via Zoom Conference/Video Call (https://us02web.zoom.us/j/83798452238)

February 22, 2022 2:30 PM

REI Subcommittee Members Present

Erica Fields, Dayton Human Relations Council Rap Hankins, City of Trotwood Julie Liss-Katz, Dayton Business Committee Tom Maultsby, United Way Adriane Miller, NCCJ Jeffrey Mims, City of Dayton Mike Parks, The Dayton Foundation Michael Roediger, Dayton Art Institute Mary Tyler, Community Leader

<u>Staff</u>

Serena Anderson Savannah Diamond Brian Martin Stacy Schweikhart

Other Guests Present

Tania Arseculeratne, The Dayton Foundation
Darius Beckham, City of Dayton
Peter Benkendorf, Dayton Collaboratory
Dr. Todd Bradley, Ohio Mayors Alliance
Georgeann Godsey, Harrison Township
Amy Piner, Montgomery County
Rich Schultze, Retired
Lisa Singh, Montgomery County Office of Reentry
Barbra Stonerock, The Dayton Foundation
Valerie Weber, Wright State University

The Miami Valley Regional Planning Commission hosted the Regional Equity Initiative Subcommittee call on February22, 2022 at 2:30 p.m. via Zoom Video Conference (https://us02web.zoom.us/j/83798452238).

I. WELCOME AND OPENING REMARKS

Chairperson Hankins called the meeting to order at 2:30 pm. Self-introductions were made.

II. DR. TODD BRADLEY, OHIO MAYORS ALLIANCE

Dr. Bradley provided data from the Ohio Mayors Alliance regarding police reform. He then shared examples from local police reforms from the City of Lima, Kettering, Cincinnati eliminating "No Knock Warrants". Dr. Bradley also reminded us that Central State University has a Diversity Institute and City of Dublin has a Diversity Equity and Inclusion unit in their police force.

Mayor Mims provided an update on the City of Dayton's police reforms. He noted that the city has added a Transparency Portal, plans to purchase body cameras, and has held Know Your Rights forums across the city. The city has sought to increase fairness to everyone regardless of their physical abilities. The city has formed a city appeals board and are emphasizing community policing.

III. HUMAN RIGHTS CITIES

Ms. Tyler shared her presentation on the Global Movement of Human Rights and its Impact on the Dayton Region. She explained a human rights city is a place where local government, civil society, the private sector, and other stakeholders are committed to making sure that the city applies international human rights standards/ laws in their policies, statements, and programs. It emphasizes economic, social, and cultural rights as they affect the lives of residents and their ability to enjoy civil and political human rights across racial, gender, ethnic, religious and other status. Ms. Tyler provided information from the first Dayton Region community meeting held on January 31, 2022 and said the objective of the meeting was to hold a community discussion about pursuing Human Rights City status for Dayton. Lastly, she announced the next meeting will be held on March 1, 2022 at the Downtown Dayton Library. Ms. Tyler introduced Mr. Peter Benkendorf from the Dayton Collaboratory. Mr. Benkendorf provided information on Re-Imagining America and the Well-Being Index.

IV. EQUITY LISTENING SESSIONS REVIEW

Ms. Tyler provided a snap shot of the Equity Listening Sessions community report prepared in December 2019. She stated the purpose was to gather input from Montgomery County residents to help guide the development of a shared community "equity" vision and create a forum for residents of diverse backgrounds to share their ideas and thoughts during a series of listening sessions. They held 16 sessions with 159 participants and from those sessions they observed the following:

- Approximately one third (1/3) related equity to a degree of ownership in a home or other assets
- Throughout the sessions attendees found it challenging to provide imagery that symbolizes equity; shared examples of places
- Safety is a high priority in the LGBTQ community
- A higher quality of life for older citizens includes health, housing and transportation
- Essential elements required for equity in education includes professional development training in equity for teachers and administrators, funding for quality programming and directed to schools/students based on need
- A comprehensive community, diverse representation, metrics, follow-up, and periodic updates

V. REGIONAL EQUITY INITIATIVE UPDATES

A. Equity Manager Recruitment Update

Mr. Martin provided information on the recruitment timeline and stated final applicant interviews will be scheduled during mid-March and the goal is to have a candidate selected by April.

