2040 Long Range Transportation Plan Amendment
September 2018

Overview

The 2040 Long Range Transportation Plan (LRTP) is being amended to establish conformity and reflect changes in scope or feasibility timeframe to existing LRTP projects being proposed for amendments in the SFY 2018-2021 Transportation Improvement Program (TIP). The amendment is needed as a result of a recent U.S. Court of Appeals for the D.C. Circuit decision (No. 15-1115) which struck down portions of the 2008 Ozone NAAQS SIP Requirements Rule concerning the ozone National Ambient Air Quality Standards (NAAQS) as well as the anti-backsliding requirements associated with the revocation of the 1997 Ozone NAAQS. Areas such as ours that were maintenance areas for the 1997 Ozone NAAQS at the time of revocation and are designated as attainment for the 2008 Ozone NAAQS have not been required to make transportation conformity determinations for any ozone NAAQS since the 1997 Ozone NAAQS were revoked in April 2015 and the recent court decision changes that necessitating a new regional emissions analysis and associated conformity determination.

The amended plan will remain fiscally constrained and the regional emissions analyses results indicate that the 2040 Plan and TIP demonstrate conformity to the PM2.5 and 8-hour ozone standard consistent with the April 2012 U.S. EPA Transportation Conformity Regulations. The amendment also includes a System Performance Report addressing safety performance measures.

Fiscal Constraint

Fiscal constraint analysis is intended to ensure that metropolitan transportation plans and TIPs reflect realistic assumptions about future revenues and project costs. The fiscal forecast assumptions developed for the 2016 update of the LRTP remain the same but amended project costs were updated to reflect more recent cost estimates as a result of changes in scope or feasibility timeframe.

Table 1 summarizes the financial changes to the Congestion Management Projects in the LRTP as a result of changes in the current TIP; all other programs and forecasts remain unchanged. The 2040 LRTP remains fiscally constrained. Amended projects can be seen in Appendix A.

Source: MVRPC
Regional Emissions Analysis Summary

The Dayton/Springfield Air Quality Region (D/S Region) is comprised of the counties of Clark, Greene, Miami, and Montgomery in west-central Ohio. Three counties (Clark, Greene, and Montgomery) are designated attainment/former maintenance for the Annual PM2.5 Standard. All four counties are designated attainment/former maintenance for the 1997 Ozone Standard. Clark County Springfield Transportation Coordinating Committee (CCS-TCC) serves as the Metropolitan Planning Organization (MPO) for Clark County while MVRPC serves as the MPO for the remainder counties: Greene, Miami, and Montgomery and northern Warren County which is part of the Cincinnati Air Quality Region.

Both the 1997 Ozone standard and the 1997 PM2.5 standard were revoked in April 2015 and October 2016 respectively for all purposes including conformity. However a recent U.S. Court of Appeals decision (No. 15-1115) struck down portions of the 2008 Ozone Standards SIP Requirements Rule associated with the revocation of the 1997 Ozone Standard. Areas such as ours that were maintenance for the 1997 Ozone Standard at the time of revocation and are designated as attainment for the 2008 Ozone Standard and have not been required to make transportation conformity determinations are required, as a result of this decision, to restart the conformity process.

Table 2 presents a summary of emissions for the applicable counties in the D/S Region for the required precursors VOC and NOx for the ozone standard. The results indicate that the 2040 Plans and TIPs demonstrate conformity to the Ozone State Implementation Plans (SIPs) consistent with the April 2012 U.S. EPA Transportation Conformity Regulations.

Detailed documentation of the interagency consultation process and assumptions behind the regional emissions analysis is available at: [https://www.mvrpc.org/transportation/current-long-range-plan/lrtp-amendments](https://www.mvrpc.org/transportation/current-long-range-plan/lrtp-amendments)
System Performance Report – Safety Performance Measures

The Fixing America’s Surface Transportation Act (FAST Act) requires state DOTs, transit agencies, and MPOs to establish performance and outcome-based programs in several national priority areas. With respect to safety, states are required to set targets for five performance measures to reduce serious injuries and fatalities in public roads.

In accordance with federal legislation, Ohio used 2007-2016 crash data to calculate historical crash trends and set 2018 targets. Ohio’s targets are based on a 1% annual reduction goal for each of the five safety performance measures. Table 3 summarizes the State’s safety targets for 2018 as well as trends and the impact that a 1% annual reduction goal would have in the MVRPC area.

*MVRPC targets are provided for illustrative purposes, actual progress determination would be made at the State level only.

In November 2017 MVRPC’s Board of Directors adopted a resolution supporting ODOT’s safety performance management targets for the five performance measures outlined in the FAST Act. To aid in meeting those targets, MVRPC continues to plan, program, and fund projects that have a positive impact in achieving the targets outlined in the State’s HSIP report. In December 2019, FHWA will determine whether a State has met or made significant progress toward meeting the 2014-2018 HSIP targets.

