Public Participation Meeting to Review the Regional Water Quality Management Plan to Include Facility Planning Area for the Village of Wayne Lakes.

Monday, October 25th, 2021

Dayton, OH – With plans underway to construct sanitary sewers to serve the Village of Wayne Lakes, the Miami Valley Regional Planning Commission (MVRPC) is working to amend the regional Water Quality Management Plan to accurately reflect local decisions and plans. One key step is to map the Facility Planning Area for Wayne Lakes, the area for which the Village will have lead planning responsibility for wastewater collection and treatment.

A Public Input meeting will be held to allow the public an opportunity to 1) learn the purpose and functions of Facility Planning Areas, 2) review and comment on the proposed Facility Planning Area map for the Village of Wayne Lakes, and 3) suggest a Facility Planning Area map of their own. Informative posters and maps, as well as MVRPC staff members will be on hand to assist participants in navigating the information and submitting any comments.

The meeting will be held as follows:

Monday, November 15, 2021 – 6:30 p.m. to 8:00 p.m.

1052 Main Dr. Greenville, Ohio 45331

If you are unable to attend, information will also be available for public review on MVRPC's website at mvrpc.org/unsewered-communities@wayne and at the MVRPC offices, 10 North Ludlow St., Suite 700, Dayton, OH, 45402, during regular business hours (8:00 a.m. – 5:00 p.m., Monday through Friday) or at the Village of Wayne Lakes office, 1052 Main Dr., Greenville, Ohio 45331 during regular business hours (8:00 a.m. – 5:00 p.m., Monday through Friday). Written comments regarding the plan will be accepted at the above address, web address, or via email at mlindsay@mvrpc.org until November 23, 2021.

At all MVRPC public participation meetings, interpreters for hearing impaired individuals or bi-lingual interpreters are available upon request. Requests should be made at least one week prior to the meeting date. Contact MVRPC at (937) 223-6323 or 1-800-750-0750 TTY/TDD to request an interpreter.

Established in 1964, the Miami Valley Regional Planning Commission promotes collaboration among communities, stakeholders, and residents to advance regional priorities. MVRPC is a forum and resource where the Board of Directors identifies priorities and develops public policy and collaborative strategies to improve quality of life throughout the Miami Valley Region. MVRPC performs planning and research functions for our Region that ensure livable and equitable communities; clean air and water; robust roadway, transit, and active transportation options; and strategic community plans that chart the course for member communities and partners. As the designated Metropolitan Planning Organization (MPO), MVRPC is responsible for transportation planning in Greene, Miami and Montgomery Counties and parts of northern Warren County. MVRPC's areawide water quality planning designation encompasses five (5) counties: Darke, Preble plus the three MPO counties.

For additional information, contact Matt Lindsay, Manager of Environmental Planning, at (937) 223-6323 or via the email address listed above.

The Miami Valley is dotted with small communities with pockets of residences and businesses served by septic systems. In locations where these systems no longer provide adequate wastewater treatment, water surveys and samples collected by OEPA have documented the presence of E.coli bacteria, which is the principal organism used to detect the presence of fecal pollution (human, solid waste) in drainage ditches and tributaries to our creeks and rivers.

In some places, there may not be enough physical space to build septic systems to modern specifications. In other places, there may not be the resources to construct adequate community-scale treatment works, nor the projected future customer base to keep such treatment works viable. The purpose of the "Unsewered Communities Project" was to examine and report on the options for these communities where on-site treatment is failing to protect human health and the environment. The reports identify actionable solutions and lay the groundwork for future projects.

UNSEWERED COMMUNITIES PROJECT

The Miami Valley Regional Planning Commission (MVRPC) partnered with the Ohio Environmental Protection Agency (OEPA) and public health districts in the Miami Valley to help our communities with large concentrations of failing or underperforming home sewage treatment systems. Funding was provided to conduct feasibility studies for five of these high priority communities experiencing environmental and public health concerns due to failing or underperforming home sewage treatment systems. Those communities that chose to take part in the study are:

- [Village of Bowersville \(Greene County\)](#)
- [Glenwood Area \(Preble County\)](#)
- [Jackson Township \(Darke County\)](#)
- [Village of Ludlow Falls \(Miami County\)](#)
- [Village of Wayne Lakes \(Darke County\)](#)

What will the "Unsewered Communities Project" accomplish?