B. Environmental Justice Academy Update

Ms. Diamond provided a brief update on the Environmental Justice Academy. She stated they just wrapped up Module 5 "Know Your Neighbors: Developing Partnerships and Leveraging Resources". The next Module will be held virtually on March 4thand 5th.

VI. Round Robin

The following topics were discussed during the round robin:

 REI Group outing held on February 14th to the <u>Our American Journey</u> Exhibit hosted by Michael Carter at Sinclair College.

- Upcoming Equity Events- Equity Events Calendar
- Community Outreach
- Discussion regarding the article: "Ohio cities declare racism a public health crisis, but does it mean anything"

V. NEXT STEPS AND CLOSING REMARKS

Mr. Hankins thanked everyone for the discussion and adjourned the meeting at 4:00 p.m.

MEMORANDUM

To: Institute Steering Committee

From: Leigh Sempeles, Del Mar Encore Fellow – The Dayton Foundation

Date: April 15, 2022

Subject: 2022 Livable, Age-Friendly Communities Grants

It is my pleasure to announce the MVRPC member organizations that have applied to receive a \$10,000 Livable, Age-Friendly Communities Grants from the DMH-Dayton Fund at The Dayton Foundation to become an AARP Livable, Age-Friendly Community. These funds will be used for community surveys, data analysis and technical assistance for communities to begin Phase 1 of the AARP Livable, Age-Friendly Communities multi-year planning effort. A summary of the applicants and the age-related demographics for their communities is as follows:

| Community | County | Population >60 | % Population >60 |
|-------------------|------------|----------------|------------------|
| Bellbrook | Greene | 1,663 | 22.90% |
| Brookville | Montgomery | 2,186 | 34.90% |
| Centerville | Montgomery | 8,896 | 37.40% |
| Harrison Township | Montgomery | 6,085 | 27.10% |
| Huber Heights | Montgomery | 8,858 | 21.90% |
| Kettering | Montgomery | 14,037 | 25.40% |
| Miami County | Miami | 27,094 | 25.00% |
| Troy | Miami | 5,377 | 20.50% |
| Xenia | Greene | 7,017 | 26.20% |

The following chart outlines the recommendation to fund all 8 applicants and provide Miami County with an additional \$10,000 to support inclusion of the City of Troy and all of the other villages, cities and townships within the county. Please note that the DMH-Dayton Fund at The Dayton Foundation budgeted \$100,000.00 for the 2022 Livable,

Age-Friendly Grants. Also, it should be noted that local contributions were not a mandatory requirement for the grant submissions; however, the chart below shows how the funding from the DMH-Dayton Fund leveraged additional investment, more than doubling the overall funds for the work.

| Community | Funding Recommendation | Local Contribution | Total Investment |
|-----------------------------------|---------------------------|-----------------------|------------------|
| Bellbrook | \$10,000.00 | \$2,000.00 | \$12,000.00 |
| Brookville | \$10,000.00 | \$10,000.00 | \$20,000.00 |
| Centerville | \$10,000.00 | \$11,000.00 | \$21,000.00 |
| Harrison Township | \$10,000.00 | \$25,000.00 | \$35,000.00 |
| Huber Heights | \$10,000.00 | - | \$10,000.00 |
| Kettering | \$10,000.00 | \$5,000.00 | \$15,000.00 |
| Miami County | \$20,000.00 | \$15,000.00 | \$35,000.00 |
| Troy (included with Miami County) | | | |
| Xenia | \$10,000.00 | \$35,000.00 | \$45,000.00 |
| TOTAL | \$90,000.00 | \$103,000.00 | \$193,000.00 |

Other highlights I would like to mention include the fact that we are in essence creating more than 10 new Livable, Age-Friendly Communities in the Miami Valley Region. Although we had 8 applicants, Miami County included the City of Troy with their application. Also, Washington Township is forgoing grant dollars; and Township officials have initiated the process to becoming a member of AARP's Network of Age-Friendly States and Communities, spurred by the opportunity presented with the grants.

