

MIAMI VALLEY
Regional Planning Commission

Regional Geographic Information System (GIS) Needs Assessment Survey Results

August 12, 2015

BACKGROUND

- PURPOSE

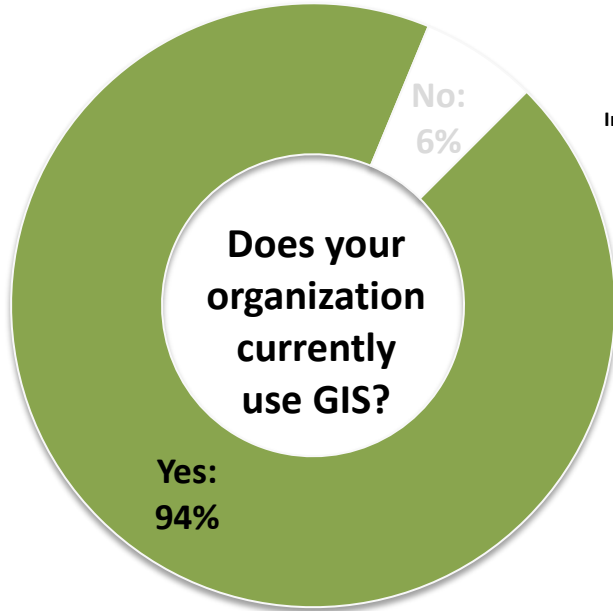

- Identify how GIS is used in the Miami Valley Region and better understand various needs that exist at the local and regional level

- SURVEY

- First survey was conducted between May 6, 2015 – May 22, 2015 and the follow-up survey was conducted between July 7, 2015 – July 21, 2015
- Each survey was sent out directly to 126 recipients (GIS professionals and/or administrators in the local jurisdictions and other regional organizations) with additional promotion to Southwest Ohio GIS Users Group members
- A total of 64 participants during the first survey and 45 participants during the follow-up survey

CURRENT GIS USERS

What software do you use?

How many people use GIS?

What activities do you currently do with GIS?

CURRENT GIS USERS

IN THE FUTURE, WE ANTICIPATE ...

- Using Mobile Technology
- Using Web Technology
- More Data Inventory
- More Data Analysis
- Get More Training

CURRENTLY NOT A GIS USER

Even though there were only 4 organizations who responded as “not current GIS users,” all of them expressed their interest in using GIS in the future for:

- Mapping (All 4)
- Inventory (3 out of 4)
- Analysis (3 out of 4)

GIS DATA INVENTORY

What data do you maintain on a regular basis?

Other includes: Real Estate Data, Water Resource Data, and Transportation Data

What data do you need that you currently do not have?

By Subject

- **Utility Data:** Water, Sanitary Sewer, Oil and Gas, Electric, and Cable
- **Transportation Data:** Sidewalks, Street Addresses, Bike Routes, and Transit Routes
- **Asset Data:** Point of Interest and Community Assets
- **Census Demographic Data**
- **Land Use/Land Cover Data**
- **Topographic Data**

By Geography

- **Regional/Countywide Data**

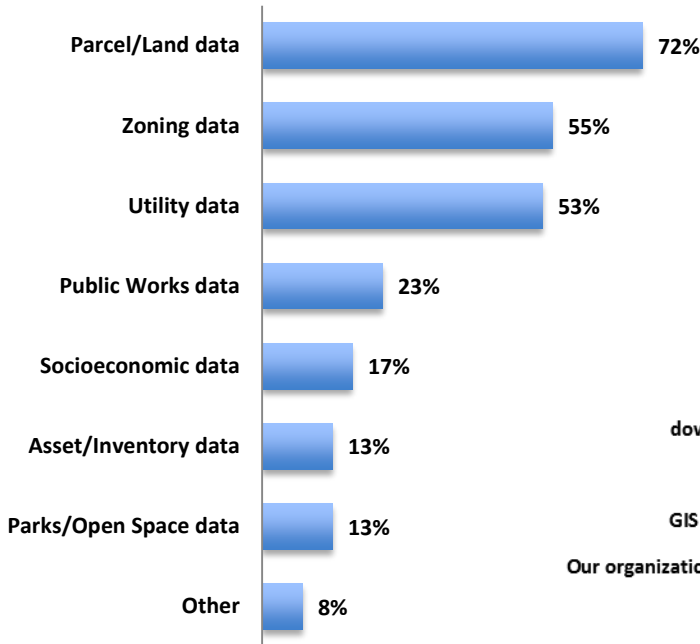

By Format

- **3D Data**

PUBLIC GIS DATA INTERESTS

What GIS data are most often requested from the public?

Other includes: Floodplain Data, Water Resource Data, and Topographic Data

What geographic information is requested that you can't provide?