The "Unsewered Communities Project" evaluated the specific problems and needs of each participating community to develop customized wastewater treatment options in the form of a General Plan. The General Plan was developed through close involvement with community leaders to cultivate the best-suited solutions for each community. MVRPC has contracted with an engineering firm, IBI Group, to develop General Plans for these communities. IBI Group (formerly M+E/BI Group) has worked closely with numerous communities, guiding them through the rigors of developing a cost-effective plan and implementing the plan through construction and start-up.

Does development of a General Plan commit these communities to installing a public sewer system?

No. The plans do, however, provide potential alternatives, cost estimates, a funding plan and a schedule. This information will help the community decide whether a sewer system is in its best interest and whether to proceed further with engineering design and funding applications.

What was the schedule for the overall project?

Kick-off meetings with leaders and representatives each community started in October 2014 and were completed by December 2014. Fact-finding meetings were held with community leaders in order to develop the best planning options for each community through May 2015. Notes from all community meetings are available in each report appendix. Once alternatives and potential costs were developed, a public meeting was held in each community during the spring of 2015. The studies were completed for all participating communities by July 2015.

What will happen after the studies are completed?

Participating communities received completed studies that provide options for addressing wastewater treatment concerns. These documents may be used to support applications for loans or grants to fund implementation of the solutions selected by the communities. The choice of next steps will be up to each individual community.

For more information Contact, Matt Lindsay, Manager of Environmental Planning at MVRPC at (937) 531-6548 or mlindsay@mvrpc.org.

COMMUNITY PLANS

VILLAGE OF BOWERSVILLE

The Village of Bowersville is a community predominantly located on Ohio 72, 6 miles south of the Village of Jamestown and 11 miles northeast of Wilmington with approximately 155 homes. This area was listed as a concern by the Greene County Combined Health District, Greene County Soil and Water Conservation District, and the Ohio EPA. A public meeting was held Tuesday, June 23, 2015, WOW Church, 5802 E. Xenia St., Bowersville, Ohio 45307, 6:00 p.m. – 8:00 p.m.

The final study is available in 4 parts ([Part 1](#) | [Part 2](#) | [Part 3](#) | [Appendix](#)).

GLENWOOD AREA DRAFT SEWER STUDY

The Glenwood area is an unincorporated community located in Preble County between the Village of West Alexandria and the City of Eaton with approximately 200 Homes. MVRPC contracted with IBI Group/Burton Planning Services to develop a study to provide sewer collection and treatment alternatives with associated costs for each alternative. A public participation meeting was held on Tuesday May 12, 2015, at the American Legion James E. Ryan Post 322, 1477 Ohio 503, West Alexandria, Ohio 45381, 6:00 p.m. – 8:00 p.m.

The study is available to review as a four part download. ([Part 1](#) | [Part 2](#) | [Part 3](#) | [Appendix](#)).

JACKSON TWP. (DARKE COUTNY) DRAFT SEWER STUDY

The Miami Valley Regional Planning Commission contracted with IBI Group to complete a feasibility study for wastewater collection and treatment alternatives for the Jackson Township in Darke County. Jackson Township is located in the Northwest quadrant of Darke County. The unincorporated portion of the township just to the East and South of Union City is the area of interest. The area if interest has approximately 163 homes. A public participation meeting was held on Tuesday, June 16, 2015, at Mississinawa Valley Schools, 1469 Ohio 47, Union City, Ohio, 6:00

GREENVILLE POLICE BLOTTER

By Meladi Brewer
DailyAdvocate.com

Domestic

Oct. 16, 2:27 p.m.: Officers responded to a domestic violence complaint at the 500 block at East Thirteenth Street. Upon arrival, the officer made contact with the victim who advised her boyfriend, Corey Woodyard, had just assaulted her and destroyed her cellular phone at 100 block of Shawnee Street where they reside together and have children in common. The argument started verbal and turned physical when Woodyard took the victim's

phone and broke it. It was advised he then grabbed the victim and pulled her to the floor before dragging her through the house by her arms and feet. The victim was able to escape and go to the previous address before Woodyard showed up and took her vehicle and left. Officers went to the residences where both parties reside and made contact with Woodyard who advised an argument did break out and admitted to breaking her phone and taking her vehicle. Woodyard was

Long

arrested and transported to the Darke County Sheriff's Office where he was released with no bond.

Wanted Person

Oct. 19, 9:50 a.m.: Police were advised of a possible domestic violence situation occurring at the 500 block of East Fourth Street. Police were advised by the complainant that her friend is possibly being abused by her adult son, Justin Powell. The officer was shown images of past injuries caused by Powell. While at the

residence dispatch advised the officer Powell had an active warrant for failure to appear with an original charge of OVI. Powell was arrested and transported to the Darke County jail. Powell has a bond for \$1,025.