In addition, leveraging Miami Valley Regional Planning Commission's footprint, we will have a multi-county, regional age-friendly effort with communities Greene, Miami and Montgomery Counties represented. On a national level, as of March 24, 2022, there are 651 members of the AARP Network of Age-Friendly States and Communities. In Ohio, there are 14 AARP members of the Network and the Ohio Coalition of Age-Friendly Communities in Ohio (CAFCO). With the addition of the Miami Valley communities receiving the 2022 Livable, Age-Friendly Grants from the DMH-Dayton Fund at The Dayton Foundation, the number of Age-Friendly communities in Ohio will increase by more than 50%.

Martin Kim, AICP, GISP

DISCLAIMER

This is a fictional story. The names, characters, businesses, events, and incidents are the products of the author's imagination. Any resemblance to actual persons or actual events are coincidental.

A forum and resource where the Board of Directors of local jurisdictions identifies priorities and develops public policy and collaborative strategies to improve quality of life throughout the Miami Valley Region

Major Areas of Concentration

- Transportation Planning
- Land Use Planning
- Environmental Planning
- Geographic Information System

Convene and engage partners to improve environments that are known to be key determinants of health

Promote and advocate "Health in All Plans and Policies"

Advance planning efforts aimed at creating conditions for healthy people and communities

Outcome and Output

- Not to develop a Regional Health Plan nor does it intend to duplicate planning efforts undertaken by local public health departments.
- Not a Health Equity initiative. However, this topic will be included as appropriate during each project/program.
- Anticipated outcomes and outputs include data, maps, infographics, information sharing applications, forums for knowledge and information sharing, networking opportunities, and best practices.

Economic Stability

The Economic Stability domain focuses on financial resources and factors. Five indicators are examined individually and together.

Click the button below to learn more about each indicator.

Explore Data Behind This Domain

Income

Median household income of an area

Poverty

Share of the population below the poverty threshold

Unemployment

Share of civilians aged 16 or older not currently employed

Housing Burden

Share of households that pay more than 30% of their income for housing costs

Housing Instability

Share of the population that lives in rental housing

Map Legend

Across the Region, there is a concentrated pattern of lower outcomes on the social and community context domain in Montgomery and Greene Counties. Better outcomes are observed in the Region's rural areas.

Click on the map to explore data for a given area.

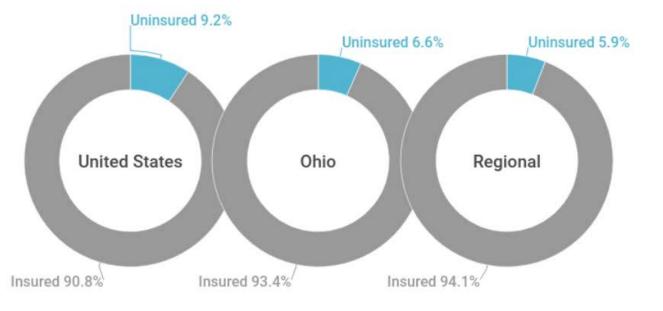

The following information provides some of the highlights from the indicator analyses.

Introduction Economic Education Social and Community Health Care Neighborhood Pulling It All Together Keep Learning References

The Miami Valley has high prevalence of health insurance coverage - only about **6**% of the population is uninsured. This is better than state and national rates. However, within the Region there are areas where **up to 40**% of the population lacks coverage.