MVRPC Safety Planning and Programs

Regional Safety Analysis: Since SFY 2006, MVRPC has updated the Regional Safety Analysis every three years to identify trends and locations with high frequency and severity of crashes. The analysis is presented to the Technical Advisory Committee and the Board of Directors to bring awareness to regional high crash locations and trending safety issues. The top 100 priority segments and intersections are highlighted in a report and multi-cycle repeat locations are further flagged to encourage local jurisdictions to implement safety improvements.

Findings from the Regional Safety Analysis are used during the MVRPC project evaluation process to rank and prioritize funding for future transportation projects, to inform target setting decisions for
the safety performance measures, and to decide the topics of upcoming public education safety campaigns. In addition, MVRPC staff will continue to work with regional partners to improve roadway safety by conducting/funding safety studies, providing crash information to local jurisdictions, and attending District Safety Review Team (DSRT) meetings.

Additional information about the Regional Safety initiatives including a Safety Resources Guide can be found at: https://www.mvrpc.org/transportation/long-range-planning-lrtp/transportation-safety

Public Education Safety Campaigns: Recognizing that public education plays an important role in reducing crashes and making the Region’s roads safer for all users, MVRPC develops safety materials and educational campaigns to encourage safe behavior and address trending/rising crash types or behaviors. Past materials and campaigns have included, Bike PSAs, Share the Road materials, Street Smart Campaign (aimed at pedestrian safety), and the latest in 2018 focusing on seat belt usage and proper use of child restraints. Links to outreach materials can be found at: https://www.mvrpc.org/transportation/public-education-campaigns/safety-campaign-2018

Safe Routes to School: MVRPC staff works to make the commute to school safer and healthier through the Safe Routes to School activities. Examples from the past year include working with the City of Dayton and Dayton Public Schools on their School Travel Plan, to improve priority travel routes for 24 local schools, and classes, such as Girls in Gear, to help middle school girls build skills and create broader transportation options. Staff has also partnered with the Miami Valley Safe Kids Coalition to sponsor bike rodeos and other education events aimed at skill-building and reducing injuries related to wheeled activities. And finally, staff guided the planning and walking audit activities for the Safe Routes to Parks pilot project at Wesleyan MetroPark, in partnership with Five Rivers MetroParks and GDRTA.

Safety Training: MVRPC periodically partners with ODOT and FHWA to host safety-related workshops and training for our members. Past training opportunities have included complete streets, pedestrian safety oriented design, and pedestrian accessibility workshops. In addition, staff regularly attends safety related workshops, lectures, and networking events.

MVRPC Safety Projects

MVRPC prioritizes safety when selecting projects for funding with regionally controlled funds (STP, TA, and CMAQ) by using the findings from the most current regional safety analysis as a criterion in the Project Evaluation System (PES). Projects in areas identified as a safety priority location score higher if the project is expected to have a positive impact in reducing crashes. Examples of these types of projects include turn lane additions and signal improvements. Similarly, if a project is correcting a known design deficiency, it will also receive additional points, even if the area is not currently designated as a priority location, for example adding sidewalks to an area that lacks pedestrian accommodations.
Of the currently active projects (98), funded with STP, CMAQ, and TA funds, between SFY 2019 and SFY 2023, 33 projects address a regional safety priority location. An additional 13 projects are expected to have a positive impact on safety. The total cost of safety improvement projects funded with STP, CMAQ, and TA funds is nearly $108 million, which includes all phases of the project and all funding sources.

*Figure 1 — SFY 2019-2023 Safety Improvement Project Summary (STP, CMAQ, and TA funds)*

An additional 17 projects with a total cost of $47 million are funded with ODOT HSIP funds.
Public Participation
On Wednesday, August 15, 2018, MVRPC staff conducted a public participation meeting to secure public input on the proposed 2040 LRTP amendment. The public comment period ended on August 24, 2018.

Public Outreach Efforts
Outlined below is a recap of public outreach efforts to promote this meeting consistent with the MVRPC Public Participation Policy:

- Establishing a centralized, transit-accessible, meeting location at the MVRPC offices in Downtown Dayton and offering free parking passes for drivers;
- Printing public notices in the Dayton Daily News, La Jornada Latina (English and Spanish), and the Dayton City Paper announcing the meetings;
- Submitting press releases to all local newspapers, television and radio stations –79 media outlets;
- Sending letters to individuals and agencies who have requested to be notified about public participation meetings as well as additional agencies/interested parties identified in the FAST Act legislation – approximately 600 individuals/agencies;
- Sending letters and promotional posters to all the public libraries in Montgomery, Greene, Miami Counties and northern Warren Counties (60 Libraries);
- Displaying promotional posters in English and Spanish at the Greater Dayton Regional Transit Authority hubs;
- E-mailing promotional posters to Miami County Transit and Greene CATS;
- Announcing the meeting on the MVRPC’s website and social media platforms; and
- Posting the information, which was to be presented at the meetings, on MVRPC’s website along with an online comment card.

