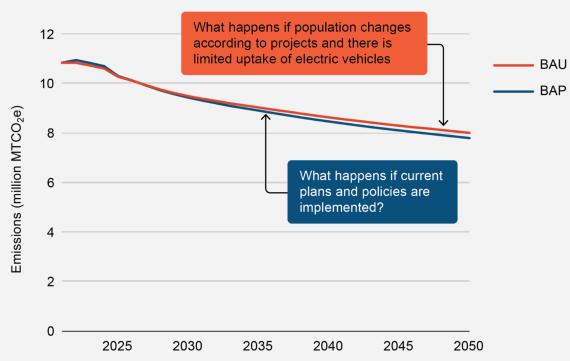

So what's the challenge? The Miami Valley starting point

Our current climate pollution results from how we access and use energy across the region

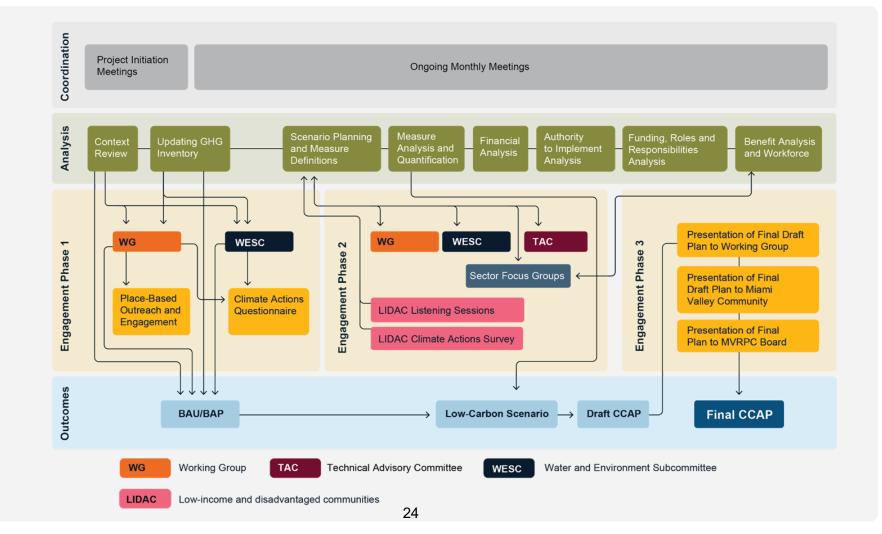

And current plans and policies have a relatively small impact on climate pollution reduction

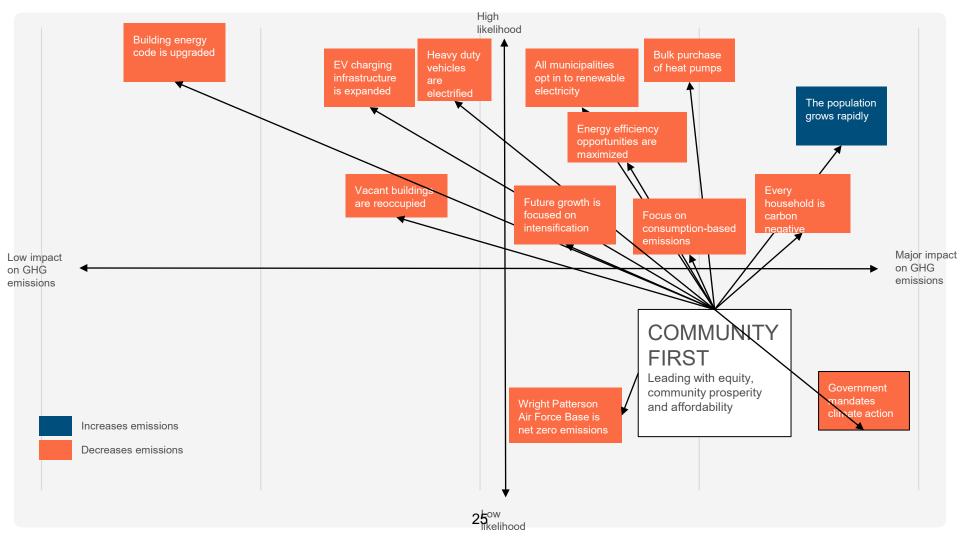

Emissions (million MTCO₂e)

We have solutions. And a clear path forward.

