BOARD OF DIRECTORS

Every MVRPC member has the opportunity to designate a representative to serve on the Board of Directors, ensuring that each organization has a direct stake in shaping the future of our region. This is a prime example of regional collaboration, giving every member an active role in shaping key decisions. Our Board exemplifies the diversity of the Miami Valley, bringing together perspectives from across the Region to guide MVRPC's mission.

In 2023, MVRPC's Board of Directors had a busy and productive year, guiding several important initiatives that strengthened our region's transportation, infrastructure, and environmental planning efforts. The Board approved key updates to the SFY 2021-2024 and SFY 2024-2027 Transportation Improvement Programs (TIP), as well as priority PDAC projects, and signed off on the SFY 2024 Budget and Work Program. The Board also received updates on key issues like climate pollution, water quality, and regional initiatives.

With new officers and a refreshed Institute for Livable and Equitable Communities Steering Committee & the Miami Valley Regional Transportation Planning Organization Steering Committee in place, MVRPC is positioned for strong leadership going forward. Additionally, we expanded our membership by welcoming the Greater Dayton Area Hospital Association, Ohio EPA and Drive Electric Dayton, reflecting our commitment to broadening partnerships across the region. Thanks to the Board's leadership, we made great strides this year that will have a lasting impact on the Miami Valley Region.

TRANSPORTATION PLANNING & FUNDING

In CY 2023, MVRPC's Board of Directors awarded \$49.7 million in federal transportation funds for forty-three (43) roadway, traffic, bikeway, transit, transportation alternatives, and planning projects. MVRPC's regionally-controlled Surface Transportation Program (STP), Congestion Mitigation/Air Quality (CMAQ), Carbon Reduction (CR), and Transportation Alternatives (TA) grants will fund, when matched with local dollars, over \$76.3 million in transportation projects.

We continued to work with a consultant and local partners on the preliminary design and environmental phases of the EV Charger project. We chaired the Transportation and Government Services review panel of the Priority Development and Advocacy Committee (PDAC) and participated on the Quality of Life and Economic Development review panels of PDAC which is led by the Dayton Development Coalition, a non-government member of MVRPC.