Meeting Summary
A total of 2 people attended the meeting and MVRPC staff members were present to answer their questions.

Participants were encouraged to give their comments on the Plan Amendment through comment cards available at the meetings or the online comment card. Two comments unrelated to the amendment were received. One focused on project #838 on the Plan, questioning if the current scope of the project benefits bicyclists and pedestrians and requesting a safety study in this area and a second comment requesting bike lanes.

A complete summary of the meeting including content and outreach documentation, comments, and response to comments can be found in Appendix B.

Dayton Daily News  

From: MVRPC  

Date: July 12, 2018  

Subject: Public Notice – QUOTE NEEDED  

Please provide a **quote** to run the following Public Notice on:  

- July 27, 2018 - La Jornada Latina  
- August 1, 2018 - Dayton Daily News  

Once the quote and sample are received, I will authorize publication and send a purchase order.  

The publisher must send a notarized proof of publication with the invoice to Laura Henry, MVRPC, 10 N. Ludlow Street, Suite 700, Dayton, OH 45402. Thank you for your assistance.  

Please send the following information to Laura Henry via email - lhenry@mvrpc.org  

- Name of the newspaper contact person  
- Phone number  
- Projected date(s) of publication (if different than requested)  
- Price quote  
- Draft typeset public notice for proofing (PLEASE MAKE LARGE ENOUGH TO READ)  

**PUBLIC NOTICE**  

Public Participation Meeting to be held Regarding a Long Range Transportation Plan Amendment to  
Re-establish Ozone Conformity  

The Miami Valley Regional Planning Commission (MVRPC) will hold a Public Participation Meeting regarding a Long Range Transportation Plan (LRTP) Amendment. The meeting will be held as follows:  

**Wednesday, August 15, 2018**  

Miami Valley Regional Planning Commission  

10 N. Ludlow Street, Suite 700  

Courthouse Square - Dayton, OH  

4:00 p.m. – 6:00 p.m.  

The 2040 LRTP is being amended to establish conformity and reflect changes in scope or feasibility timeframe to existing LRTP projects being proposed for amendments in the SFY 2018-2021 Transportation Improvement Program (TIP). The amendment is needed as a result of a recent U.S. Court of Appeals for the D.C. Circuit
decision (No. 15-1115) which struck down portions of the 2008 Ozone, National Ambient Air Quality Standards (NAAQS), State Implementation Plan Requirements Rule concerning the ozone NAAQS as well as the anti-backsliding requirements associated with the revocation of the 1997 Ozone NAAQS. Areas such as ours, that were maintenance areas for the 1997 Ozone NAAQS at the time of revocation and are designated as attainment for the 2008 Ozone NAAQS, have not been required to make transportation conformity determinations for any ozone NAAQS since the 1997 Ozone NAAQS were revoked in April 2015. The recent court decision changes that necessitating a new regional emissions analysis and associated conformity determination.

The amended plan will remain fiscally constrained and the regional emissions analyses results indicate that the 2040 LRTP and TIP demonstrate conformity to the PM2.5 and 8-hour ozone standard consistent with the April 2012 U.S. Environmental Protection Agency Transportation Conformity Regulations. The complete documentation on the amendment can be found at mvrpc.org/transportation/current-long-range-plan/lrtp-amendments beginning on July 26, 2018. You can also review the materials at the MVRPC offices, 10 N. Ludlow Street, Suite 700, Dayton, OH, 45402, during regular business hours (8:00 a.m. – 5:00 p.m., Monday through Friday). Written comments will be accepted through Friday, August 24, 2018, at the above address, web address, or via email to Ana Ramirez, MVRPC’s Director of Long Range Planning & Engineering, at aramirez@mvrpc.org.

At all MVRPC public participation meetings, interpreters for hearing impaired individuals or bi-lingual interpreters are available upon request. Requests should be made at least one week prior to the meeting date. Contact MVRPC at (937) 223-6323 or 1-800-750-0750 TTY/TDD to request an interpreter. Parking validation for The Arts Garage will be distributed at the meeting. The parking garage is located at 107 N. Ludlow Street across from the Schuster Performing Arts Center. There are numerous Greater Dayton RTA transit routes convenient to MVRPC’s office on Courthouse Square, including Wright Stop Plaza.

For additional information, contact Ana Ramirez, Director of Long Range Planning & Engineering, at (937) 223-6323 or via the e-mail address listed above.

PUBLIC NOTICE

Public Participation Meeting to be held Regarding a Long Range Transportation Plan Amendment to Re-establish Ozone Conformity

The Miami Valley Regional Planning Commission (MVRPC) will hold a Public Participation Meeting regarding a Long Range Transportation Plan (LRTP) Amendment. The meeting will be held as follows:

Wednesday, August 15, 2018
Miami Valley Regional Planning Commission
10 N. Ludlow Street, Suite 700
Courthouse Square • Dayton, OH
4:00 p.m. – 6:00 p.m.