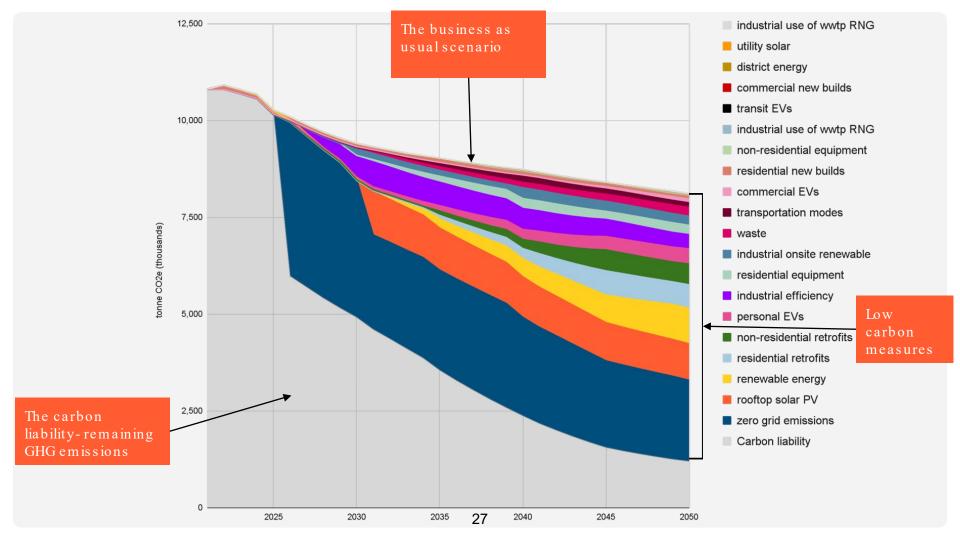

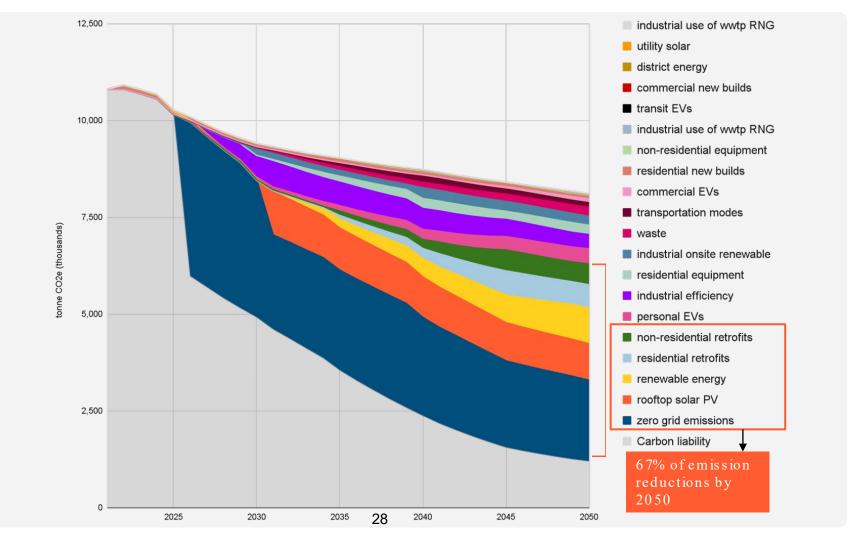

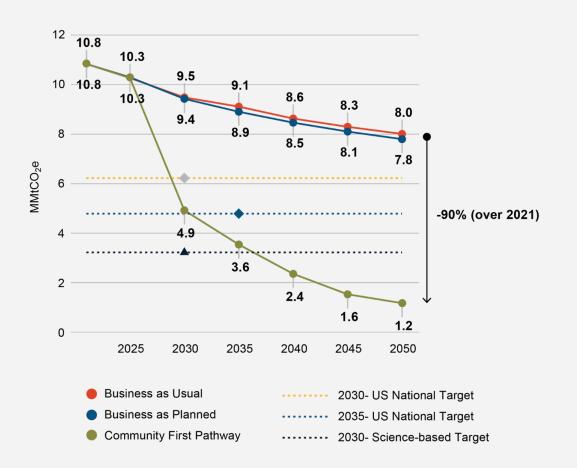

Miami Valley's Pathway and Vision

It is a pathway that envisions tapping into vast renewable energy resources in our region (solar, wind, geothermal) to build local energy resilience, lower energy expenditures, keep financial resources in our region, reduce air pollution, and improve health. It is a pathway that calls upon individuals, businesses, and communities to invest in ourselves, improving the comfort and energy efficiency of our homes, commercial businesses, industries, and vehicles. It is a pathway that encourages communities to develop differently so that walking, biking, and transit are accessible, connected, safe, and convenient modes for more trips.

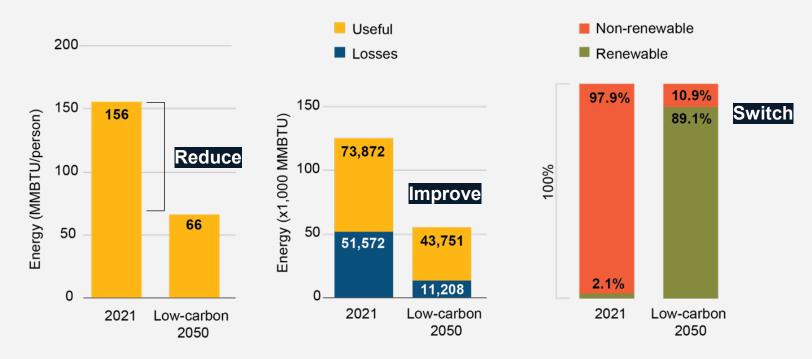

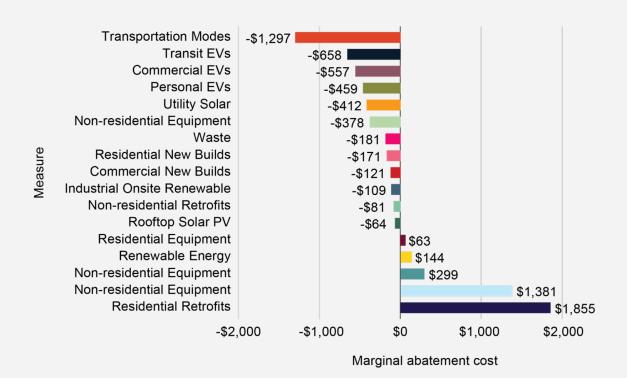

Align the region with national commitments

This pathway prepares a future energy system that is much more efficient and powered by renewable energy