Income

Median household income of an area

Poverty

Share of the population below the poverty threshold

Unemployment

Share of civilians aged 16 or older not currently employed

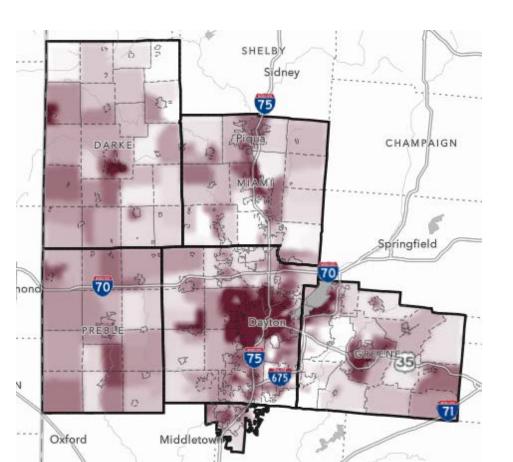

Housing Burden

Share of households that pay more than 30% of their income for housing costs

Housing Instability

Share of the population that lives in rental housing

Living in Cost Burden Housing

When households pay more than 30% of their income on housing costs they are considered to live in "cost burden housing".

Region-wide, about **25% of households** are considered to be cost burden when it comes to housing.

Living in cost burden housing is a distributed issue across the Region impacting households at all income levels. However, there are greater concentrations of cost burden in communities where incomes are low.

High School Education

Share of adults aged 25 or older that have completed high school

Preschool Enrollment

Share of 3 and 4 year olds enrolled in a preschool program

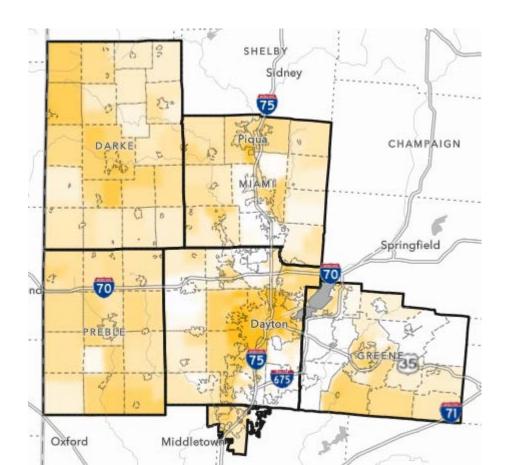

Higher Education

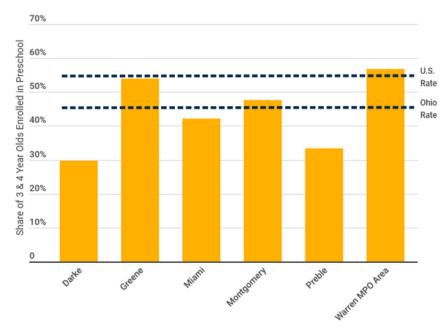

Share of adults 25 or older that have an associates degree or higher

Elementary School Quality

Performance of 4th grade students on state exams per school district

Regionally, about 47% of 3 and 4 year olds are enrolled in a preschool program. This is higher than Ohio's rate of 45% but lower than the national rate of 54%. Rural counties have the lower rates of enrollment.