The 2040 LRTP is being amended to establish conformity and reflect changes in scope or feasibility timeframe to existing LRTP projects being proposed for amendments in the SPY 2018-2021 Transportation Improvement Program (TIP). The amendment is needed as a result of a recent U.S. Court of Appeals for the D.C. Circuit decision (No. 15-1115) which struck down portions of the 2008 Ozone, National Ambient Air Quality Standards (NAAQS), State Implementation Plan Requirements Rule concerning the ozone NAAQS and as well as the anti-backsliding requirements associated with the revocation of the 1997 Ozone NAAQS. Areas such as ours, that were maintenance areas for the 1997 Ozone NAAQS at the time of revocation and are designated as attainment for the 2008 Ozone NAAQS, have not been required to make transportation conformity determinations for any ozone NAAQS since the 1997 Ozone NAAQS were revoked in April 2015. The recent court decision changes that necessitating a new regional emissions analysis and associated conformity determination.

The amended plan will remain fiscally constrained and the regional emissions analyses results indicate that the 2040 LRTP and TIP demonstrate conformity to the PM2.5 and 8-hour ozone standard consistent with the April 2012 U.S. Environmental Protection Agency Transportation Conformity Regulations. The complete documentation on the amendment can be found at mvrpc.org/transportation/current-long-range-plan/lrtp-amendments beginning on July 26, 2018. You can also review the materials at the MVRPC offices, 10 N. Ludlow Street, Suite 700, Dayton, OH, 45402, during regular business hours (8:00 a.m. – 5:00 p.m. Monday through Friday). Written comments will be accepted through Friday, August 24, 2018, at the above address, web address, or via email to Ana Ramirez, MVRPC’s Director of Long Range Planning & Engineering, at aramirez@mvrpc.org.

At all MVRPC public participation meetings, interpreters for hearing impaired individuals or bi-lingual interpreters are available upon request. Requests should be made at least one week prior to the meeting date. Contact MVRPC at (937) 223-6323 or 1-800-750-0750 TTY/TDD to request an interpreter. Parking validation for The Arts Garage will be distributed at the meeting. The parking garage is located at 107 N. Ludlow Street across from the Schuster Performing Arts Center. There are numerous Greater Dayton RTA transit routes convenient to MVRPC’s office on Courthouse Square, including Wright Stop Plaza.

For additional information, contact Ana Ramirez, Director of Long Range Planning & Engineering, at (937) 223-6323 or via the e-mail address listed above.

8/1/2018
PUBLIC NOTICE Public Participation Meeting to be held Regarding a Long Range Transportation Plan Amendment to Re-establish Ozone Conformity

The Miami Valley Regional Planning Commission (MVRPC) will hold a Public Participation Meeting regarding a Long Range Transportation Plan (LRTP) Amendment. The meeting will be held as follows:

Wednesday, August 15, 2018
Miami Valley Regional Planning Commission
10 N. Ludlow Street, Suite 700 Courthouse Square - Dayton, OH
4:00 p.m. - 6:00 p.m.

The 2040 LRTP is being amended to establish conformity and reflect changes in scope or feasibility timeframe to existing LRTP projects being proposed for amendments in the SFY 2018-2021 Transportation Improvement Program (TIP). The amendment is needed as a result of a recent U.S. Court of Appeals for the D.C. Circuit decision (No. 15-1115) which struck down portions of the 2008 Ozone, National Ambient Air Quality Standards (NAAQS), State Implementation Plan Requirements Rule concerning the ozone NAAQS as well as the anti-backsliding requirements associated with the revocation of the 1997 Ozone NAAQS. Areas such as ours, that were maintenance areas for the 1997 Ozone NAAQS at the time of revocation and are designated as attainment for the 2008 Ozone NAAQS, have not been required to make
The 2040 Long Range Transportation Plan is being amended to re-establish ozone conformity and reflect changes in scope or feasibility timeframe to existing LRTP projects being proposed for amendments in the SFY 2018-2021 Transportation Improvement Program (TIP).

The amended plan will fully decimate and remove the regional emissions analyses reports indicate that the 2040 LRTP and TIP demonstrate conformity to the PM2.5 and 8-hour ozone standard consistent with the April 2012 U.S. Environmental Protection Agency Transportation Conformity Regulations. View more information at www.mvpc.org/lrt/amendments.