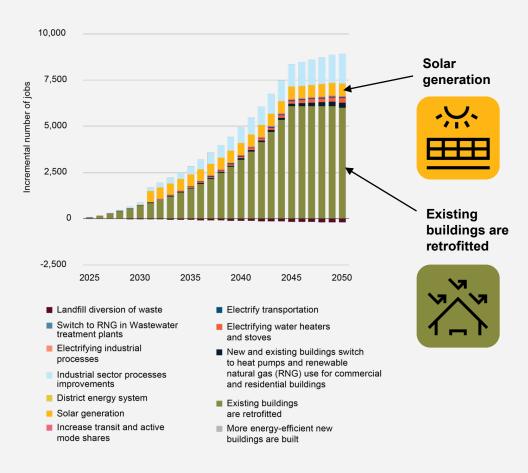

Most of these actions are net benefits

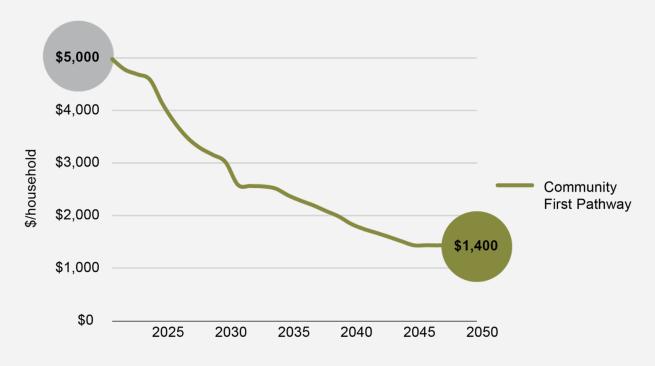

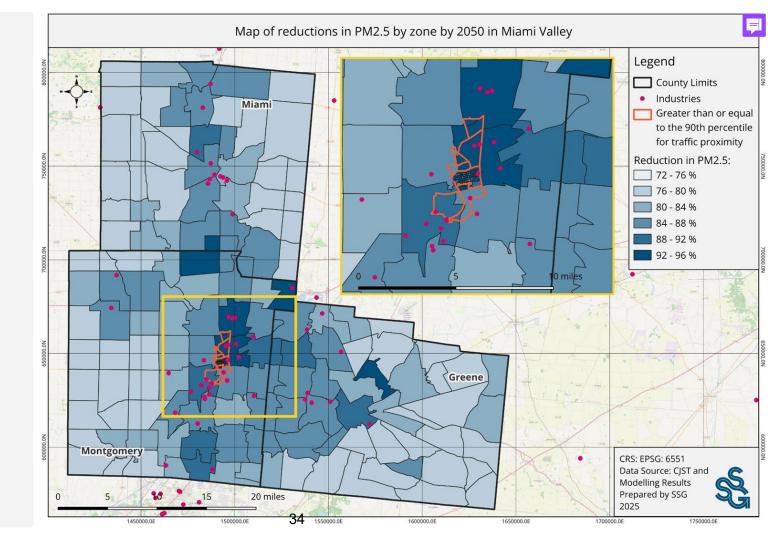

The plan creates more than 110,000 new person years of employment between 2025-2050

Reduces energy burden

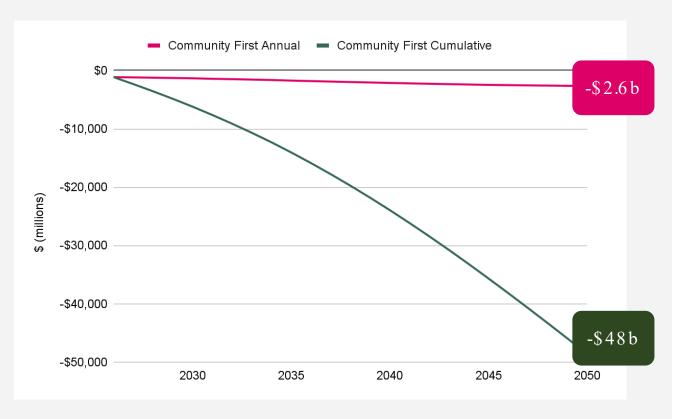

And reduce local air pollution

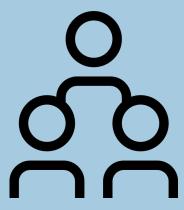

Avoided damages from climate change (Social Cost of Carbon)

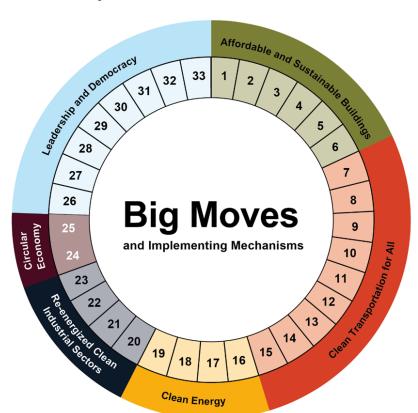

Everyone has a role.

Comprehensive Climate Action Plan Comment:

Certainly! When discussing a Quality of Life Index as it pertains to clean air and green energy performance, especially in the context of any size building, you can tie together various indicators that reflect the effectiveness of energy efficiency initiatives and their positive impact on the community. Here's a detailed breakdown of indicators and their associated savings and benefits:

Quality of Life Index Indicators

1. Clean Air Quality

Indicator: Monitoring air pollution levels, including particulate matter

(PM2.5), nitrogen oxides (NOx), sulfur dioxide (SO2), and other pollutants.

- Impact: Improved air quality results in better health outcomes for communities, such as reduced respiratory illnesses and lower healthcare costs
- Savings: Investments in energy-efficient systems reduce emissions that contribute to poor air quality, yielding long-term health savings and productivity gains.

2. Green Energy Performance

- Indicator: Measuring the percentage of energy consumed from renewable sources (solar, wind, geothermal, etc.) vs. fossil fuels.
- Impact: Increased use of green energy contributes to energy independence

and minimizes environmental degradation.

- Savings: Buildings that utilize green energy sources can significantly lower their energy costs, with savings that accumulate over the lifetime of the building. For example, solar panel installations can lead to substantial savings on energy bills and potential rebates or tax credits.

3. Energy Efficiency Ratings

- Indicator: Energy performance scores from systems like ENERGY STAR or LEED certifications.
- Impact: Higher ratings denote better energy performance and sustainability practices, enhancing the property's market value and appeal.
- Savings: Energy-efficient buildings can save between 20-30% on energy costs compared to non-certified buildings, translating into significant savings over the lifetime of the building.

4. Lifetime Performance of Systems

- Indicator: Tracking the operational lifespan of major systems (HVAC, lighting, insulation) compared to industry averages.
- Impact: Higher-quality systems that are designed for longevity contribute to reduced waste and resource consumption over time.

- Savings: Investing in durable, high-performance systems reduces the frequency and costs associated with replacements and repairs, leading to long-term savings.

5. Community Health Metrics

- Indicator: Assessing hospitalization rates, incidence of chronic diseases linked to air quality, and other public health indicators.
- Impact: Improved air quality and reduced energy consumption correlate with better health outcomes, enhancing overall community well-being.
- Savings: Healthier communities result in decreased healthcare costs, increased worker productivity, and fewer days lost to illness.

6. Pedestrian and Cyclist Infrastructure

- Indicator: Measuring the availability of green spaces, bike lanes, and walkable areas in the vicinity of buildings.
- Impact: Enhancing pedestrian and cyclist infrastructure promotes active transportation and reduces reliance on fossil fuel-powered vehicles.
- Savings: Improvements in this area can lead to decreased transportation costs for residents, as well as financial savings from decreased vehicular emissions.