- Zoning at the Township level
- Utility Information
- Socioeconomic information at the Community and Sub-Community levels

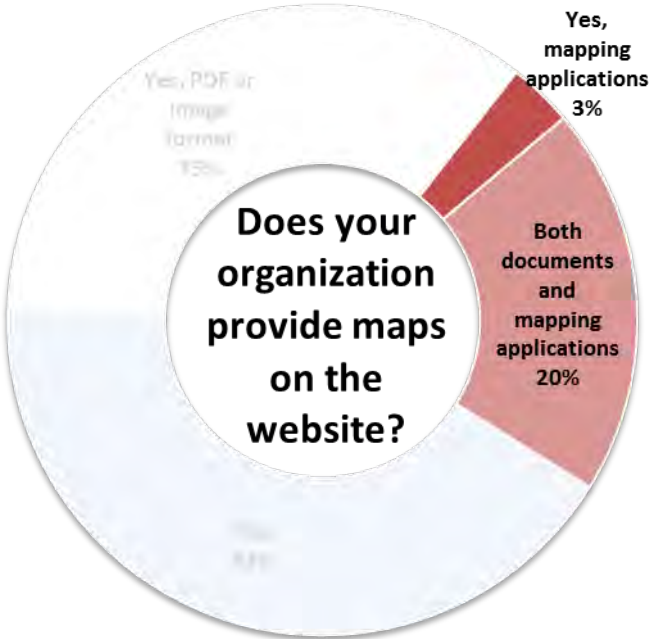

How do you provide the requested data?

Other includes: FTP, Hard Copy, and No Capacity

MAP APPS ON THE WEB

Does your organization provide maps on the website?

Yes, mapping applications
3%

Both documents and mapping applications
20%

Yes, PDF or Image format
77%

What data do you provide through your mapping applications on your website?

Are there any other mapping application(s) that your organization is interested in pursuing in the future?

- Business Directory
- Parks
- Tableau
- Emergency Management Information
- Infrastructure
- Future Land Use
- Asset Management

NO MAP APPS ON THE WEB

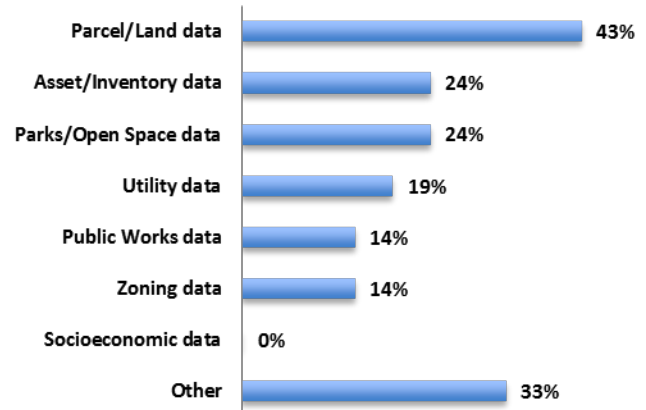

Are you interested in providing mapping applications on your website as a way to share maps?

ARCGIS ONLINE USERS

What do you currently share on ArcGIS Online?

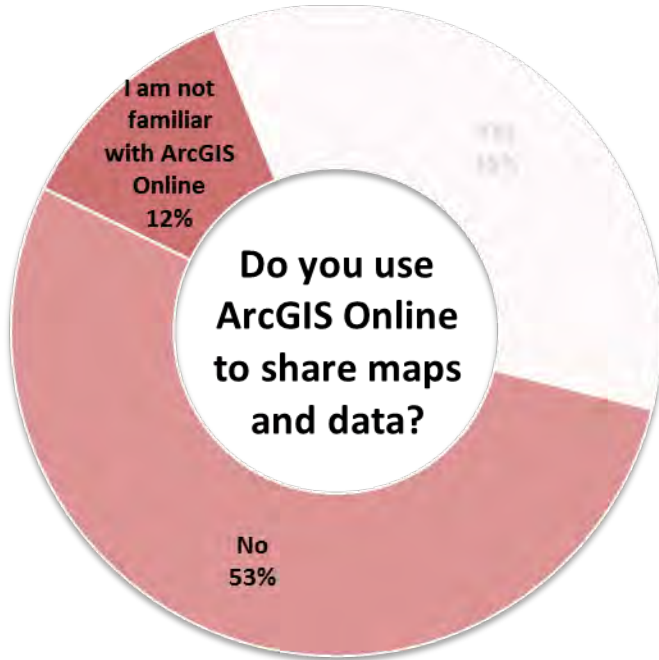

Other includes:

- Transportation Data
- Fire Defense Zones
- Fiber Networks
- Water Resources

NO ARCGIS ONLINE USERS

Are you interested in using ArcGIS Online for data sharing?

PROJECT IDEAS

Do you have any ideas or suggestions on what project(s) our region should pursue?

- Parcel/Land Data Inventory
 - Zoning
 - Future Land Use
 - Vacancies
 - Brownfields
 - 3D Buildings
- Asset Data Inventory
 - Utilities (water, sewer, oil, gas, electric, gas, cable, etc)
 - Community Point of Interest and Assets
 - Recreational Amenities
 - Emergency Management
- Socioeconomic Data Inventory
 - Census Demographic information at the Community and Sub-Community levels
 - Business Directory
- Others
 - Training (Desktop, Data Analysis, Census Data, and ArcGIS Online, etc)
 - Data Resource Catalog (listing of who has what data)
 - Database Standardization

PROJECT IDEAS: PRIORITY RANKING

Of those project ideas, how would you rank your top 5 projects?