LAS LEYES DE LA VIVIENDA JUSTA PROTEGEN A LOS INMIGRANTES Y A LOS REFUGIADOS

Algunos ejemplos de disciplinación ilegal en la vivienda:
- Retraso en el pago de la renta
- Desalojo de inquilinos sin causa o con causas que no sean legítimas, como el impago de los arriendos
- Vandalismo que gane fuerza y dañar las condiciones del edificio y a los demás vecinos
- La vecindad en el lugar que se considera inseguro
- Se pueden denunciar a la autoridad de inmigración, con la protección jurídica de la comunidad en el caso de migración

Si cree que ha sido discriminado injustamente o si debe ser tratado de manera diferente, llame a HOME (Oportunidades de Vivienda Hispánicas) a 513-721-4663.

AVISO PÚBLICO

Se celebrará una reunión de Participación Pública con respecto a una Enmienda al Plan de Transporte a Largo Plazo 2040 para Restablecer la Conformidad del Ozono

La Comisión de Planificación Regional de Miami Valley (MVRPC) por sus siglas en inglés) llevará a cabo una Reunión de Participación Pública con respecto a una Enmienda al Plan de Transporte a Largo Plazo 2040 (LRTP por sus siglas en inglés). La reunión se llevará a cabo de la siguiente manera:

Miércoles, 15 de agosto de 2018
Comisión de Planificación Regional de Miami Valley
10 N. Ludlow Street, Suite 700
Courthouse Square - Dayton, OH
4:00 p.m. - 6:00 p.m.

El LRTP 2040 se está examinando para establecer la conformidad y prevenir las campañas en el alcance o el calendario de viabilidad de los proyectos LRTP existentes que se propusieron en el Programa de Mejoramiento del Transporte (TIP por sus siglas en inglés) SPY 2016-2021. La enmienda es necesaria como resultado de una decisión reciente de la Corte de Apelaciones de Estados Unidos para el Circuito D.C. (No. 19-1113) que anuló partes, de las Normas Nacionales de Calidad del Aire Ambiental (NAAAQS por sus siglas en inglés) del Ozono 2008, y del Reglamento de Requisitos del Plan de Implementación del Estudio concerniente al ozono NAQS, así como los requisitos anti-reincidencia asociados con la revocación del ozono 1997 NAQS. Areas como el Miami Valley, que son áreas de mantenimiento para Ozono 1997 NAQS en el momento de su revocación, y que se designaron como logro para el Ozono 2008 NAQS, no han tenido que realizar determinaciones de conformidad de transporte para ningún Ozono NAQS desde que el Ozono 1997 NAQS fue revocado en abril de 2015. La reciente decisión judicial determina la necesidad de un nuevo análisis regional de emisiones y la determinación de la conformidad asociada.

El plan examinado seguirá siendo fiscalmente responsable y los resultados del análisis regional de emisiones indican que el LRTP 2040 y TIP demuéstran conformidad con los estándares de PM2.5 y de 8 horas de ozono consistentes con las regulaciones de Conformidad de Transporte de la Agencia de Protección Ambiental de Estados Unidos de abril de 2012. La documentación completa sobre la enmienda se puede encontrar en mvrpc.org/transportation/tours-long-range-planning-update. Para obtener información adicional, comuníquese con Ana Ramirez, Director of Long Range Planning & Engineering, al (937) 223-6032 o a través de la dirección de correo electrónico mencionada anteriormente.

Dayton, OH – The Miami Valley Regional Planning Commission (MVRPC) will hold a Public Participation Meeting regarding a Long Range Transportation Plan (LRTP) Amendment. The meeting will be held as follows:

Wednesday, August 15, 2018
Miami Valley Regional Planning Commission
10 N. Ludlow Street, Suite 700
Courthouse Square - Dayton, OH
4:00 p.m. – 6:00 p.m.

The 2040 LRTP is being amended to establish conformity and reflect changes in scope or feasibility timeframe to existing LRTP projects being proposed for amendments in the SFY 2018-2021 Transportation Improvement Program (TIP). The amendment is needed as a result of a recent U.S. Court of Appeals for the D.C. Circuit decision (No. 15-1115) which struck down portions of the 2008 Ozone, National Ambient Air Quality Standards (NAAQS), State Implementation Plan Requirements Rule concerning the ozone NAAQS as well as the anti-backsliding requirements associated with the revocation of the 1997 Ozone NAAQS. Areas such as ours, that were maintenance areas for the 1997 Ozone NAAQS at the time of revocation and are designated as attainment for the 2008 Ozone NAAQS, have not been required to make transportation conformity determinations for any ozone NAAQS since the 1997 Ozone NAAQS were revoked in April 2015. The recent court decision changes that
necessitating a new regional emissions analysis and associated conformity determination.

The amended plan will remain fiscally constrained and the regional emissions analyses results indicate that the 2040 LRTP and TIP demonstrate conformity to the PM2.5 and 8-hour ozone standard consistent with the April 2012 U.S. Environmental Protection Agency Transportation Conformity Regulations. The complete documentation on the amendment can be found at mvrpc.org/transportation/current-long-range-plan/lrtp-amendments beginning on July 26, 2018. You can also review the materials at the MVRPC offices, 10 N. Ludlow Street, Suite 700, Dayton, OH, 45402, during regular business hours (8:00 a.m. – 5:00 p.m., Monday through Friday). Written comments will be accepted through Friday, August 24, 2018, at the above address, web address, or via email to Ana Ramirez, MVRPC’s Director of Long Range Planning & Engineering, at aramirez@mvrpc.org.