Benefits of Implementing Quality of Life Indicators

- Enhanced Property Value: Buildings with high energy performance and low environmental impact are more attractive to buyers and tenants, resulting in higher property values and rental rates.
- Attracting Investment: Demonstrating a commitment to clean air and green energy can attract socially conscious investors and grants, particularly in urban development projects.
- Community Engagement: Involvement in community programs that promote green energy and air quality can lead to stronger community ties and public support for future projects.
- Regulatory Compliance: Adopting measured performance indicators can help buildings stay ahead of regulations and standards for energy efficiency and air quality, thereby avoiding potential penalties.

Conclusion

Utilizing the Quality of Life Index indicators enables MFB.LLC to not only gauge the environmental and economic impacts associated with energy efficiency initiatives but also to enhance community well-being and drive sustainable development. By focusing on clean air, green energy performance, and the lifetime efficiency of systems, any size building can contribute to significant savings and a higher quality of life for its occupants and the surrounding community.

Next Steps

- Data Collection: Begin establishing a framework for collecting and analyzing these indicators for your portfolio of properties.
- Community Partnerships: Develop relationships with local health and environmental organizations to support data gathering and awareness campaigns.
- Promotion of Findings: Create reports or presentations highlighting the positive outcomes associated with improved quality of life metrics as a means to attract future clients or investors.

Let me know if you need further information on any specific indicator or if you want to dive deeper into any of the topics!

Subject: Comprehensive Climate Action Plan Comment Response

Date: Thursday, June 12, 2025 3:38:00 PM

Dear Mr. Moore:

Thank you for submitting your extensive comment on the draft of the Community-First Energy Plan. Your comments provided multiple examples of Quality of Life Indices related to air quality and green energy performance:

- 1. Ambient Air Quality this is already monitored at a regional scale by the Regional Air Pollution Control Agency (RAPCA) for the counties covered by the Community-First Energy Plan as well as other counties. You can access data on past air quality and real time air quality data from their web site: rapca.org.
- 2. Green Energy Performance: The mix of fuels used to generate electricity for our region is a significant factor in the modeling done for the GHG inventory and the geolocated inventory projections found in the Community-First Energy Plan. The source used for this report was RFC West Subregion from egRID. We would anticipate continuing to use this source for tracking progress over time toward a goal of increasing the renewable share of electricity production.
- 3. Energy Efficiency Ratings. Ratings services as you suggest serve as useful programs at the building or campus level to assess building performance. They have little utility at the regional scale for tracking reductions in climate pollution emissions. They can serve as engagement and encouragement strategies for the private sector.
- 4. Lifetime performance of Systems. Similar to number 3 above, this may be a useful metric at the building or campus level to assess building performance. They have little utility at the regional scale for tracking reductions in climate pollution emissions.
- 5. Community Health Metric. Public Health Districts in Greene, Miami and Montgomery Counties each track chronic disease rates at the county level, and analyze these data across numerous demographic factors. These are all reported in Community Health Improvement Plans issued by the districts.
- 6. Pedestrian and Cyclist Infrastructure. Transportation has been the core of MVRPC's work for decades and the region's commitment to active transportation is quite robust. Current efforts to encourage local Active Transportation Planning will hopefully lead to more walkable and bikeable communities. MVRPC maintains data on the extent of walking and biking infrastructure in the region.

Submitted values are:

Comprehensive Climate Action Plan Comment: Thank you to everyone involved in developing this plan. I'm encouraged by the consideration for benefit across neighborhoods, sectors, and generations. The benefits of this climate action plan are akin to compounding interest: some of it will be apparent right away, but years and decades later we will be extremely grateful we invested in these actions now.

Subject: Response to Comments at Virtual Public Meeting
Date: Friday, June 27, 2025 10:57:00 AM

Good morning Nadja:

I am following up on your comments at the virtual public meeting for the draft Community-First Energy Plan regarding the region's largest emitters of GHG. Using U.S. EPA's FLIGHT tool (Facility Level Information on GreenHouse gases Tool), the list below assembles the top ten emitters in our region. One limitation of the tool is the fact that it only includes facilities required to report emissions, meaning those that emit more than 25,000 metric tonnes of CO2e per year. So this is not a table of all emissions in our region.

Second, in order to get to at least ten facilities, we had to expand the search to other MVRPC-member counties (Darke, Preble and Shelby) that are not included in the scope of the draft Community-First Energy Plan. Facilities in those other counties are in the gray rows.

With those caveats, the table is below.

Facility Name	County	City	Sector	2023 Emissions (metric tonnes CO2e)
			Cement	
Fairborn Cement Company LLC	GRE	Fairborn	Production	478,200
			Ethanol	
THE ANDERSONS MARATHON HOLDINGS LLC	DAR	Greenville	Production	197,846
			Food	
CARGILL INCORPORATED	MOT	Dayton	Processing	163,393
U.S. AIR FORCE WRIGHT-PATTERSON AFB OH	GRE	WPAFB	Military	82,511
			Food	
CARGILL INC SOY PROCESSING PLANT	SHE	Sidney	Processing	63,971
			Electricity	
Greenville Electric Gen Station	DAR	Greenville	Generation	41,603
			Municipal	
PREBLE COUNTY SANITARY LANDFILL	PRE	Eaton	Landfill	39,135
HONDA DEVELOPMENT AND MANUFACTURING OF AMERICA	SHE	Anna	Manufacturing	36,549
			Natural Gas	
			Transmission/	
Glen Karn	DAR	Hollansburg	Compression	33,058
			Municipal	
STONY HOLLOW LANDFILL	MOT	Dayton	Landfill	29,484
			Other	
Primary Products Ingredients Americas, LLC	MOT	Dayton	Chemicals	27,870

The sources listed in Greene and Montgomery Counties (no facilities in Miami County were listed in the FLIGHT data) reported 781,458 metric tonnes of CO2e emissions in 2023. That would represent 7.2% of the calculated GHG emissions of 10,800,000 metric tonnes in 2021. That number includes emissions from WPAFB, which were not included in the regional inventory, and which are not likely applicable to reduction measures discussed in the draft.

Thank you for your participation.