Linguistic Isolation

Share of households where no member aged 14 or older speaks English fluently

Single Parent Households

Share of households with children under 18 and only one parent present

Civic Participation

Share of eligible voters who participated in the 2020 presidential election

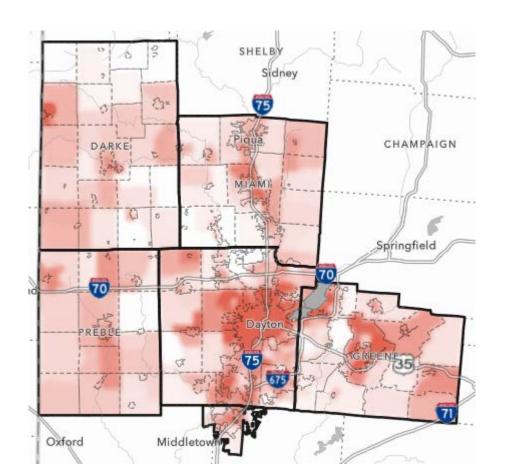

Social Cohesion

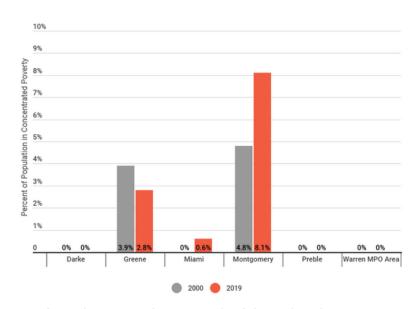

Income inequality within an area

Concentrated Poverty

Areas where the poverty rate is 40% or higher

Areas of concentrated poverty consist of places where the poverty rate is 40% or higher.

Across the Region, more than **48,000** people or **5%** of the population live in areas of concentrated poverty. Since 2000, more places have been classified as areas of concentrated poverty and the number of people living in areas of concentrated poverty has increased by **15,670**. Additionally, the **income inequality gap has increased** in every county in the Region since 2009.

Health Insurance

Share of the population without health insurance

Access to Primary Care

Share of adult population that has visited a doctor for a routine check-up in the last year

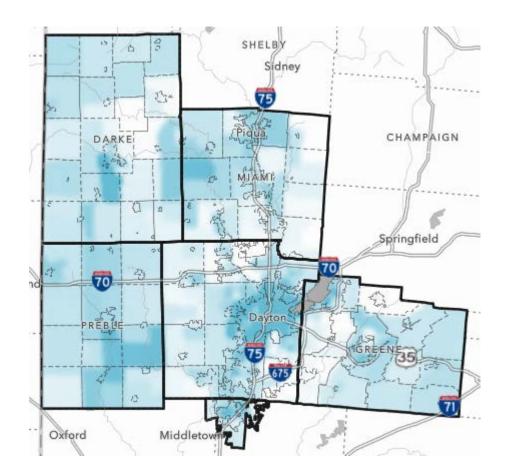

Accessibility to Health Care

Share of households without reliable access to transportation

Life Expectancy

Average life expectancy from birth for an area

Area with highest life expectancy

Regional average for life expectancy

Area with lowest life expectancy

In the Miami Valley, the average life expectancy from birth is 76 years and 5 months. Examining the data at the neighborhood level reveals that the difference by location is dramatic. There is a more than 25 year difference in the area with the highest life expectancy and the lowest life expectancy.

Access to Healthy Foods

Urban areas more than one mile and rural areas more than ten miles from the nearest supermarket, supercenter, or large grocery store

Vacant Housing

Share of housing units that are not occupied

Crime

Relative risk of major crimes occurring in an area

Housing Quality

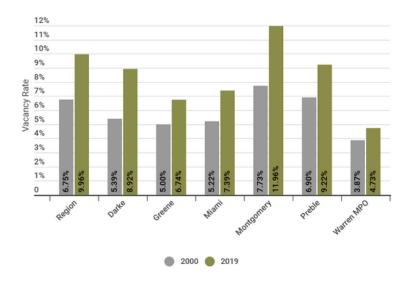

Predicted share of occupied housing units with large areas of lead paint deterioration

Harmful Condition Exposure

Exposure to harmful conditions associated with traffic proximity and volume in an area

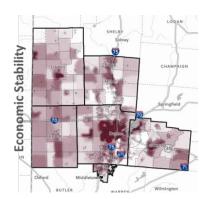

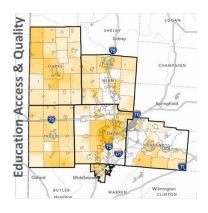

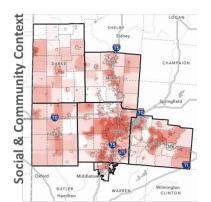

High vacancy rates are associated with decreased property values, higher crime rates, interruptions to social cohesion, and neighborhood stability. These conditions in the neighborhood contribute to and impact health and well-being of its residents directly and indirectly.