At all MVRPC public participation meetings, interpreters for hearing impaired individuals or bilingual interpreters are available upon request. Requests should be made at least one week prior to the meeting date. Contact MVRPC at (937) 223-6323 or 1-800-750-0750 TTY/TDD to request an interpreter. Parking validation for The Arts Garage will be distributed at the meeting. The parking garage is located at 107 N. Ludlow Street across from the Schuster Performing Arts Center. There are numerous Greater Dayton RTA transit routes convenient to MVRPC’s office on Courthouse Square, including Wright Stop Plaza.

Established in 1964, the Miami Valley Regional Planning Commission promotes collaboration among communities, stakeholders, and residents to advance regional priorities. MVRPC is a forum and resource where the Board of Directors identifies priorities and develops public policy and collaborative strategies to improve quality of life throughout the Miami Valley Region. MVRPC performs various regional planning activities, including air quality, water quality, transportation, land use, research and GIS. As the designated Metropolitan Planning Organization (MPO), MVRPC is responsible for transportation planning in Greene, Miami and Montgomery Counties and parts of northern Warren County. MVRPC’s areawide water quality planning designation encompasses five (5) counties: Darke, Preble plus the three MPO counties.

For additional information, contact Ana Ramirez, Director of Long Range Planning & Engineering, at (937) 223-6323 or via the e-mail address listed above.

###
Public Participation Meeting to be held Regarding a Long Range Transportation Plan Amendment to Re-establish Ozone Conformity

Wednesday, July 18, 2018
Dayton, OH - The Miami Valley Regional Planning Commission (MVRPC) will hold a Public Participation Meeting regarding a Long Range Transportation Plan (LRTP) Amendment. The meeting will be held as follows:

Wednesday, August 15, 2018
Miami Valley Regional Planning Commission
30 N. Ludlow Street, Suite 700
Courthouse Square - Dayton, OH
1:00 pm – 3:00 pm

The LRTP is being amended to establish conformity and reflect changes in scope or feasibility in conjunction with existing LRTP projects being proposed for amendments in the FY 2019-2022 Transportation Improvement Program (TIP). The amendments will address a need for recent Court of Appeals decision (In Re: FY 2021-2023 which shift parts of the 2007 Ozone, National Ambient Air Quality Standards (NAAQS)); State Implementation Plan (SIP) requirements (e.g., concentrating the 1997 ozone NAAQS); and various ozone NAAQS associated with the 1997 ozone NAAQS areas. Areas such as those that were maintenance areas for the 1997 Ozone NAAQS at the time of revision and are designated as attainment for the 2007 Ozone NAAQS have not been required to make transportation conformity determinations for any ozone NAAQS since the 1997 Ozone NAAQS was revised in July 2005. The recent court decision changes that necessitate a new regional emissions analysis and associated conformity determination.

The amended plan will remain fully compliant and the regional emissions analysis results indicate that the 2040 LRTP and TIP demonstrate conformity to the PM2.5 and 8-hour ozone standard consistent with the April 2001 U.S. Environmental Protection Agency Transportation Conformity Revisions. The complete documentation on the amendment can be found at http://www.mvrc.org/planningsummary/transportation-conformity/ beginning on July 9, 2018. You can also review the materials at the MVRPC offices, 30 N. Ludlow Street, Suite 700, Dayton, OH 45402, during regular business hours (8:00 a.m. – 5:00 p.m., Monday through Friday). Written comments may be accepted through Friday, August 24, 2018, at the above address, web address or via email to Lisa Kamps, MVRPC’s Director of Long Range Planning & Engineering, at lisa.kamps@mvrc.org.

As in all MVRPC public participation meetings, interpreters for hearing impaired individuals or for sign language interpreters are available upon request; however, social media will be active at least one week prior to the meeting date. Contact MVRPC at 937-235-4160 or 480-795-2075 (TTY/TDD) to request an interpreter. Parking validation for the Arts Garage will be available at the meeting. The parking garage is located at 120 N. Ludlow Street across from the Schuster Performing Arts Center. There are numerous Greater Dayton RTA bus routes convenient to MVRPC’s office on Courthouse Square, including Wright Stop Pasts.

Established in 1964, the Miami Valley Regional Planning Commission promotes collaboration among communities, stakeholders, and residents to achieve regional priorities. MVRPC is a forum and resource where the Board of Directors identifies priorities and develops public policy and collaborative strategies to improve quality of life throughout the Miami Valley Region. MVRPC performs various regional planning activities, including: transportation; land use; education; research; GIS; and the designated Metropolitan Planning Organization (MPO). MVRPC is responsible for transportation planning in Greene, Miami, and Montgomery Counties and part of northern Warren County. MVRPC’s asset management, planning, and preservation tools encompass five 16-counties: Dane, Peoria plus the three MPO counties.