Oct. 17, 9:04 p.m.: Police were dispatched to the 600 block of Wagner Avenue in reference to a possible theft. Subsequently the call resulted in the arrest of a wanted subject. While officers were talking to two possible subjects about the theft at Rural King, dispatch advised Dakota Long, a suspect, had two active warrants. One warrant was out of Greenville

PD for FTA on an original charge of driving under suspension, and the second was out of Darke County for FTA on an original charge of DUI. Long was advised of the warrants and placed under arrest before being transported to Darke County Jail where he was incarcerated with a bond of \$575 from Greenville PD and a \$3,025 bond from Darke County.

Oct. 20, 4:35 p.m.: Officers observed a purple 2004 Jeep Grand Cherokee being operated north bound on Wagner Avenue near Rhoades Avenue. The officer observed the listed vehicle turn right from a

public roadway and fail to use a turn signal. A traffic stop was made on the listed vehicle and through investigation it was found the passenger, Carla Wintrow, had two active warrants through the Greenville Police Department. The warrants were failure to appear on a bond hearing on original charges, disorderly conduct and resisting arrest. Wintrow was arrested and transported to the Darke County Jail with a bond of \$225 for each warrant.

PUBLIC PARTICIPATION MEETING

Public Participation Meeting to Review the Proposed Regional Water Quality Management Plan Amendment to Include Facility Planning Area for the Village of Wayne Lakes.

With plans underway to construct sanitary sewers to serve the Village of Wayne Lakes, MVRPC is working to amend the regional Water Quality Management Plan to accurately reflect local decisions and plans.

A key step in this process is mapping the facilities planning area showing the area for which Wayne Lakes will have planning responsibility for wastewater collection and treatment.

This meeting will be held so that the public has an opportunity to review and provide feedback on the Plan. Informative posters and maps, as well as MVRPC staff members, will be on hand to assist participants in navigating the information and submitting any comments.

November 15, 2021 6:30 p.m. – 8:00 p.m.
1052 Main Dr., Greenville, Ohio 45331

If you are unable to attend, view documents and provide feedback at

mvrpc.org/unsewered-communities#wayne.

The deadline for submitting comments is November 23, 2021.

For additional information, contact Matt Lindsay, Manager of Environmental Planning at 937.223.6323 / TTY/TDD: 1.800.750.0750 or mlindsay@mvrpc.org.

Levies

From page 1A

due in 2022. Gettysburg is also asking for renewal of a 1.9-mill levy for the purpose of fire protection for 5 years, commencing in 2021, first due in 2022.

Voters will be asked to approve or disapprove a replacement levy for the Adams Township Fire District 1 for the purpose of fire and ambulance for a continuing period of time, commencing in 2021, first due in 2022.

New Weston is asking residents to renew a 2.75-mill levy for the purpose of current expenses. The levy is for 5 years, commencing in 2021, first due in 2022.

Those living within the Arcanum Joint Ambulance District will be tasked with voting for or against an additional 1.75-mill tax

for the benefit of Arcanum Joint Ambulance District for the purpose of providing ambulance medical service, or both for a continuing period of time, commencing in 2021, first due in 2022.

Palestine has a renewal levy on the ballot for the purpose of current operating expenses at a rate 2.3-mills for 5 years, commencing in 2022, first due in 2023.

An additional 1.5-mill levy will be on the ballots of Washington Township voters. The levy is for the purpose of fire protection, ambulance, or emergency medical services for a continuing period of time, commencing in 2021, first due in 2022.

The Village of Hollansburg is seeking renewal of a 6-mill tax for the purpose of current operating expenses for 5 years, com-

mencing in 2021, first due in 2022.

An additional 2.5-mill levy will be voted upon by those living within Harrison Township Road District #1 for the purpose of general construction, reconstruction, resurfacing, and repair of streets, roads, and bridges for a continuing period of time, commencing in 2021, first due in 2022.

In Union City, Ohio, voters will consider a petition to allow the sale of wine and mixed beverages to be sold on Sundays between the hours of 10 a.m. and midnight by Casey's Marketing Company, also known as Casey's General Store, 102 East Main Street, Union City. Early voting has already begun. Polls are open Nov. 2 from 6:30 a.m. to 7:30 p.m.

