### PIN Holder Information

Below is the contact information required to request your PIN. By default, it has been populated with the information you entered when you created this account. However, for your Identity Verification, please make sure this is your PERSONAL INFORMATION - i.e. home address and personal phone number.

Your PIN will be generated automatically using the LexisNexis online verification process.

If we are unable to verify your identity online, you will be required to send to Ohio EPA a notarized hardcopy application form (available at the end of this section). Once received and approved, the Ohio EPA will send an email to the email address you provided during the PIN application process. Instructions on how to view and activate your PIN will be included in the email.

# Security Questions

The security questions you create should have answers that only you know. For example, you might enter, "childhood pet's name", "mother's nick name", "favorite middle school teacher's hobby", etc. The security question answer is the exact answer to each of the security questions you enter.

Both questions and answers are spelling and punctuation sensitive, but are not case sensitive. You can have mixed case or all lower or all upper case. The system will not lock you out if you change case later. However, whatever punctuation or spelling you use must be repeated exactly or you will be locked out.

Each security question and answer must be unique. For example, you can't enter the security question, "What was my favorite car?" more than once and you can't use the answer, "Corvette" more than once. Remember to create non-easily guessable questions. For example: "What high school did you attend?" may be guessable by someone who knows you. A better question might be: "Who was my favorite elementary school teacher?"

Keep any record of security questions and answers to those questions in a secure place separate from your Account-related information. Remember, the PIN and the security questions and answers represent your personal signature - keep it secret - keep it safe.