For additional information, contact Lisa Kamps, Director of Long Range Planning & Engineering, at 937-235-4160 or via the email address listed above.

DAYTON
Tech Town money
Minority Leader Fred Stratton (D-Dayton) recently announced that Tech Town New received $290,000 in funding from the Department of Higher Education. The funds will be used to design and build space in the Tech Town Technology Park.
"Removal of this space will bring additional value to the technology and industry leaders who call Tech Town home," said Stratton. "I am pleased that these capital improvement monies can be used to grow the leading edge and emerging technology projects being developed by Tech Town.
The project will include technology-oriented space, designed to support the application, commercialization and convergence of cutting-edge technologies and collaborations between the Air Force Research Laboratory and nonprofit organizations such as Ohio State University, Tech Town located at 241 Tyler St.

MIAMI TWP.
Stray cat program
Miami Township is teaming up with the Humane Society of Greater Dayton to help control the stray cat population within the unincorporated portion of the township. The Community Cat Program is designed to decrease the number of un-owned cats reproducing in the township and provide a humane solution to residents.
This is a free service provided by the Humane Society of Greater Dayton. Any person living in unincorporated Miami Township, residents can rent a trap from the Humane Society for $75 refundable, trap the unwanted cat on your property, then call the Humane Society at 937-268-7302 to schedule an appointment to drop off the trapped cats at its Dayton location, 1021 Nicholas Road. The Humane Society will spay/neuter the cat, ear-tip it for identification and release it where it was initially caught. This program is not for family pets.
The Community Cat Program is a great first step to welcoming the Humane Society of Greater Dayton into Miami Twp., which recently closed on a site of property to the Humane Society at the northeast corner of Ohio 741 and Austin Boulevard for a new adoption center. The Humane Society believes that by opening a facility in a high-traffic area like that surrounding Austin Landing, it will give more exposure to the animals it cares for and will ultimately help find those animals new homes faster.

DPS buildings spiffed up
A contractor cleans the exterior of a Dayton Public Schools buildings at South Ludlow Street in Dayton. The district is moving workers from the 115 S. Ludlow building to 174-186 S. Ludlow. DPS buildings directly across the street.

DAYTON
Planning commission
The Miami Valley Regional Planning Commission will hold a public participation meeting regarding a long-range transportation plan amendment. The meeting will be held from 4-6 p.m. Aug. 18 at the Miami Valley Regional Planning Commission, 10 S. Ludlow St., Suite 700, Courthouse Square.
The 2040 LRTP is being amended to establish conformity and reflect changes in scope or feasibility timeframe to existing LRTP projects being proposed for amendments in the FY 2019-2022 Transportation Improvement Program. The amendment is needed as a result of a recent U.S. Court of Appeals for the D.C. Circuit decision, which struck down portions of the 2008 ozone National Ambient Air Quality Standards State Implementation Plan Requirements Rule concerning the ozone NAAQS as well as the anti-backfilling requirements associated with the renovation of the 1997 ozone NAAQS.
The amended plan will remain subject to federal review and the planning commission's analytical results indicate that the 2040 LRTP and TIP demonstrate conformity to the PM2.5 and 8-hour ozone standards consistent with the April 2012 U.S. Environmental Protection Agency Transportation Conformity Determinations. The complete documentation on the amendment can be found at mvrc.org/trans-pa/transportation/current-long-range-plan/tip/amendment. You can also review the materials at the MVRC offices during regular business hours. Written comments will be accepted through Aug. 24 at the MVRC offices, at the address or via email to Ana Ramirez, MVRC's director of long-range planning and engineering, at aramirez@mvrc.org.

DAYTON
Ballroom dance club
The Dayton Ballroom Dance Club, a nonprofit 501(c)(3) organization, is having its annual registration for its members in August. Anyone over 18 can become a member at anytime during the year, with adult supervision, are also welcomed.
DBDC's annual curriculum includes learning a variety of dances. DBDC's classes are held almost every Monday starting at 7:30 until 9 p.m. and is followed by a social/practice party from 9:30 to 10:30 p.m.
For more information, check our daytonballroom.org or come to Arbor Hall in Moraine on Monday nights at 7:30 p.m.

Outreach
Information Posters (English and Spanish Versions)
The 2040 Long Range Transportation Plan is being amended to re-establish ozone conformity and reflect changes in scope or feasibility timeframe to existing LRTP projects being proposed for amendments in the SFY 2018-2021 Transportation Improvement Program (TIP).

The amended plan will remain fiscally constrained and the regional emissions analyses results indicate that the 2040 LRTP and TIP demonstrate conformity to the PM2.5 and 8-hour ozone standard consistent with the April 2012 U.S. Environmental Protection Agency Transportation Conformity Regulations. View more information at www.mvrpc.org/lrtp-amendments.