RESOLUTION NUMBER 25-18 Adopting the Community-First Energy Plan for the Miami Valley as Part of the Climate Pollution Reduction Planning Grant

WHEREAS, the Miami Valley Regional Planning Commission applied for and received the Climate Pollution Reduction Planning Grant from US EPA to conduct such planning for the Dayton-Kettering MSA; and

WHEREAS, MVRPC serves as the lead planning organization for development of the Climate Pollution Reduction Planning grant deliverables; and

WHEREAS, numerous jurisdictions, including the cities of Dayton and Kettering, Montgomery, Greene and Miami Counties, and partner organizations such as RAPCA, Five Rivers MetroParks, and SOPEC participated in the planning process; and

WHEREAS, the Climate Pollution Reduction Planning grant requires submission of a Comprehensive Climate Action Plan (CCAP) listing targets, measures, and implementation strategies for greenhouse gas reduction no later than December 1, 2025; and

WHEREAS, MVRPC released a draft CCAP report for public review and comment on June 9, 2025, conducted an open public meeting on the draft on June 25, 2025, and received comments on the draft through July 8, 2025; and

WHEREAS, this final draft Community-First Energy Plan reflects comments from the public and member jurisdictions.

NOW, THEREFORE BE IT RESOLVED that the Commission approves the Community-First Energy Plan: A Comprehensive Climate Action Plan for the Miami Valley and its submission to US EPA by December 1, 2025.

BY ACTION OF THE Miami Valley Regional Planning Commission's Technical Advisory Committee.

MEMORANDUM

To: Technical Advisory Committee, Board of Directors

From: MVRPC Staff

Date: July 8, 2025

Subject: SFY2026-SFY2029 Transportation Improvement Program (TIP) Amendment #2

Over the last few months MVRPC and ODOT have made numerous modifications to the programming documents for various projects resulting in the need for an SFY2026-SFY2029 TIP amendment. The attached TIP Tables 4.1, 4.2, 4.3, 4.4 and 4.5 reflect the updated information for each specific project. Modifications to Statewide Line Item projects are shown on Table 4.6 and are provided for information only. A TIP terminology explanation chart of key abbreviations used in the highway/bikeway tables precedes Table 4.1. A resolution adopting the proposed TIP amendment is attached for your review and consideration. The MVRPC staff recommends your approval.

Attachments:

- (1) TIP Abbreviation Table
- (2) Amended MVRPC TIP tables: 4.1, 4.2, 4.3, 4.4 and 4.5
- (3) Statewide Line Item Project table 4.6 (For information only)
- (4) Resolution Adopting Amendments to the SFY2026-2029 TIP

EXPLANATION OF ABBREVIATIONS USED IN TABLES 4.1 - 4.8

Project I.D.

RESOLUTION 25-19 AMENDING THE SFY2026-SFY2029 TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, the Miami Valley Regional Planning Commission is designated as the Metropolitan Planning Organization (MPO) by the Governor acting through the Ohio Department of Transportation in cooperation with locally elected officials for Greene, Miami and Montgomery Counties including the jurisdictions of Carlisle, Franklin, Springboro and Franklin Township in Warren County; and

WHEREAS, the MVRPC's Board of Directors serves as the policy and decision making body through which local governments guide the MPO's transportation planning process for the Dayton Metropolitan Area; and

WHEREAS, all Federally funded transit and highway improvements within Greene, Miami and Montgomery County must be included in the region's Transportation Improvement Program (TIP) prior to the expenditure of Federal funds; and

WHEREAS, the SFY2026-SFY2029 Transportation Improvement Program was adopted on May 1, 2025; and

WHEREAS, MVRPC and ODOT have made numerous modifications to the programming documents for various projects resulting in the need for a SFY2026-SFY2029 TIP amendment; and

WHEREAS, the proposed amendment is consistent with the Region's long-range transportation plan; and

WHEREAS, this TIP amendment is consistent with the regional air quality emission analysis of the SFY2026-SFY2029 TIP; and

WHEREAS, the MVRPC Public Participation Policy for Transportation Planning process allows for minor TIP amendments such as this to occur without separate public involvement meetings; and

WHEREAS, this amendment will result in a TIP that is in reasonable fiscal constraint

NOW THEREFORE BE IT RESOLVED, that the MPO members of the Board of Directors of the Miami Valley Regional Planning Commission hereby adopt **Amendment #2** to the <u>SFY2026-SFY2029</u> <u>Transportation Improvement Program</u> as shown on the attached TIP Tables.

BY ACTION OF THE MPO members of the Miami Valley Regional Planning Commission's Board of Directors.

Brian O. Martin, AICP	Sara Lommatzsch, Chairperson
Executive Director	Board of Directors of the

To: Technical Advisory Committee and Board of Directors

From: MVRPC Staff

Date: July 17, 2025

Subject: Recommended Approval of MVRPC TRAC Projects for CY2025

Formed in 1997, by request of the Ohio Department of Transportation (ODOT), the Transportation Review Advisory Council (TRAC) is a permanent body of predominantly non-ODOT personnel, which administers the project ranking and selection process for all major new projects in Ohio. To learn more about the TRAC please visit their web site at: http://www.dot.state.oh.us/trac/Pages/Default.aspx.

Metropolitan Planning Organizations (MPOs) such as MVRPC have several responsibilities to fulfill for a project to be considered by the TRAC. The TRAC can only fund projects that are included or consistent with the MPO's Long Range Transportation Plan (LRTP). The TRAC also takes into consideration regional and local priorities by requesting MPOs to submit project priority lists. In addition, all projects need to be approved, reviewed, or commented on by the appropriate MPO.

In an effort to provide the TRAC a project priority list, the MVRPC Board adopted its *Policies and Procedures for Considering Major New Capacity Projects* (available at www.mvrpc.org) and MVRPC staff has completed its review of the three CY2025 TRAC projects submitted this year in accordance with the Policy. The projects we received are excellent projects and the entire Miami Valley strongly supports the completion of these projects. MVRPC staff is forwarding these projects to the MVRPC TAC and Board of Directors as priority projects for final approval prior to submittal to the TRAC.

Based upon the process summarized above, staff recommends the approval of the CY2025 MVRPC Recommended TRAC project list as shown in Exhibit 1.