On average 1 in 10 houses in the Region is vacant. Reviewing the historic trends reveals that housing vacancy has been increasing in the Region. Housing vacancy rates in the Region have increased by 3.2% since 2000.

Health Environment Assessment

Regional Profiles

Going Places Initiative 1

A healthy community does not happen by accident. It requires a comprehensive approach covering all aspects of social, physical, and economic environments. Creating environments that promote healthy behaviors and improve health outcomes in our communities requires collaboration and partnerships between planning and health professionals.

MVRPC's PLAN4Health – Miami Valley Initiative, launched in spring of 2021, aims to explore how planning can impact health outcomes across the Region. It is a multi-year effort with a focus on projects and programs intended to:

- · Promote and advocate for "Health in All Plans and Policies."
- Convene and engage partners to improve conditions that are known to be key determinants of health.
- Advance planning efforts aimed at creating conditions for healthy people and communities.

PLAN4Health – Miami Valley builds on work that has been done at the <u>national</u> <u>level</u> through the <u>American Planning Association</u> and the <u>American Public Health</u> <u>Association</u>.

A set of concrete projects that are geared towards information sharing, capacity building, and generating collaborative solutions are slated for near-, mid-, and long-term implementation.

The <u>Health Environment Assessment</u> is the first project of the PLAN4Health - Miami Valley Initiative. Using the Social Determinants of Health (SDOH) model, the Health Environment Assessment examines an existing conditions baseline of health related social, behavioral, built, and planning aspects in the Miami Valley Region.

Miami Valley Regional Broadband and Digital Equity Forum hosted by MVRPC's Institute for Livable & Equitable Communities

About this event

Please <u>register</u> to join us on Tuesday, May 10th, from 8:00 – Noon, when MVRPC's Institute for Livable & Equitable Communities will host the Miami Valley Regional Broadband and Digital Equity Forum at Sinclair College. The work of the Institute is focused within and amongst <u>nine domains</u>, or elements of our community, to encourage cross-sector and community engaged efforts to enhance livability and equity throughout the region. The Miami Valley Regional Broadband and Digital Equity Forum is a free, inperson event to convene leaders and practitioners from the domains working toward progress on our broadband infrastructure and access challenges.

Broadband Ohio will present newly released county level maps which visualize gaps in broadband infrastructure according to the latest available data. They will also share the details, eligibility and timelines for the forthcoming state and federally funded programs to expand access. The event will also include panel presentations highlighting innovative partnerships, programs and projects here in the Miami Valley. The presentations will be followed by solutions-oriented conversations to encourage attendees to discuss specific challenges and opportunities in their communities and domains, with the hope that many new partnerships will emerge from the event.

Miami Valley Regional Broadband and Digital Equity Forum Presenters will include:

- Dr. Frieda Bennett, Former Del Mar Encore Fellow / St. Mary Development Corporation
- Shannon Cox, Montgomery County Educational Services Center
- Ted Griffith, JobsOhio
- Sarah Hackenbracht, Greater Dayton Area Hospital Association
- Eric Henry , Greene County
- Ellis Jacobs, Advocates for Basic Legal Equality
- Stephanie Keinath, Dayton Area Chamber of Commerce
- Dr. Morakinyo A.O. Kuti, Central State University
- Ellen Miller, Caresource Foundation
- Tom Roberts, Ohio Conference of Branches of the NAACP
- Commissioner Chris Shaw, City of Dayton and National League of Cities Transportation & Infrastructure Committee
- Patrick Smith, Broadband Ohio
- Peter Voderberg, Broadband Ohio
- Jay Weiskircher, Miami Valley Communications Council
- Leon Wilson, The Cleveland Foundation Digital Equity Coalition