FOR ADDITIONAL INFORMATION, CONTACT ANA RAMIREZ, DIRECTOR OF LONG RANGE PLANNING AND ENGINEERING, AT 937.223.6323 OR ARAMIREZ@MVRPC.ORG
El Plan de Transporte a Largo Plazo 2040 (LRTP por sus siglas en inglés) se está enmendando para establecer la conformidad y reflejar los cambios en el alcance o el calendario de viabilidad de los proyectos LRTP existentes que se proponen para enmiendas en el Programa de Mejoramiento del Transporte (TIP por sus siglas en inglés) SFY 2018-2021.

El plan enmendado seguirá siendo fiscalmente responsable y los resultados del análisis regional de emisiones indican que el LRTP 2040 y TIP demuestran conformidad con los estándares de PM2.5 y de 8 horas de ozono consistentes con las Regulaciones de Conformidad de Transporte de la Agencia de Protección Ambiental de Estados Unidos de Abril de 2012. Ver más información en www.mvrpc.org/lrtp-amendments.

Para más información, contacte a Ana Ramirez, Director of Long Range Planning and Engineering, en el 937.223.6323 o aramirez@mvrpc.org

- Proposed Project Changes (List and Map)
- Regional Emissions Analysis
LRTP AMENDMENTS

Amendment No. 1 – September 2018

The 2040 Long Range Transportation Plan (LRTP) is being amended to establish conformity and reflect changes in output or feasibility of previous LRTP projects being proposed for amendments in the TIP 2018-2021 Transportation Improvement Program (TIP). The amendment is needed as a result of a recent U.S. Court of Appeals for the D.C. Circuit decision (No. 15-1113) which struck down portions of the 2010 Clean Air Act State Implementation Plan Requirements Rule concerning the ozone National Ambient Air Quality Standards (NAAQS) as well as the anti-backsliding requirements associated with the revision of the 1997 Ozone NAAQS. Areas such as ours that were maintenance areas for the 1997 Ozone NAAQS at the time of revision and are designated as attainment for the 2008 Ozone NAAQS have not been required to make transportation conformity determinations for any ozone NAAQS since the 2007 Ozone NAAQS were revised in April 2018 and the recent court decision makes these determinations necessary for ozone NAAQS similarly to other areas.

This amended plan will remain fully consistent and the regional emission analyses results indicate that the 2040 Plan and TIP demonstrate conformity to the Ozone and Fine Particulate standard consistent with the April 2018 U.S. EPA Transportation Conformity Regulations. More information about the amendment can be found below:

Comment: I have concerns about recommendation 838 in Montgomery County for a widening of Wayne Ave from 4 to 5 lanes from Wyoming Street to Anderson Street for the installation of a left turn lane. While I do agree that this section of Wayne Ave needs a turn lane, I am not convinced that widening this street makes it safer for other modes of transportation. In 2011 and 2013 this section was highlighted as a high crash zone for bicycles and pedestrians and the intersection at Wyoming and Wayne continues to be a problematic area for bicycles and pedestrians in the 2014 and 2016 crash data, and continues to make the list for serious injury or fatal crashes. I would like to see a recommendation for this street that better accommodates all modes of transportation that is based off a safety study of this road. I do not believe a widening alone serves the residents of this area who are trying to walk to bus stops or the businesses along Wayne Ave.

Would you like a written response to your comment? Yes

Thank you for attending the August 15, 2018 Long Range Transportation Plan amendment public participation meeting and your comment regarding one of the projects in the Plan (#838). Your comments were presented to the MVRPC Technical Advisory Committee on August 16th and will be presented to the Board of Directors on September 6th. Your comment has also been forwarded to the City of Dayton.

More information about the Long Range Transportation Plan is available at https://www.mvrcp.org/transportation/long-range-planning-lrtp/current-long-range-transportation-plan

Sincerely,

Ana Ramirez
Director of Long Range Planning and Engineering

#Dayton #Ohio we need bike lanes! I HATE driving my car somewhere less than two miles away and it takes 10-15 min to get there because of traffic. A bike I'm there in 5-10 all while exercising and enjoying the outdoors. But our streets weren't made for that. They could be.

Miami Valley RPC @mvrpc  Aug 24
Thank you for your messages. Feel free to send questions and suggestions via the comment link at mvrcorg/lrtp-amendments.

I saw not a single mention of the word bikes/bike lanes or improved public transit. A successful modern city should be addressing these things!
Thank you for your comment regarding the Long Range Transportation Plan (LRTP). The current amendment deals with a really narrow issue regarding changes to air quality regulations. The complete LRTP is available at mvrpc.org/transportation. It includes projects and strategies for transit and the Region’s bikeways, please refer to Chapters 6 and 7.