Exhibit 1

MVRPC's Recommended TRAC Projects for CY2025					
	Project Status				
Miami I-75 10.59 - Addition of a third travel lane in both directions on Interstate 75 from the current 6-lane to 4-lane transition in Troy to the Shelby County Line. Widening includes mainline bridge and bridge deck replacements and center median concrete barrier throughout the corridor to accommodate the additional lanes. Interchanges within the corridor will be evaluated to determine if capacity and operational improvements are necessary as part of the widening. The current TRAC request is for \$20,000,000 Preliminary Engineering funds in SFY 2027/2029.	Priority				
Montgomery DIA Northeast Logistics - The project will improve surface transportation routes along the eastern and northern perimeter of the Dayton International Airport (DIA), and will provide a link between burgeoning logistics development around the airport and the interstate highway system through the I-75/Northwoods Boulevard interchange. The improved routes will include North Dixie Drive, Northwoods Boulevard, County Road 25A, and Lightner Road, and the project will construct 2.75 miles of shared use path. The current TRAC request is for \$17,600,000 Construction funds in SFY 2027.	Priority				
Montgomery Woodman Gateway Corridor - Woodman Drive has exceeded its useful life with stopgap repairs and localized upgrades along segments of the roadway. The intent of the project is to: reduce the frequencies of crashes, particularly into WPAFB's perimeter security fence (these incidents risk serious bodily injury and installation resilience); address the crumbling infrastructure; and accommodate multiple travel modes. This project will increase developable land and position existing parcels for redevelopment, business attraction, accessibility, and supports WPAFB & NMUSAF. The current TRAC request is for \$1,500,000 Detailed Design funds in SFY 2027.	Priority

RESOLUTION APPROVING THE MVRPC PRIORITIES FOR MAJOR NEW CAPACITY PROJECTS FOR CY2025

WHEREAS, the Miami Valley Regional Planning Commission is designated as the Metropolitan Planning Organization (MPO) by the Governor acting through the Ohio Department of Transportation in cooperation with locally elected officials for Greene, Miami and Montgomery Counties including the jurisdictions of Carlisle, Franklin, Springboro and Franklin Township in Warren County; and

WHEREAS, MVRPC's Board of Directors serves as the policy and decision making body through which local governments guide the MPO transportation planning and programming process; and

WHEREAS, the Ohio Department of Transportation (ODOT) has created the Transportation Review Advisory Council (TRAC) to develop and implement a decision making process to direct the major new capacity investment decisions of ODOT; and

WHEREAS, ODOT's TRAC Policies and Procedures encourage MPOs to evaluate all eligible projects submitted within their regions according to their priorities; and

WHEREAS, staff has evaluated the three MVRPC area CY2025 TRAC applications based upon the adopted policy.

NOW, **THEREFORE**, **BE IT RESOLVED**, that MVRPC's Board of Directors hereby adopts the CY2025 major new capacity project list as shown in Exhibit 1.

BY ACTION OF THE Miami Valley Regional Planning Commission's Board of Directors.

BroadbandOhio Community Accelerator

July 8, 2025

BroadbandOhio Community Accelerator Agenda

- Welcome and Introductions
- Broadband 101
- Progress and current initiatives that are expanding internet access across Ohio
- Federal Funding: Broadband, Equity, Access, and Deployment (BEAD) Deep Dive
- Q&A

BroadbandOhio

Ohio's Broadband Vision

Bring reliable, affordable, high-speed internet to every Ohioan, in their home and in their community.

Promote the creation of world- class broadband networks throughout the state, via the use of best-in-class technologies.

Enable participation in the modern economy.

Empower Ohioans through training and digital skills.

- Manager of Digital Equity and Inclusion: Anna Miller
- Grants Administrator: Grace Clucas

Broadband 101

Definitions

Last Mile

The physical infrastructure of a broadband network that serves as the last leg of connection to a home or business from an internet service provider (ISP).

Middle Mile

The physical infrastructure of a broadband network needed to enable internet connectivity; connects last mile (local) networks, like ISPs, to the greater internet.

Underserved

The IIJA defines "underserved" locations as one without broadband service offering speeds of 100/20 Mbps.

Unserved

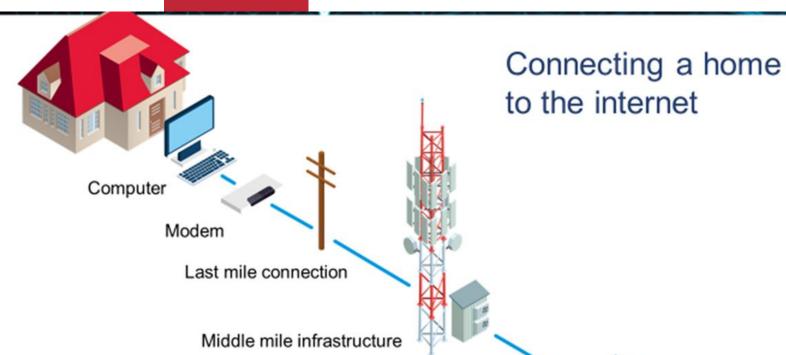

The IIJA defines an "unserved" location as one without any broadband service at all or with internet service offering speeds below 25/3 Mbps.

Department of the control of

Technologies

- <u>Fiber optic</u>: Converts electrical signals carrying data into light and sends the light through transparent glass fibers approximately the diameter of a human hair. Fiber transmits data at speeds typically hundreds of Mbps, almost at the speed of light.
- <u>Fixed Wireless:</u> Transmits and receives radio signals between the tower and a user's device. The tower, equipped with antennas and transceivers, acts as a bridge, converting digital data into radio waves for transmission and vice versa.
- <u>Copper</u>: Copper internet utilizes existing phone lines to transmit internet data by sending electrical signals through twisted pair copper wires.
- <u>Satellite</u>: Satellite broadband transmits signal from orbit to a user's installed receiver. It is another form of wireless internet and is useful for serving remote or sparsely populated areas. Download and upload speeds depend on several factors, including the provider and service package purchased, the consumer's line of sight to the orbiting satellite, and the weather.

Why don't I have internet access?