OBITUARY

JOANNE MARIE FERREE

BRADFORD — Joanne Marie Ferree, age 86 of Bradford, passed away Tuesday, October 26, 2021 at the Upper Valley Hospital, Troy. Joanne was born in Marengo, OH on February 14, 1935 to the (late) Joseph Watt & Helen (Penwell) Linkhorn; was a graduate of Westerville High School, Class of 1953; worked for the Piqua Daily Call/Miami Valley Today, delivering newspapers; previously worked at Allen-A, Piqua; was a member of the Bradford United Methodist Church for 60 years; member of the Bradford Lions Club where she had been a recipient of the Citizen of the Year Award; member of the BAAC (Bradford Area Association of Churches); past member of the Bradford American Legion Ladies Auxiliary; was very active with the Special Olympics with all their sports and helped coach the Swimming Team; loved collecting especially stuffed bears; and enjoyed fishing.

Preceded in death by her parents; husband, Richard Ferree; son, William Joseph Van Culin; sister, Nancy Anderson; two brothers, Lloyd Linkhorn and Jerry Linkhorn; and father of her children, William Van Culin.

Joanne is survived by her four children, Jeannine Van Culin of Bradford, Craig & Debra Van Culin of Arcanum, Duane & Roxane Van Culin of Monticello, MN, Kyle Van Culin of Bradford; 10 grandchildren, Matthew Van Culin, Laura & Steve Mohr, Luke & Emily Van Culin, Joseph & Emily Van Culin, Arin & Amy Jo Van Culin, Jordayna & Josh Ordorff, Brant & Stephanie Van Culin, Joshua & Kimberly Van Culin, Ryan & Erin Van Culin, Rachel & Tyler Peckham; 25 great-grandchildren; numerous nieces, nephews, other relatives and friends.

Funeral Service 10:30 AM Saturday, November 6th at Common Ground Christian Church, 120 W. Oakwood Street, Bradford with Pastor Dwayne Wilson officiating. Interment Miami Memorial Park Cemetery, Covington. Visitation 5-8 PM Friday and again from 9:00 AM Saturday until time of service.

In lieu of flowers, contributions may be made to the Ohio Special Olympics. Condolences may be left for the family at www.stockerfraley.com. In respect of the family, they may want to greet you at a safe distance.

More OBITUARIES | 2

Holiday Bazaar this weekend

The Family of God Ministries, located at 310 West South Street, invites the community to its Annual Bazaar this Saturday, Nov. 6 from 9 a.m. to 2 p.m. Plan to eat lunch with them and do some holiday shopping. They will have soup and sandwiches along with all kinds of baked goods. They are also offering raffle tickets on a queen-sized quilt again this year. Be sure to stop by and check them out!

Congratulations to Joey Clopp! Joey is the son of Tim and Holly Clopp and was recently crowned Ohio State Junior Prince at the Ohio State Grange Convention on Oct. 2. Joey will be representing the Ohio State Junior Grange and Darke County Grange for the 2021-2022 year. Joey will be attending his first Grange Banquet this weekend in Fairfield County. Joey is a 7th grader at Arcanum Middle School. Joey has two younger brothers, Calen, and Alex. His grandparents are the late Joe Gunckle, Lynne and Harvey Hinshaw, and Patrick and Candy Clopp.

Have you seen the commercial for Wright State University on local television that features AHS graduate, Mary Tritschuh? How awesome is that? Congrats

to Mary and her family for the success she has experienced at WSU.

The Arcanum Trojans won the High School Girls Western Ohio Athletic Conference Cross Country Championship held at National Trail High School. The Trojans ran away with the title with five girls finishing in the top 10 and just 23 total team points.

The All-Conference team is based on performance at the league meet. The top runner in the conference this year was a freshman Taylee Woodbury of Mississinawa Valley who won the WOAC Meet with a top time of 20:10.9. Other Darke County runners earning first team honors from Arcanum were Brooklyn Miras – 2nd, Arianne Garrison – 4th, Hailey Unger – 7th, Lydia Shannon 9th and Kylee Freeman 10th. Peyton Billenstein of Ansonia was 5th, Austy Miller of Bradford 6th, and Zoey Brookey of Franklin Monroe was 8th. Arcanum girls' cross country coach John Junkins was the Coach of the Year and Taylee Woodbury the Runner of the Year.

Congratulations to our JH Boys Cross Country Team for their 2nd place finish at the OHSAA

Christian Apologetics Conference set for Nov. 19-20

Staff report

GREENVILLE — Greenville Church of the Brethren, 421 Central Avenue, Greenville, will be hosting a Christian Apologetics Conference Nov. 19 and 20, 2021.