Yahoo email message Facebook

Ohio's progress on achieving universal internet access

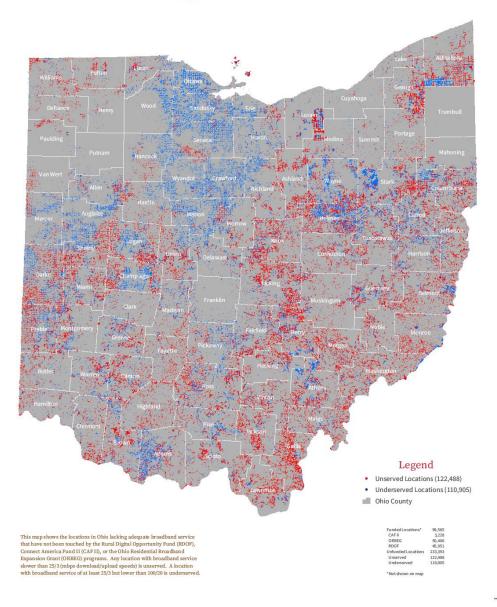

BroadbandOhio is working to identify households and businesses that still need broadband access.

BroadbandOhio has worked on multiple challenge processes to:

- Correct inaccurate coverage data
- Ensure funding reaches the communities most in need
- Identify unserved and underserved locations across Ohio

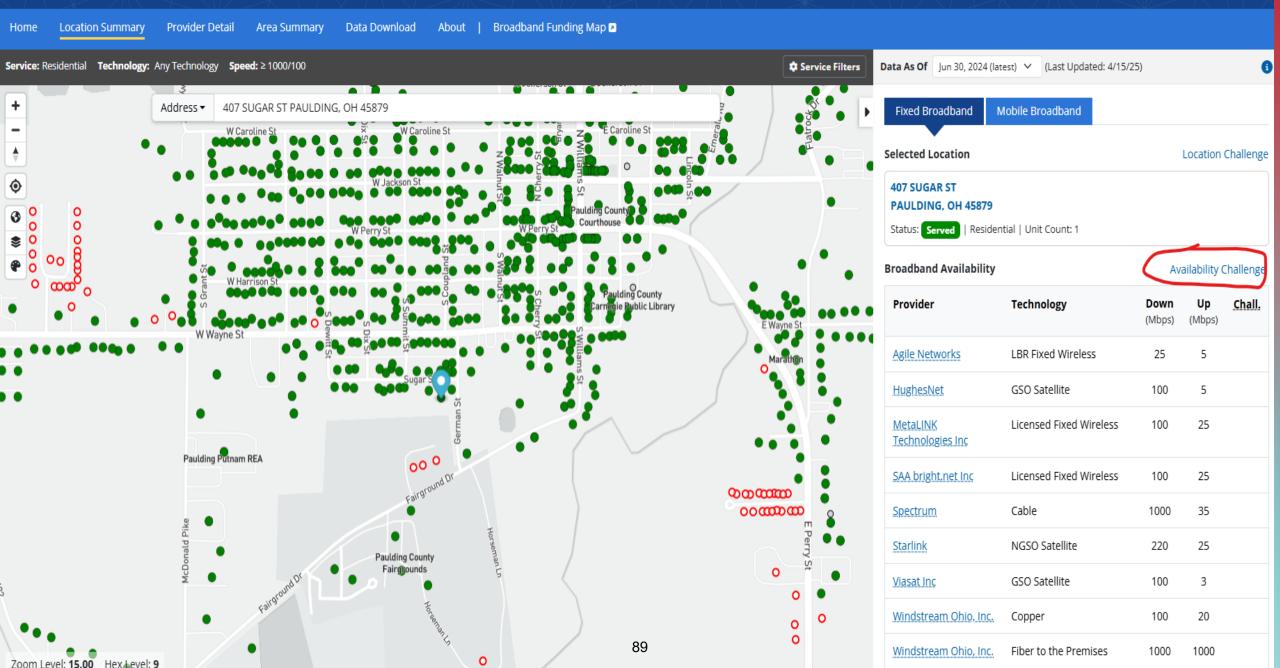

BroadbandOhio Unfunded Locations Unserved and Underserved Categories

Ohio Residential Broadband Expansion Grant (ORBEG) Program

- + Provides grants to internet service providers to build out internet infrastructure for eligible locations identified in the challenge process
- + \$232M awarded in 2021; \$94.5M awarded in 2024 to connect unserved/underserved addresses

Broadband Equity Access and Deployment (BEAD) Deep Dive

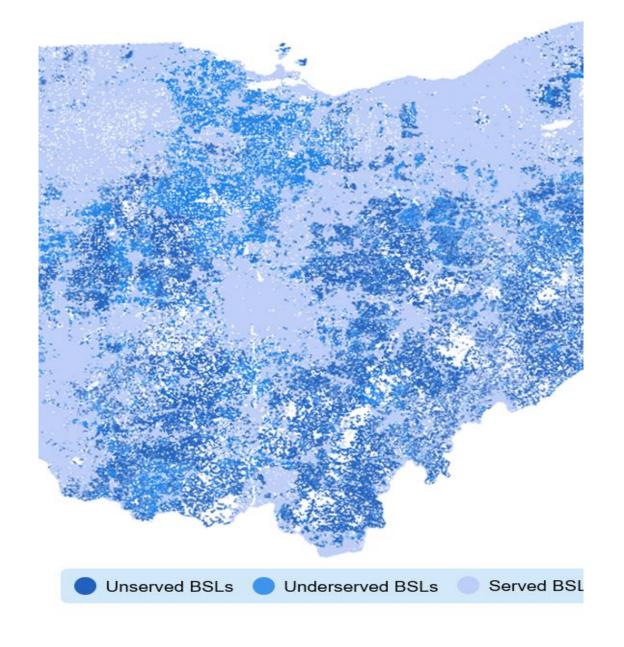

BEAD Program Facts

- Established through the Infrastructure Investment and Jobs Act (November 2021)
- Represents the largest federal investment to date in broadband infrastructure
- Aims to close the digital divide by 2030
- Includes a \$42.5 billion national investment
- Ohio awarded \$793 million in funding

Ohio BEAD Program Overview

- Total Allocation: \$793 million
- **Primary Focus**: Broadband infrastructure deployment to connect approximately 117,000 locations across the state.

Changes to the Original Program

Changes in the June 6th Policy Notice for Scoring:

- Prioritization of Priority Projects: State Broadband Offices must prioritize priority projects, unless they are deemed too expensive.
- Minimal BEAD Program Outlay: State Broadband Offices must select the combination of project proposals with the lowest overall cost to the Program.