The conference speaker is Nathan Rittenhouse, a pastor and Christian apologist, from Virginia.

This event is open to all persons. It is a conference dedicated to Christian apologetics seeking to equip believers to defend their faith. It is the vision of those organizing and planning this conference to provide all Christians, some tools that will better enable us to engage with our culture and communities the truths of the Bible which point to the good news Gospel message of Jesus Christ.

The church is making available two options for participation — in-person

and on Zoom. For registration, a PDF version of the flier, and further conference information, please go to www.greenvillecob.weebly.com.

What's The WORD On The Street

Vaccine Policy for City of Dayton Workers

By: LaTonya Victoria
Staff Writer

The new vaccine policy for City of Dayton workers went into effect this week. Some sources say that this could lead to not having enough police officers or fire-fighters on hand in case of an emergency. I spoke with several people in the Miami Valley and asked them their thoughts on the mandate and received the following responses:

• Carlos Buford, who is the founder of Black Lives Matter Dayton said, "I think that at some point it's more for the safety of individuals and trying to bring the COVID numbers down as much as possible. When it comes to the services that need to be rendered to the public, if that's going to affect some services, I think we must revisit that so that we can find a way to get the same services that we've been getting all along. I'm not really for the mandate. Personally, I think if there was one thing that I would mandate, it would be testing. Testing for everyone. Those that are vaccinated and unvaccinated. I think, at some point, mandating testing and wearing a mask seem to be less invasive. We want to get those numbers down. When we do the COVID testing we can see immediately if that person has COVID or not and we can take care of it right then. I'm not a doctor. I have taken the vaccine. I recommend that everyone consider taking the vaccine. Extreme measures must be taken to get the numbers down as long as they can."

Carlos Buford

• Dr. Derrick L. Foward, who is the President of the Dayton Unit NAACP and a concerned citizen replied, "The Dayton Unit of the NAACP voted that we support the City of Dayton mandate. It was not a unanimous vote. It was good to see that the City of Dayton is absorbing the cost of employees' COVID testing if they decide to not be vaccinated and not creating a financial hardship for their city workers. The employees will still have a job. They just must submit to the weekly test that the city pays for. Ultimately keeping themselves, fellow colleagues, and customers safer than if they were vaccinated. I am fully vaccinated, and I urge my family members and fellow citizens to be vaccinated also to minimize their chances of getting the virus."

Dr. Derrick L. Foward

• Dr. Antoinette Gaston, who is a Molecular Biologist with Attest Biosciences from the Miami Valley and lives in Alpharetta, Georgia, responded, "The Federal Government has the ability to put a mandate on anyone who receives federal money. The Federal Government needs to make sure their employees are vaccinated. If they're not, they won't receive funding, or can be fined. That makes it where companies must try to protect their organization and it will also serve as protection for the community. Now more people are vaccinated so that when they do come in contact with the virus, they are more protected. Now they're being given the tools that their body needs to be able to fight the virus if they come in contact with it. They are now protected."

Dr. Antoinette Gaston

I think within our culture we've gotten used to having the ability to make choices. We've been made aware of what our rights are. We never look at the aspect that part of those rights is the overall oversight for what happens in our community. Meaning not just for ourselves but everyone in instances where there is a threat to the overall health and wellbeing of the community as a whole. For us the United States is a community. When there is a time where there is a threat, someone must come in and say, "this is what we're going to do". It's not to overstep individual rights. It's to protect those individual rights. COVID is not going to go away until we eradicate it. A lot of people look at vaccine programs and say they have been so good. Polio, measles, and mumps have been eradicated. Tuberculosis and polio are the most devastating ones that we have known about in recent history. Those two things have been eradicated, but from time to time you'll hear about episodes. The public is warned, and we are told to go to our doctor if we have symptoms. Remember vaccines don't prevent, they just give your body the ammo to fight. That's why we must get boosters. I believe that if you are one of those people who is a public facing individual, you should be vaccinated. There are some individuals who, due to health or religious reasons, may not be able to get the vaccine. Those individuals should be subjected to weekly testing. You need to know if that person has been infected. It helps everyone in the workspace that they encounter, and it helps them. Early detection enables you to do things like getting monoclonal antibody therapy and to have better monitoring so that your disease can be managed better."

Event by Miami Valley Regional Planning Commission
1052 Main Dr., Greenville, Ohio 45331
Duration: 1 hr 30 min
Public - Anyone on or off Facebook

Dayton, OH - The Miami Valley Regional Planning Commission (MVRPC) maintains the Areawide Water Quality Management Plan which guides planning across five counties for wastewater collection and treatment. The plan delineates Facility Planning Areas (FPAs), which are locations where sanitary sewers are or may be provided. With plans underway to construct sanitary sewers to serve the Village of Wayne Lakes, MVRPC is working to amend the regional Water Quality Management Plan to accurately reflect local decisions and plans. One key step is to map the FPA for Wayne Lakes, the area for which the Village will have lead planning responsibility for wastewater collection and treatment.

On November 15, 2021, a Public Input Meeting will be held to allow the public an opportunity to 1) learn the purpose and functions of Facility Planning Areas, 2) review and comment on the proposed Facility Planning Area map for the Village of Wayne Lakes, and 3) suggest a Facility Planning Area map of their own. Informative posters and maps, as well as MVRPC staff, will be on hand to assist participants in navigating the information and submitting any comments.

The meeting will be held as follows:
Monday, November 15, 2021 - 6:30 p.m. to 8:00 p.m.
1052 Main Dr., Greenville, Ohio 45331

If you are unable to attend, information will also be available for public review on MVRPC's website at mvrpc.org/unsewered-communities@wayne and at the MVRPC offices, 10 North Ludlow St., Suite 700, Dayton, OH, 45402, during regular business hours (8:00 a.m. - 5:00 p.m., Monday through Friday) or at the Village of Wayne Lakes office, 1052 Main Dr., Greenville, Ohio 45331 from November 8 through November 15 during regular business hours (8:00 a.m. - 5:00 p.m., Monday through Friday). Written comments regarding the plan will be accepted at the above address, web address, or via email at mlindsay@mvrpc.org until November 23, 2021.

At all MVRPC public participation meetings, interpreters for hearing impaired individuals or bilingual interpreters are available upon request. Requests should be made at least one week prior to the meeting date. Contact MVRPC at (937) 223-6323 or 1-800-750-0750 TTY/TDD to request an interpreter.

Established in 1964, the Miami Valley Regional Planning Commission promotes collaboration among communities, stakeholders, and residents to advance regional priorities. MVRPC is a forum and resource where the Board of Directors identifies priorities and develops public policy and collaborative strategies to improve quality of life throughout the Miami Valley Region. MVRPC performs planning and research functions for our Region that ensure livable and equitable communities: clean air and water, robust roadway, transit, and active transportation options; and strategic community plans that chart the course for member communities and partners. As the designated Metropolitan Planning Organization (MPO), MVRPC is responsible for transportation planning in Greene, Miami and Montgomery Counties and parts of northern Warren County. MVRPC's areawide water quality planning designation encompasses five (5) counties: Clark, Pickle plus the three MPO counties.

For additional information, contact Matt Lindsay, Manager of Environmental Planning, at (937) 223-6323 or via the email address listed above.

Subject: Response to comment from November 15, 2021 public meeting

Dear [REDACTED]

Thank you for attending the Wayne Lakes Facility Planning Area (FPA) public meeting hosted by the Miami Valley Regional Planning Commission (MVRPC) on November 15, 2021 in the village offices in Wayne Lakes. This letter is your requested response to the comment you provided.

The MVRPC Areawide Water Quality Management Plan does not address local decisions about services outside the village boundary. Inclusion of properties in the FPA map creates the opportunity to invite those properties to connect to the system, but does not obligate the Village to serve those properties. We will share your comment with representatives from the Village, as the decision whether or not to serve properties must be made by the Village.

Thank you again for your participation. Please do not hesitate to contact me with additional questions or comments about the proposed Wayne Lakes Facility Planning Area.

Sincerely,

Matthew W. Lindsay
Manager, Environmental Planning

Comment(s):
DARKE COUNTY COMMISSONERS HOSTED
A MEETING A COUPLE OF YEARS AGO WITH RESIDENTS
OUTSIDE OF WAYNE LAKES. ALL PRESENT HAD OLD
SEPTIC SYSTEMS — EXCEPT US. OUR SYSTEM WAS
INSTALLED IN 1998 BY TOM HOLLINGER WITH A
1500 GAL. TANK ON TOP OF THE HILL, A 500 GAL. TANK
AT THE BOTTOM, 900 FEET OF LEACH LINE —
NONE OF THIS IS IN WAYNE LAKES, BUT IS ALL
LOCATED IN NEAVE TOWNSHIP.
WE DO NOT WANT TO BE PART OF THE
SEWER SYSTEM!