Additional Changes

Secondary Criteria:

- Speed to Deployment: The subgrantee agreeing to complete service to a proposal are prior to 4 years after receiving funding from the State of Ohio.
- Speed of Network and Technical Capabilities: Weighted scoring based on speed, latency, and technical capabilities of the technologies proposed by the applicant.
- Preliminary/ Provisional Subgrantees: The State of Ohio may give additional weight to providers provisionally selected to service proposed BSLs in the Benefit of the Bargain Round.

Application Process Overview

- Single round of applications
- Prequalification and application round will be combined
- Shortened time window: July 21 through August 8
- No pre-set project areas
- Ability to match lowest bids
- Negotiated round will occur for any locations that have no application
- Engineering stamp will be due once initial winners are determined

Looking Back and Moving Forward!

- November 2021: The Investment in Infrastructure and Jobs Act signed into law and established the BEAD Program
- July 2022: BroadbandOhio/Department of Development received \$5 million in initial planning funds to establish a 5 Year Action Plan
- June 2023: Ohio's 5 Year Action Plan was submitted to the NTIA. The NTIA announced that Ohio would be allocated \$793 million once plans were approved.
- September 2023: Ohio submits Initial Proposal Volume 1 (plan for a challenge process)
- December 2023: Ohio submits Initial Proposal Volume 2 (plan to run the grantee selection process)
- April 2024: Initial Proposal Volume 1 approved by the NTIA
- October 2024: Initial Proposal Volume 2 approved by the NTIA
- Summer 2025: Ohio will run the BEAD Subgrantee Selection Process
- Thursday, August 21: Post Final Proposal for Public Comment
- Friday, September 4: Submit Final Proposal to NTIA

EXECUTIVE DIRECTOR'S UPDATE

From Brian O. Martin, AICP mvrpc.org

August 2025

MVRPC Welcomes New Members

We are pleased to welcome two new members the Village of West Manchester and the Sustainable Ohio Public Energy Council (SOPEC).

The Village of West Manchester, located in Preble County, joins MVRPC as the newest member of our Regional Transportation Planning Organization (RTPO).

SOPEC, a Regional Council of Governments, provides public energy services to member communities throughout Ohio. With a mission to deliver simple, valuable, and reliable public energy programs, SOPEC supports communities in reaching their sustainable energy goals.

We are excited to have both organizations join our growing membership and look forward to working together in support of regional collaboration and progress. To see the full list of members, visit our website https://www.mvrpc.org/our-members.

MVRPC Hosting Local Workshops to Advance Active Living

As part of the PLAN4Health – Miami Valley initiative, MVRPC has conducted a series of workshops aimed at advancing healthy communities and healthy people. Building on this effort, we are working with local partners to host workshops intended to advance active living within their communities.

MVRPC is pleased to partner with Miami County Public Health, Miami Township (Montgomery County), and Washington Township (Montgomery County) to host these interactive and engaging workshops over the next few months. If your community is interested in having a local workshop, please see the informational flyer at this link for additional information: https://tinyurl.com/y9ajhr4r

MVRPC's PLAN4Health – Miami Valley Initiative was launched in the Spring of 2021 to explore how planning can impact health outcomes. The PLAN4Health - Miami Valley Initiative is a multi-year effort with a focus on projects and programs intended to:

- Promote and advocate for "Health in All Plans and Policies"
- Convene and engage partners to improve conditions that are known to be key determinants of health
- Advance planning efforts aimed at creating conditions for healthy people and communities

For additional information regarding PLAN4Health - Miami Valley Initiative or to learn more about hosting an active living workshop in your community, contact Martin Kim, MVRPC's Director of Community and Regional Planning, at mkim@mvrpc.org.

Safe Streets for All (SS4A) Safety Action Plan Public Input

The Miami Valley Regional Planning Commission (MVRPC) is developing a Safe Streets for All (SS4A) Safety Action Plan and we want to hear from you. MVRPC invites you to provide input on pedestrian, bicyclist and motorist safety issues and to help identify improvements needed to reduce crashes throughout the Region.

Please plan to attend one of our project open houses or you can participate online by visiting: publicinput.com/SafeStreets1 starting August 5th.

Miami County

BroadbandOhio & Broadband Equity, Access, & Deployment (BEAD) Program

On Tuesday, July 8th, the Miami Valley Regional Planning Commission hosted BroadbandOhio; the state office tasked with bringing high-speed internet access to every Ohioan and building a best-in-class broadband network in Ohio. Their team presented on the Broadband Equity, Access, & Deployment (BEAD) Program; the largest federal investment in broadband infrastructure across the nation. A total allocation of \$793 million will be implemented throughout Ohio for broadband infrastructure deployment to connect approximately 117,000 locations throughout the state. Stakeholders from across the regional community joined the meeting to get better informed on how the program impacts their communities. The application

period for internet service providers opened in July, and subgrantee selections will be made and submitted to the National Telecommunications & Information Administration (NTIA) before the end of the summer. The Regional Equity Initiative remains committed to engaging with local partners to explore ways to ensure the Miami Valley and its residents benefit from this federal opportunity. We encourage our members to stay informed by accessing the slide deck provided by the BroadbandOhio team and the recording of the informational session, both found in the following link: https://www.mvrpc.org/events/bead-information-session.

MiamiValleyGovJobs.org MVRPC

MiamiValleyGovJobs.org is a one-stop website for candidates seeking positions with a public agency in the Miami Valley. This service is provided for MVRPC member organizations and partners at no cost. Posting your positions on MiamiValleyGovJobs.Org increases visibility of your positions and expands your candidate pool. Each job post will be displayed with your organization's logo and a link to your website where candidates can find more information.

To post a position with your organization, please email your posting to JobBoard@MVRPC.Org.

Grants & Funding Resources

On a monthly basis MVRPC is highlighting funding opportunities for member villages, cities, counties, and townships on our website. We include a description, contact information and program links. We have also listed other valuable resources for finding funding opportunities for our regional jurisdictions and organizations. Explore more on our Grant and Funding Opportunities page.

This month we are featuring information on:

- Ohio History Fund

 Deadline: September 9, 2025
- Announcement of Stand Down Grants
 Deadline: September 30, 2025

If you have any questions, please contact Kathryn Youra Polk at kyourapolk@mvrpc.org or 937.223.6323.
